<b>Focal Point and Details - Provide details on agency and Cluster focal point for the project (name, email, phone).</b>			
<b>(O) Agency focal point for project:</b>	Name*	Zahra Ugas Farah	Title
	Email*	zfera@hotmail.com	Phone*
	Address	P.O.BOX 41095-00100, Nairobi	

**3. BACKGROUND AND NEEDS ANALYSIS (please adjust row size as needed)**

<b>(A)</b> Describe the project rationale based on identified issues, describe the humanitarian situation in the area, and list groups consulted. (maximum 1500 characters) *	The district of Afgooye (L. Shabelle), has a population of Afgooye – 135,000 (2005 UN population figures) a total of 35,000 in crisis of whom 7,000 are in HE and 28,000 in AFLC . Failure of the Deyr seasonal rains linked to the prevailing La Niña phenomenon which is affecting Somalia, has led to a need for humanitarian assistance in the areas. In Lower Shabelle agro-pastoral and riverine livelihoods zones, the nutrition situation is in critical phase, while among the Afgoye IDPs, the situation remains in a sustained Critical phase. Food access has been constrained by the effects of long-term drought and insecurity. Local cereal prices has increased, sorghum price has increased by 80% while maize by 58%. low agricultural activities, crop failures has deprived poor household labor opportunities. Therefore the purchasing power of the poor HHs has been severely affected. Terms of trade between labor and cereals dropped by 51% when compared to December 2009 (FSNAU Post Deyr Analysis, 2010-2011). Consumer index price trend has drastically changed with 32% inflation. Returnees, IDPs and the hosts in these areas have overstretched the social support and other
<b>(B)</b> Describe in detail the capacities and needs in the proposed project locations. List any baseline data. If necessary, attach a table with information for each location. (maximum 1500 characters) *	The Agro-pastoral communities in HE and AFLC are facing inflation of 32% (Afgooye), at a time when loss of livelihood assets continues which is leading to destitution. At the moment, the people can only adopt negative coping strategies to raise money to meet basic needs such as buying food and this only serves to worsen the situation. These include sale of domestic and productive assets, skipping meals and migration leading to split of families. This is contributing to the critical nutrition situation (FSNAU Post Deyr Analysis, 2010-2011) in the target areas. Children and women are the most affected by this situation. For instance, rate of malnutrition is up to 21% GAM among children in Afgoye. In this situation, the communities will be unable to recover on their own even if good rains are received during the next rainy season because inputs for crop production are missing. IDP numbers continues to be high, thereby increasing pressure on social support while destitute Agro-pastoralists continue to move into urban areas. With reduced income levels, the communities need support to address these in the medium term. Distribution of quality seeds, open up of farms
<b>(C)</b> List and describe the activities that your organization is currently implementing to address these needs. (maximum 1500 characters)	FERO is currently undertaking a project in collaboration with UNDP on conflict and peace building in Galkayo, Hobyo and Gowan districts in Mudug region. The project is contributing to a conducive environment for livelihood development by resolving conflicts and sustaining peace among the diverse clans that conflict with each other periodically especially over limited resources.

**4. LOGICAL FRAMEWORK (to be completed by organization)**

<b>(A) Objective*</b>	Livelihood support to the needy farmers in 8 locations in Afgoye District.		
<b>(B) Outcome 1*</b>	2000 farmers received seeds to grow, while 10 women led HH received irrigation pumps		
(C) Activity 1.1*	Beneficiary identification		
(D) Activity 1.2	Distribute 20,000Kgs of cow peas and 20,000Kgs maize seeds to 2000 riverine farmers in the 8 locations in Afgoye		
(E) Activity 1.3	Procure and distribute 10 irrigation pumps to 10 women-led farming cooperatives		
(F) Indicator 1.1*	Agriculture and Livelihoods	Number of people (divided per livelihood groups and by gender) th	<b>Target*</b> 2000
(G) Indicator 1.2	Agriculture and Livelihoods	Number of households that have farming restored	<b>Target</b>
(H) Indicator 1.3	Agriculture and Livelihoods	Number of women headed households with irrigation pumps	<b>Target</b>
<b>(I) Outcome 2</b>	612 HHs benefit from improved income and alternative livelihood options		
(J) Activity 2.1	612 HHs are selected for cash for work activities		
(K) Activity 2.2	Clear 600 acres of farmland in Afgoye, through Cash For Work (CFW)		
(L) Activity 2.3			
(M) Indicator 2.1	Agriculture and Livelihoods	Number of people (divided per livelihood groups and by gender) th	<b>Target</b> 612
(N) Indicator 2.2	Agriculture and Livelihoods	Number of households receiving improved income from CFW	<b>Target</b>
(O) Indicator 2.3	Agriculture and Livelihoods	size of farmland acreage cleared	<b>Target</b>
<b>(P) Outcome 3</b>	3 communities with a population of 18000 women and 12,000 men have improved preparedness and response capacity		
(Q) Activity 3.1	Train 100 women and 50 men on production techniques and disaster risk reduction relevant to their context		
(R) Activity 3.2	Communities participate in DRR activities, e.g. flood control & spot repair of weak river banks		
(S) Activity 3.3	rehabilitation of 7 weak river embankments 160 meter long per embankment		
(T) Indicator 3.1	Agriculture and Livelihoods		<b>Target</b> 150
(U) Indicator 3.2	Agriculture and Livelihoods	Number of people trained	<b>Target</b>
(V) Indicator 3.3	Agriculture and Livelihoods	number of river bank	<b>Target</b>
<b>(W) Implementation Plan*</b> Describe how you plan to implement these activities (maximum 1500 characters)	<p>FERO will do the implementation in the target areas. Each activity is planned to be implemented where it is most relevant with the livelihood group and will be carried as in the work plan below. In the identification of the beneficiaries the communities will be deeply involved through local elders and community representatives who will be facilitated to form implementation committees. The committees will select actual beneficiaries and also will be involved in solving any disputes related to the project besides liaising with the local administration to ensure a conducive environment is maintained. FERO plan to distribute 20,000kg of Cow peas seeds and 20,000kg of Maize, these seeds are chosen for they form the basic crops that are grown in the area and it was also the wish of the local community that requested for the cow peas and the maize and that was based on the seeds popularity and success. The quality of the seeds will be tested by the agricultural officers who will take samples for test through germination and other ways to ensure fit</p>		

**5. MONITORING AND EVALUATION (to be completed by organization)**

**(A)** Describe how you will monitor, evaluate and report on your project activities and achievements, including the frequency of monitoring, methodology (site visits, observations, remote monitoring, external evaluation, etc.), and monitoring tools (reports, statistics, photographs, etc.). Also describe how findings will be used to adapt the project implementation strategy. (maximum 1500 characters) \*

The monitoring of the project will be undertaken by FERO in collaboration with the local committees and relevant local communities. FERO will facilitate the establishment of community-based monitoring system whereby project activities shall be monitored by the beneficiaries and FERO personnel, based on the logical framework. The organization has offices in Mogadishu and Afgoye where relevant project staff will be based, thereby ensuring easy access to all the sites. The monitoring committee comprised of the staff and the community representatives will meet regularly to discuss the progress and achievement of the project plans against the set targets, noting accomplishments and gaps, and proposing corrective measures and follow-up activities where necessary. A senior FERO staff will visit the project sites on regular basis for overall supervision and validation. Monthly reports will be prepared and submitted by field level staff to the Mogadishu Office of FERO. This will provide updates on achievements, challenges and plans for the upcoming month. Periodic progress reports (as shall be agreed upon) shall be submitted to UN-OCHA in the course of the implementation period. A final Program and Financial report will be submitted at the end of the project period.

**(B) Work Plan**  
Must be in line with the log frame. Mark "X" to indicate the period activity will be carried out

Activity	Timeframe					
	Week 1-4	Week 5-8	Week 9-12	Week 13-16	Week 17-20	Week 20-24
1.1* Beneficiary identification	X					
1.2 Distribute 20,000Kgs of d		X				
1.3 Procure and distribute 10		X				
2.1 612 HHs are selected for	X					
2.2 Clear 600 acres of farmla	X	X				
2.3 Train 100 women and 50	X					
3.1 Communities participate		X				
3.2 rehabilitation of 7 weak		X				
3.3 rehabilitation of 7 weak river embankments 160 meter long per embankment						

**6. OTHER INFORMATION (to be completed by organization)**

**(A) Coordination with other activities in project area**  
List any other activities by your or any other organizations, in particular those in the same cluster, and describe how you will coordinate your proposed activities with them

	Organization	Activity
1		
2		
3		
4		
5		
6		
7		
8		
9		
10		

**(B) Cross-Cutting Themes**  
Please indicate if the project supports a Cross-Cutting theme(s) and briefly describe how. Refer to Cross-Cutting respective guidance note

Cross-Cutting Themes (Yes/No)	Outline how the project supports the selected Cross-Cutting Themes.	Write activity number(s) from section 4 that supports Cross-Cutting theme.
Gender	Yes	There will be deliberate steps to not only benefit women but also to make them
Capacity Building
