Period: August 2015**

MONTHLY PROGRESS REPORT RESULTS MATRIX

OUTPUT INDICATORS

Indicator	Geographic Area	Projected Target (as per results matrix)	Quantitative results for the (one month) reporting period	Cumulative results since project commencement (quantitative)	Delivery Rate (cumulative % of projected total) as of date 5th July 2015
------------------	------------------------	---	--	---	--

Description of the quantifiable indicator as set out in the approved project proposal

Under MCA1

Proportion of suspect cases investigated within 24 hours of notification	14 districts in Sierra Leone	>90%	>80%	>70%	66%
Weekly Average of proportion of contacts monitored	14 districts in Sierra Leone	>95%	>90%	>80%	80%

Under MCA03

Number of new health care workers infected by district	14 districts in Sierra Leone	0	0	300 health workers reported to have been infected since the onset of the outbreak.	20%
--	------------------------------	---	---	--	-----

Under MCA09

Incidences of stock out of PPEs	14 districts in Sierra Leone	0	0	0	98%
---------------------------------	------------------------------	---	---	---	-----

Under MCA11

Proportion of incidences of community resistance resolved	14 districts in Sierra Leone	>90%	>85%	>85%	73%
---	------------------------------	------	------	------	-----

EFFECT INDICATORS (if available for the reporting period)

NARRATIVE (See Separate Narrative Reports)

Situation Update *(please describe critical changes, if any, in the situation that affect the project (1-2 paragraphs))*

Key Achievements *(please use this section to highlight your key achievements for the month, using bullet points if preferred)*

To combat the re-emergence of Ebola in Kambia after 50 days of no new case in the district, additional support was deployed into the district. This was a combination of Epidemiologist, contact tracers, social mobilization, logistical support and community engagement officers.

The attached partners brief captures the various components of the implementation of the MPTF funds.

Delays or Deviations *(if any, briefly describe the delays or changes in focus, approach or targets, and provide a short justification for the change (1-2 paragraphs))* There is anticipation that the rainy season would cause a delay in supply distribution to districts with no road networks.

Gender and Environmental Markers *(Please provide disaggregated data, if applicable)*

No. of Beneficiaries		Environmental Markers	
Women		<i>e.g. Medical and Bio Hazard Waste</i>	
Girls		<i>e.g. Chemical Pollution</i>	
Men			
Boys			
Total			

Additional Information *(Optional)*
