4. LOGICAL FRAMEWORK (to	be completed by organization)
(A) Objective*	To increase food access to the most for

(A) Objective*	To increase food access to the most food insecure households in the project target area.							
(B) Outcome 1*	Awareness is raised among the community members about the project							
(C) Activity 1.1*	Community mobilization and sensitization							
(D) Activity 1.2	Selection of community project implementation committee							
(E) Activity 1.3	Training of project committee members on project implementation process							
(F) Indicator 1.1*	Food Assistance Target* 5000							
(G) Indicator 1.2	Food Assistance	Food Assistance 42 females and 28 male are selected from the mobilized commun Target						
(H) Indicator 1.3	Food Assistance							
(I) Outcome 2	536 most food insecure household	536 most food insecure households will have increased access to food.						
(J) Activity 2.1		Selection and registration of project beneficiaries						
(K) Activity 2.2	Identification and selection of the	dentification and selection of the food suppliers						
(L) Activity 2.3	Distribution of food ration to the se	Distribution of food ration to the selected project beneficiaries						
(M) Indicator 2.1		Target 3217						
(N) Indicator 2.2		Suppliers from local community, each supplier supplying a particu Target						
(O) Indicator 2.3	1,827 children, 480 men and 910 female Target							
(P) Outcome 3		-						
(Q) Activity 3.1								
(R) Activity 3.2								
(S) Activity 3.3								
(T) Indicator 3.1	Target							
(U) Indicator 3.2	Target							
(V) Indicator 3.3	Target							
(W) Implementation Plan*	The implementation of the project will begin by community mobilization and awareness creation of the project. The project							
Describe how you plan to	implementation committee will be formed and they will be trained on how to assist in implementing of the project. Together with the							
implement these activities	project implementation committee community village elders and HOD will develop beneficiary selection criteria. Priority will be given							
(maximum 1500 characters)		to women headed households, physically handicapped,the old, low income households and the other under privileged in the society.						
	Food will be purchased from local	Food will be purchased from local business men. With the help of the community elders the beneficiaries will thereafter be						
	registered with their respective family sizes. The selected beneficiaries will be registered according to their family sizes and							
	thereafter food distribution to households will begin, the register will be marked on each distribution time and signed by the head of							

5. MONITORING AND EVALUATION (to be completed by organization)

(A) Describe how you will monitor, evaluate and report on your project activities and achievements, including the frequency of monitoring, methodology (site visits, observations, remote monitoring, external evaluation, etc.), and monitoring tools (reports, statistics, photographs, etc.). Also describe how findings will be used to adapt the project implementation strategy. (maximum 1500 characters) *

Post distribution monitoring will be done in order to determine the actual quantity of the ration that is received by the population in relation to the intended or theoretical amounts pledged, at a short distance from the distribution site and/or at the household level, a systematic sample of households will be selected to check the family size, observe the food stock of the households, check how food is being used, meals per day for the households,establish the different types and frequency of coping mechanism used by households during food shortages, know if food is distributed on timely manner and if they appreciate the work of the organization. In each of the households visited, food items will be weighed to determine the amount of food received per person per day. The assessment team will use questionnaires in order to obtain the relevant data. This will be done after every distribution period. HOD M&E consultant, project committee and village elders will jointly conduct the post distribution monitoring. Frequent visits to the places of food distribution will be done and records taken. The activities to be monitored include (1) community mobilization activities (2) selection and registration of the project beneficiaries and their locations (3) Distribution of the relief food (4) working success of the food distribution (5) and the impact of the project on the beneficiaries. The project will produce bi-weekly and monthly reports to HOD office in Nairobi and as well to the donor, other documents to be produced include photos and signed list of the beneficiaries with their names. Mid term and final narrative and financial reports will be presented on completion of the project and

(B) Work Plan

Must be in line with the log frame. Mark "X" to indicate the period activity will be carried out

auditing will be done by an externa	auditor. All lessons learnt from the project will be assimilated in to future program design and will
