“Delivering Results Together” Fund (DRT Fund) is a global pooled funding facility of the United Nations Development Group (UNDG) that supports the achievement of sustainable development in ‘Delivering as One’ (DaO) countries. Building on the experience of the Expanded ‘Delivering as One’ Funding Window for Achievement of MDGs, the DRT Fund supports high-performing UN programmes through allocations to UN ‘One Funds’ at the country level.
Key Principles of the DRT Fund

- Strong focus on sustainable development results at country level
- Strengthen joined-up efforts of the UN system through the ‘Delivering as One’ approach to address complex multi-dimensional development challenges
- Integrate normative principles (human rights, gender equality, environmental sustainability, etc.) into development work
- Leverage inclusive partnerships and pooled funding mechanisms at global level in support of development in the field
- Effective fund management based on the good practices and lessons learned of the Expanded ‘Delivering as One’ Funding Window (EFW)

The DRT Fund is an effective means to support the UN system Delivering as One for sustainable development results.

Who can access the DRT Fund?

The DRT Fund supports high-performing UN programmes in low-income and lower middle-income countries, which are implementing the ‘Delivering as One’ approach and have established a functioning UN ‘One Fund’ with important local resource mobilization targets (i.e at least 30% of funding gap) achieved.

FOR EVERY US$1 of seed money RECEIVED, additional US$7 WAS MOBILIZED.

“The pooled funds have significantly led to better strategic decision making at both the UN and Government level and strengthened UN agencies’ results delivery.”

Zineb Touimi-Benjelloun, UN Resident Coordinator in Albania.

“The One Funds are innovative catalysts for change and are critical for enhancing national ownership and empowerment of UN Resident Coordinators and United Nations Country Teams.”

H.E Edmond Hashimasto, Deputy Prime Minister and Minister of Foreign Affairs, Albania.

“The Expanded DaO Funding Window mechanism has been a source of UN country coherence, bringing together UN agencies and line ministries to jointly address unmet needs, which may not have been met with conventional earmarked funding.”

Timo Pakkala, UN Resident Coordinator in Pakistan.

The Expanded DaO Funding Window’s allocation to Papua New Guinea was a critical catalyst for local resource mobilization. For every US$1 of seed money received from the EFW, the UN Country Team has managed to mobilize additional US$7 from the donor community and the private sector.
