<sup>1</sup> The term "Joint Programme" also refers to Projects.

**Short Description of the Joint Programme:**

The Support to Emerging Federal States (StEFS) Project represents key United Nations proposed support to the Somalia Government, addressing needs primarily at the emerging federal state level but also supporting those federal government structures that critically facilitate new state formation. StEFS has been designed in consultation with the FGS and representatives from new federal states in south and central Somalia, and is designed around five key Outputs. These are:

- Output 1: The political dialogue and consultations around federalism and state formation have been supported
- Output 2: The capacity of the FGS, particularly those institutions engaged in the federalism process is strengthened
- Output 3: Foundational support to Interim State Administrations to ensure an appropriate physical working environment is provided
- Output 4: The capacity of Interim State Administrations with a dedicated focus on '*core public sector capacities*' is enhanced
- Output 5: Civic participation and engagement with Interim State Administrations is strengthened

StEFS ensures that UNSOM and UNDP support, working in close coordination with other development actors, responds to the needs of Somali government structures, particularly capacity building around '*core public sector capacities*' referenced in the Somalia Compact.
