3. BACKGROUND AND NEEDS ANALYSIS (please adjust row size as needed)

(A) Describe the project rationale based on identified issues, describe the humanitarian situation in the area, and list groups consulted. (maximum 1500 characters) *	RAWA has conducted an assessment on people in need, including IDPs crossing the town towards Kenyan Refugee camps, in three areas. In Buale district, there are 3,300 households (about 19,800 people), including in Buale town and 46 surrounding riverine villages, IDPs households, Urban poor and pastoral. RAWA plans to distribute food to the whole district. The people in the areas were found living in bad shape in terms of their access to food for the households, we found out that the drought has affected people to the extent that a large number of the households have exhausted their coping mechanisms while they have lost livelihood or livestock and/or plot of land in the town, particularly the poor subsistence farmers in Buale district. The community have appealed donor communities to prioritize food aid distribution to the people at risk in order to save their lives because people have started to die of starvation while some who could move have already displaced to seek refugee in Kenya refugee camps in Dadaab. RAWA has learnt if the food aid is not provided in emergency basis many more people will be seen and heard of dying in the current
(B) Describe in detail the capacities and needs in the proposed project locations. List any baseline data. If necessary, attach a table with information for each location. (maximum 1500 characters) *	RAWA has base offices in Banadir, Xarardheere, Nairobi and Middle Juba Buale town, RAWA had planned to undertake an emergency intervention in Buale district in response to the famine in the areas. RAWA had planned to distribute 5 items of food to the people in need for two months of food voucher programming, the items with their monthly allocation include 40.5 kg rice, 40.5kg wheat-flour, 14.4kg pulses, 5.4kgs of vegetable oil and 4.5kg of sugar per family per month. RAWA organization is able to implement it through food vouchers where local traders will be contracted to supply the items at the local price. Cash vendor will also be contracted to provide amount of cash required to the food vendor against the vouchers RAWA will be distributing to the beneficiaries once. The food vendors will purchase food from Mogadishu or Kismayo and transport it to concerned sites in emergency basis for distribution to the starving people at their locations, the food that RAWA has planned to be distributed is 631.8 Mt in two months while 315.9 Mt will be the monthly allocation to be distributed. This scheme will help sustain the households for
(C) List and describe the activities that your organization is currently implementing to address these needs.(maximum 1500 characters)	RAWA has very recently undertaken a rapid assessment on the same people and areas under Buale district. We have already produced our rapid assessment report and shared it with WASH/Nutrition/Agriculture and livelihood clusters, copy of the same amended report is attached here for your information and further necessary action. We are also monitoring the situation as we are at field with the starving people and share the catastrophe with them. We have planned WASH intervention in the same areas at the same time, we have asked for funds for shelter/NFI assistance to OCHA. We also plan to raise funds for farm input such as tools, water pumps, fuel and seeds. The IDPs crossing the Buale town also need to be assisted on their way or else assist them get back to their destinations with proper support package in Buale as also found out them in need of livelihood assistance at their original dwelling such as skill training, income generating activities. The attached report shows the proper interventions that RAWA recommends. RAWA has implemented water voucher program funded by OCHA in the central regions in this year though RAWA is

4. LOGICAL FRAMEWORK (to be completed by organization)

(A) Objective*	To save lives in emergency situation of IDPs and poor riverine, agropastoral and urban in Buale district Middle juba region through food		
(B) Outcome 1*	Assist 3300 households (about 19,800 people) in Buale district through distribution of 694.98 Mt of food within August and September		
(C) Activity 1.1*	Community mobilization to form committees of 7 members in each of the sites then they will be able to select the beneficiaries. Register

(W) Implementation Plan* Describe how you plan to implement these activities (maximum 1500 characters)	RAWA intends to implement the food aid distribution to the people in dire need of food, RAWA will mobilize the community to enable them to select the project committee then the same committees will be assigned to register starving households in the community mainly women to receive the food for the household. Men will be considered for the households whose mother has either passed away or not there anyway but will prioritize women. Beneficiary acknowledgement form where head of household name, gender, amount of each food item in Kgs and thumb print/signature will be shown on the same format. Allocation of food per household will be shown on a display board at the main centers of the respective site so that each household will know amount entitled. Situation monitoring of the district estimated population of 238,877 people will continue to be undertaken. Food vendor will be selected through tender and the most appropriate bidder in terms of cost effectiveness and efficiency will be selected by the food aid		

5. MONITORING AND EVALUATION (to be completed by organization)

(A) Describe how you will monitor, evaluate and report on your project activities and achievements, including the frequency of monitoring, methodology (site visits, observations, remote monitoring, external evaluation, etc.), and monitoring tools (reports, statistics, photographs, etc.). Also describe how findings will be used to adapt the project implementation strategy. (maximum 1500 characters) *

RAWA officers at field along with the community will maintain food distribution monitoring. The RAWA officers and community committees will continually monitor the distribution of food through the vouchers. An onsite monitoring will focus on the amount of food each household receives with details of the voucher number and date. The monitoring will be conducted onsite and post monitoring to look at what have been distributed to the beneficiaries and what effect or impact the distribution has on the beneficiaries. The monitoring report will be incorporated in to the monthly report where monitors conducted and the officers conducted will be shown with their findings. Evaluation of the project activities will also be conducted on what have been achieved, if any constraints, what solutions have been made. The lessons learnt will also be recorded for future reference. RAWAs main office in Buale town field office with number of staff ranging from 1 to 2 person per site whose services will be used to implement this project at their respective sites. The project will be monitored daily, weekly, biweekly and monthly by different officers in the project along with the community. Rasawad Welfare Association (RAWA) with support of the community participation will form project implementation committee (PIC) from the community that will compose of 7 members (3 women and 4 men) of target beneficiaries in all sites. Both quantitative and qualitative data will be collected through methodological use of questionnaires, measurement, observation, focus group discussion, primary and secondary data review, individual and group interview. The monitoring will look at improvement in response to any noted shortfalls where progress of project activities will be recorded. The indicators of the number
