4. Responsible Party Partnership

Nielsen

Nielsen is a Founding Partner of the Lion’s Share Fund. Nielsen will act as the Third-Party Monitoring Agent that provides the methodology to assess the media costs to be paid by the client companies.¹ This service is estimated to cost USD 2.6 million annually. However, Nielsen provides this service to the Lion’s Share Fund for an annual cost of USD 80,000.

As per the above-mentioned pre-existing partnership with Nielsen for the establishment and functioning of the Lion’s Share Fund, Nielsen is designated as a Responsible Party. According to the UNDP Project and Programme Management (PPM) Main Policy on Select Responsible Parties and Grantees: “An implementing partner may enter into a written agreement with other organizations, known as responsible parties, to provide goods and/or services to the project, carry out project activities and/or produce outputs using the project budget. Implementing partners use responsible parties to take advantage of their specialized skills, to mitigate risk and to relieve administrative burdens.”

Article 10 of the policy referring to private sector Responsible Parties notes the following:

“If a funding partner requires a specific responsible party to be selected as a pre-condition of the funding, then this partner may be selected as long as adequate capacity is in place and the national government agrees. Prior authorization from the Chief Procurement Officer is required; this may be done as part of project formulation. Private sector entities must be directly awarded a professional services contract by UNDP.”

Mars, as the first funding partner of the Lion’s Share Fund, along with the Founding Partners of the Lion’s Share (Finch, Clemenger BBDO and UNDP), requires that Nielsen, as per the Fund ToRs, takes upon the role as a Third-Party Monitoring Agent for the Fund. The Founding Partners finds that Nielsen has the adequate capacity to carry out this role. Approval from “the national government” is not of relevance here as the Lion’s Share is a global level fund capitalized by private sector entities.

The legal instrument to engage Nielsen as a Responsible Party will be a Contract for Goods and Services.
