Please do not change the format of the form (including name of page) as this may prevent proper registration of project data.

For new proposals, please complete the tab for 'Project Document', 'Budget' and 'Locations'
Mandatory fields are marked with an asterisk

Project Document

1. COVER (to be completed by organization submitting the proposal)

(A) Organization*	Community Activity For Development and Relief Organization			
(B) Type of Organization*	<input type="checkbox"/> UN Agency <input type="checkbox"/> International NGO <input type="checkbox"/> Local NGO <input type="checkbox"/> Local NGO			
(C) Project Title* <small>For standard allocations, please use the CAP title.</small>	Emergency Outpatient Therapeutic Feeding and Supplementary Feeding in Luuq, Doolow and Belet Xaawo Districts, Gedo Region			
(D) CAP Project Code	SOM-11/H/39897/14581	Not required for Emergency Reserve proposals outside of CAP		
(E) CAP Project Ranking	High	Required for proposals during Standard Allocations		
(F) CHF Funding Window*	Standard Allocation 2 (Feb 2011)			
(G) CAP Budget	213271	Must be equal to total amount requested in current CAP		
(H) Amount Request*	212161.00	Equals total amount in budget, must not exceed CAP Budget		
(I) Project Duration*	12 months	No longer than 6 months for proposals to the Emergency Reserve		
(J) Primary Cluster*	Nutrition			
(K) Secondary Cluster	Nutrition	Only indicate a secondary cluster for multi-cluster projects		
(L) Beneficiaries Direct project beneficiaries. Specify target population disaggregated by number, and gender. If desired more detailed information can be entered about types of beneficiaries. For information on population in HE and AFLC see FSNAU website (http://www.fsnau.org)		Men	Women	Total
	Total beneficiaries	1961	3363	5324
	Total beneficiaries include the following:			
	Children under 5	1961	1963	3924
	Pregnant and Lactating Women	0	1400	1400
	0	0	0	
	0	0	0

Focal Point and Details - Provide details on agency and Cluster focal point for the project (name, email, phone).				
(O) Agency focal point for project:	Name*	Mohamed Haibe Hidig	Title	Program Director
	Email*	cafdaro@yahoo.com or haybexidig@yahoo.com.au	Phone*	+254722111436
	Address	Ganana building Office Luuq district-Gedo region,Phone +2524362104		

3. BACKGROUND AND NEEDS ANALYSIS (please adjust row size as needed)

(A) Describe the project rationale based on identified issues, describe the humanitarian situation in the area, and list groups consulted. (maximum 1500 characters) *	According to the FSNAU integrated analysis of data from nutrition assessments conducted in Gedo in December 2010 shows a very critical nutrition situation among the three livelihood groups in the region. The nutrition assessment among the pastoral population indicates a GAM rate of 26.4% and SAM rate of 4.4%. An assessment among the Riverine population showed a GAM rate of 26.7% and SAM rate of 6% while an assessment conducted among the agro-pastoral population show a GAM rate of 25.3% and a SAM rate of 6.5%. The worrying nutrition situation in the region is mainly linked to chronic underlying factors including ; poor dietary quality, sub-optimal child care and feeding practices, and limited access to basic human services such as safe water, health and sanitation facilities, which predispose populations to high morbidity and subsequently high levels of acute malnutrition. The situation is further aggravated by the negative impact of the poor Deyr '10 rainfall performance manifested by crop failure and poor livestock production which has significantly affected household access to cereals, milk and income.
(B) Describe in detail the capacities and needs in the proposed project locations. List any baseline data. If necessary, attach a table with information for each location. (maximum 1500 characters) *	According to FSNAU caseload estimation of Severe Acute Malnourished children in Gedo is 6,305, Moderate Acute Malnourished children is 26,270 and pregnant and lactating mothers is 3,363. The vulnerability to high acute malnutrition levels in the region was largely attributed to chronically high morbidity, poor access to diversified diets and basic services such as health, safe water and sanitation facilities and sub-optimal infant and young child feeding and care practices. This project aims to increase access to quality nutrition services through Outpatient Therapeutic Feeding and Supplemental feeding interventions, micronutrient supplementation, deworming, and health and nutrition education programs through the establishment of 5 Outpatient Therapeutic Program centres and 23 Supplementary Feeding Program sites as well as addressing some of the WASH factors that predispose children to acute malnutrition. The project will be carried out in Beled Xawa, Luuq and Dollow districts of Gedo region. Absolute population data and estimates related to the beneficiaries is as attached in the document section.
(C) List and describe the activities that your organization is currently implementing to address these needs. (maximum 1500 characters)	Since May 2010 CAFDARO through UNICEF support has been delivering targeted Supplementary Feeding Program for moderately malnourished children in 25 sites in Luuq. CAFDARO has so treated a total of 2982 Supplementary Feeding Program beneficiaries. The 25 existing sites include Garsow, Abow, Warta cad, Babaa, Buyle, Caracase, Dogob, Garbolow, Gubad, Halbo 1, Horsa, IDP A, B, C and D, Laba-nasyaha, Taleex, Wrcilan, Qaasale, Warta cad, Xabadale, Lagadimo, Haradinta, Halbo 2, Luuq-gudey and Banmundule. CAFDARO intends to continue supporting Luuq population with 2 OTP centers and 5 SFP sites and establish 2 OTP centers in Belet Xawa and 9 SFP sites. Dollow will benefit from 1 OTP center and 9 SFP sites. cafdaro has submitted a proposal to UNICEF for OTP/SFP supplies of the 25 new sites. The intervention will target 60% of Severely Acute Malnourished, Moderately Acute Malnourished children and Pregnant and lactating Women in the target population.

4. LOGICAL FRAMEWORK (to be completed by organization)

(A) Objective*	To reduce morbidity and mortality associated with acute malnutrition among the 3,924 U5s and 1400 PLWs in the targetted areas thro		
(B) Outcome 1*	The OTP Centers will effectively manage 1,925 severely malnourished children and PLWs throughout the year and reduce morbidity a		
(C) Activity 1.1*	Provide therapeutic care for identified OTP beneficiaries		
(D) Activity 1.2	Refer severely malnourished cases with medical complications to the stabilization centres		
(E) Activity 1.3	Identify and involve Community nutrition volunteer on case finding, case identification and referrals of OTP beneficiaries		
(F) Indicator 1.1*	Nutrition	SAM treatment programs achieve > 75% cured rates, default rate	Target* 1925
(G) Indicator 1.2	Nutrition	Number of OTP referrals to the stabilization centre	Target
(H) Indicator 1.3	Nutrition	Number of OTP beneficiaries that were referred by CNV for admn	Target
(I) Outcome 2	Reduce malnutrition and improve nutrition levels of < 5 boys and girls, pregnant and lactating mothers through SFP services		
(J) Activity 2.1	Conduct screening of beneficiaries eligible for SFP services		
(K) Activity 2.2	Provision of supplementary food ,systematic treatment and micronutrients to moderately malnourished children and PLWs		
(L) Activity 2.3	Provision of health and nutrition education to beneficiaries and care givers		
(M) Indicator 2.1	Nutrition	MAM treatment programs achieve > 75% cured rates, default rate	Target 3,399
(N) Indicator 2.2	Nutrition	Number of SFP beneficiaries that have received systematic treatn	Target
(O) Indicator 2.3	Nutrition	Number of health education sessions conducted during distributio	Target
(P) Outcome 3	Exclusive breastfeeding and maternal nutrition promoted via behavior change education approaches using BNSP		
(Q) Activity 3.1	60% of eligible pregnant and lactating women receive multiple micronutrients, deworming and vitamin A supplementation.		
(R) Activity 3.2	Formation and Identification of breast feeding mothers group that will be involved in advocating healthy IYCF practices		
(S) Activity 3.3	Promotion and support for optimal IYCF Activities		
(T) Indicator 3.1	Nutrition		Target 1400
(U) Indicator 3.2	Nutrition	Number of target women participating in advocating for IYCF prac	Target
(V) Indicator 3.3	Nutrition	Number of staff from partner agencies trained and active in IYCF	Target
(W) Implementation Plan* Describe how you plan to implement these activities (maximum 1500 characters)	The community familiarization meeting will be held with the leaders,then identify sites using the leaders,carry out recruitment consequently involve the community represenatives in community mobilization. Beneficiaries will be identified through screening using anthropometric measurements at community and Outpatient Therapeutic Programme (OTP)/Supplementary feeding sites. Severely malnourished children with medical complications will be referred to the local hospital in Beled Xawa and Luuq for treatment using a referral allocation that will be used to hire vehicles in absence or inavailability of the project vehicles. Moderately malnourished children in will be referred to SFP. Unvaccinated children and those with minor illnesses will be referred to the nearest MCH/mobile clinic. Admission criteria will follow Somalia IMAM guidelines. Project coordination, monitoring and evaluation will be (programme deliver) provided through partner training, supervising supervision		

5. MONITORING AND EVALUATION (to be completed by organization)

(A) Describe how you will monitor, evaluate and report on your project activities and achievements, including the frequency of monitoring, methodology (site visits, observations, remote monitoring, external evaluation, etc.), and monitoring tools (reports, statistics, photographs, etc.). Also describe how findings will be used to adapt the project implementation strategy. (maximum 1500 characters) *

Cafdaro will monitor the project through direct presence and the nutrition officer based in the field will use the daily records to generate weekly reports that will be used to compile for mid-term and final reports for submission. Gender will be addressed through sex disaggregation to determine the gender impact in regard to the programme. Nutrition staff based in the field will be responsible of direct implementation of the activities and to provide weekly flash reports of the activities to the nutrition officer. On a monthly basis a more detailed report will be provided including an update of baseline data, information on the evolution of potential beneficiary numbers, photo documentation, financial and admin data quarterly. The nutrition officer through regular field visits will supervise field implementation of the activities the collection data and their regular update by the nutrition staff. On the basis of the information obtained through the M&E activities project implementation strategies will be constantly updated in particular in terms of targeting, overlapping, sub-areas of intervention, implementation timetable update. The nutrition officer will be part of the regional nutrition cluster as CAFDARO is the Gedo is the regional nutrition focal point and will be holding monthly coordination meetings while the executive manager will be sharing outcomes of the program through the monthly national nutrition cluster meetings. Cafdaro have submitted a proposal seeking support from UNICEF on supplies for the beneficiaries targetted in this proposal.

(B) Work Plan
Must be in line with the log frame.
Mark "X" to indicate the period activity will be carried out

Activity	Timeframe					
	Please select 'weeks' for projects up to 6 months, and 'months' for projects up to 12 months					
	Month 1-2	Month 3-4	Month 5-6	Month 7-8	Month 9-10	Month 11-12
1.1* Provide therapeutic care	X	X	X	X	X	X
1.2 Refer severely malnouris	X	X	X	X	X	X
1.3 Identify and involve Com	X	X	X	X	X	X
2.1 Conduct screening of be	X	X	X	X	X	X

3.2 Formation and Identificat	X	X	X	X	X	X
3.3 Promotion and support fo	X		X			

6. OTHER INFORMATION (to be completed by organization)

(A) Coordination with other activities in project area
List any other activities by your or any other organizations, in particular those in the same cluster, and describe how you will coordinate your proposed activities with them

Organization	Activity
1 Trocaire	running OTP, MCH and Hospitals in Beled Xawa, Dollow, Luuq, Garbarey and Burdo
2 AMA	running SFP in beled xawa and Elwak
3 SRDA	running SFP in Luuq- we have an agreed arrangement on the sites and program r
4 EDRA	running SFP in Luuq and cordination has mainly been on overlapping
5 CEDA	running SFP in Dolow and we codinate with them on overlapping and future progr

(B) Cross-Cutting Themes
Please indicate if the project supports a Cross-Cutting theme(s) and briefly describe how. Refer to Cross-Cutting respective guidance note

Cross-Cutting Themes (Yes/No)	Outline how the project supports the selected Cross-Cutting Themes.	Write activity number(s) from section 4 that supports Cross-Cutting theme.
Gender	Yes	Cafdaro will maintain gender balance in all proposed activities. Community
Capacity Building
