

Record the informations to select CBOs for BMS code monitoring TOT

2016 January

No.	Name of Org:	Interest to participate	No. of staff to participate in 3 day t/n	currently implementing nut: activities	working in rural/ urban area	How many township they are implementing	the capacity to conduct a 1-day t/n	to send regular monthly/ bimonthly reports	Why CBO want to participate in the TOT?	What should the selection criterias be?	Remark
1	Rhododendron Integrated Development Association (RID)	√	15	Nut: awareness	Rural	2	√	√	community need to understand Nut: knowledges more	need to choose actually implement org: within their area	
2	Zewaka Foundation	√	15	Nut: awareness	Rural (big)	2	√	√	because of we don't know about nutrition. Want to give nut: knowledge with local language	should choose the org: far from urban. Because they have the capacity to give nut: education by using local language.	
3	Thirimay Women's Development Cooperative Society Ltd;	√	5	X	Urban/Rural	5	√	√	bz of women development	no suggestion	
4	May Doe Arr Man	√	15	X	Rural	1	√	√	to get more nutrition knowledge to implement for rural community	should choose the org: especially work for Women and Children	
5	Pyin Nya Ta Zaung	√	11	Nut:	Rural + urban	8	√	√	weakness in Nut:. No experience in Nut: practice in ECCD project but only giving micronutrients to Children by collaboration with UNICEF. I think nut: is very important for ECCD after came back from China trip.	Should give this knowledge to community but afraid of educational level. The community can't catch the high technical knowledge and laws.	refused the training.
6	People Hope Community Development	√	10	MCH awareness	Rural	3	√	√	no knowledge about nutrition, low education, suffering from negative effect for children.	actually working LNGOs/ the participants should be love local people/ the NGO which is situated in hard to reach area.	
7	Sympathy Hands Community Development Organization	√	7	School based Nut:	Rural + urban	4	√	√	found weaknesses in the knowledge of the danger of BMS and Nut: knowledge	Should choose Maternal and Child focus CBOs/ Nut: focus	
8	Swan Saung shin	√	5	Nut:	Rural	1	√	√	Important for children, to decrease the child motality rate	actually implement and interest org:	

9	Lin Yaung Chi	√	13	Nut: awareness	Rural	1	√	√	need more nutrition knowledge in urban community	actually implement and keen interest org: for nut: activities. Not for just report.	
10	Pin Lae Pyar Yae Phan Tee Shin	√	6	Nut: awareness and Feeding	Urban	1	√	√	interest in Nut: activities. Want to get momentum for current Nut: activities	children and women focus organization	
11	Myanmar Enhancement to Empower Tribal (MEET)	√	10	Nut: awareness	Urban	1	√	√	to get new knowledge	women and youth focus organization, focus working for Nutrition and Food security.	
12	Pann Pyoe Lett Foundation	√	7	ECCD	Rural	2	√	√	benefit for children	It is good if participant keen interest that kind of training and he/ she want to share in area. If can participate active/ knowledgeable/ accountable people in org:.	
13	Myanmar Baptist Convention (MBC)	√	8	Nut: awareness	Urban	1	√	√	busy with their works	no suggestion	not sure to participate
14	Chan Myae Metta Cooperative Society (CMMCS)	√	17	MNCH + Nut:	Rural	3	√	√	want to knowledge transfer for sustainable. Want to do service delivery.	should be community based org: Nut: capacity is always needed since nut: work is different from other activities. Nut: activities need soft skills in order to do knowledge transferring to community. So should select the CBO which is currently doing BCC activities within the community.	
15	Khumi Youth Development (KYD)	√	10	Nut: awareness	Rural	1	√	√	-	-	
16	Nomin Woman Development Group (NWDG)	√	5	Nut: awareness	Rural	1	√	√	want to give multiplier training to Community	No suggestion	

17	Green Kennedy Group	√	5	Nut: awareness	Rural + urban	3	√	√	to use local food for children to nutrient. To know whether the infant formula is nutrient as they are advertising. It is actually nutrient for children.	no special suggestion	
18	Green Network	√	8	Nut: awareness	Rural + urban	5	√	√	prevention and awareness for danger of using BMS is related to Human Development. Every family can know they can get the protection of law for using BMS in the condition of country which will be accelerating change. To prevent the BMS which will be sell by unfair business men who want to get own benefits only.	actually implementing organizations for nut: in villages and township. The organization contacting with Government Departments.	
19	Kyel Sin May	√	11	X	Rural	1	√	√	decrease knowledge in rural area. Health condition is also decrease because of less nutrition knowledge. Want to give information that Breast Milk is the best for them.	No special suggestion	
20	Network Activity Group (NAG)	X	10	Nut: awareness	Rural	1	-	-	-	-	
21	Chin Youth Organization (CYO)	√	10	Nut: awareness	Urban	1	√	√	good for mothers	rural based because so many farmer and no knowledge people in the area they are implementing.	
22	Kyaukme District Women Development Association (KDWDA)	√	8	Nut: awareness	Rural	7	√	√	to care mothers and children/ found malnutrition cases in	no suggestion	
23	May Myanmar Women's Development Cooperative Society Ltd;	√	5	Nut: awareness	Urban + Rural	4	√	√	WE are impleing RH with safe motherhood. And also maternal nutrition.	interest, the trainer org: should be confident for the training.	

24	Youth Network (Lasio-Northern Shan State)	√	10	Consumer Rt + Food safety	Rural + urban	5	√	√	only given food safety education in area. Not policy session to community. Since northern shan is borderline area, most of mother use illegal BMS which is come from China. Most of mother use it. So it can cause negative effects for mothers and their children in project area. So we want to get that knowledge from SUN CSA. Moreover mobile teams for illegal foods import checking from Government is not in Lasio now.	In our area, there are organization implementing Environmental, Peace and Food Safety projects. The organization which is implementing Food Safety project should get that kind of training than other organization.	
25	Freeland Organization	√	15	Consumer Rt + Food safety	Urban	10	√	√	In our project area, cause negative effect for mostly mothers and the consequences due to CHINA made BMS. All people use China made formula milk for their children. We can't do not: specific knowledge although we know it can cause the danger for children. Because we are not nutrition specialist and now we are not doing for nutrition specific actions. So we can't guide how to choose and eat nutritious food for the mothers.	afraid of not to reach target if SUN CSA give other organizations. Should give for Nutrition related, Food safety related and Child related organization.	
26	New Generation	√	7	Nut:	Urban	4	√	√	because can get more effective in practical. Our staff have less training opportunities. Want to get training. Due to relate current our project activities.	Should choose child focus org: or partner of Unicef and Save the Children.	

27	Golden Plain Livelihood Development Services	√	1	Food security Agriculture Livestock	-	-	X	X	some staff need capacity building. Since nut: is cross cutting issue in their project. Relating current project activities.	Should choose org: which can give time.	
28	Better Life Organization	√	7	Nut:	Rural	4	√	√	-	-	
29	Rhododendron Farmers Association (RFA)	√	15	Nut: awareness	Rural	2	√	√	we don't know about nut: and how to relate nut: and children. How affect nutrition to the child development.	to small local organizaitons. To actively implmenting local organizaitons.	
30	Gold Myanmar	√	3	Food Safety Nut:	Rural	3	√	√	Our org: is currently implementing nut: activities. Also cooking demonstration. Would effective and get momentum for current implementing nut: activities.	Should choose Food Security+ Nut: related org:
