

Extension No. 2 of the Joint Programme Document
“Towards Sustainable Solutions for Improved Living Conditions of Palestinian Refugees in Lebanon”

UNDP and UN HABITAT have come together to implement the Joint Programme “Towards Sustainable Solutions for Improved Living Conditions of Palestinian Refugees in Lebanon” with funding from the Swiss Agency for Development and Cooperation (SDC).

The Joint Programme started on 1 November 2011 and was originally scheduled to end on 30 October 2014. The joint Programme was then extended until 31 August 2015 and SDC’s contribution to the joint programme was increased by USD 512,000.

The SDC has now agreed to further extend the implementation period of the project until 31 October 2015 to ensure that UN-Habitat is able to fully disburse its portion of SDC funding.

For these reasons, UNDP and UN HABITAT have agreed to extend the Joint Programme until 31 October 2015.

The Joint Programme duration is revised and extended until 31 October 2015.
