proposed project locations. List any baseline data. If necessary, attach a table with information for each location. (maximum 1500 characters) *	CISP will mitigate the mentioned risks by focusing on the capacities of targeted MCHs in Bondhere, Yaqshid, Karaan and Afgoye to deliver qualitative services. 17150 targeted beneficiaries are divided along the pillars of the objective 1 of the cluster response plan 2012. 1) Strengthening multi-sectoral response mechanism: the proposal will target around 5150 women and girls survivors in need of medical and psychosocial assistance, including referral to secondary health assistance for grave cases. 2) Strengthening community safety and security: 3168 men, 3432 women, 2592 boys and 2208 girls will be involved in the building of community driven protection mechanisms 3) Increasing gender sensitive livelihood initiatives: the proposal will aim at expanding livelihood choices of 150 women and girls survivors. These 3 target groups will be involved through consultations with communities already engaged by CISP under health, protection and education projects. The capacities of the communities of Bondhere, Yaqshid, Karaan and Afogye to detect and refer survivors to health centres are enhanced by community elders and women groups. The identification of survivors in need to expand the livelihood choices is implemented through the cooperation of the medical staff in the MCHs and the community based groups. The District Commissioners, the community groups and key entry actors (i.e teachers of primary schools) support the idea of continuing the existing intervention funded by CHF.									
implementing to address these needs.(maximum 1500 characters)	CISP is implementing a protection project under CHF in Yagshid, Bondhere and Karaan. The project provides: medical and psychosocial counseling for survivors through training of medical staff in MCHs; referral of grave cases; whether the redical treatment for extremely low income survivors; capacity building initiatives, including workshops on PSEA, for community based groups, authorities and local actors involved in protection. CISP coordinates its initiatives with other protection interventions by attending the Protection Cluster and related WGs at Nairobi and Mogadishul level. With specific reference to the GBV WG, CISP is among 12 NGOs that have signed the GBV IMS Information Sharing Protocol. Thus CISP collects data on sigle incidents and shares it with UNHCR for the monthly consolidated reports. CISP is also planning to join the case management WG to enhance the referral system and the definition of SoPs in Mogadishu. CISP health sector supports the intervention by equipping the MCHs and training the health staff under OFDA. Through a partnership with FERG and Releif International CISP supports MCHs in Afgoye. The health sector is seeking more funds for the mentioned MCH from CHF. With funds form UNICEF and the EC project the support to primary schools allows CISP to have a further entry point in the communities and to mainstream protection matters into the education sector. The ministers and the District Commissioners are constantly involved in the mentioned interventions.									

A) Objective*	To strengthen the resilience of	of survivors of rights violations and vulnerable communities through the provision of protection rela				
(B) Outcome 1*	Multi-sectorial prevention and response mechanisms for survivors of GBV established and strengthened

(W) Implementation Plan* Describe how you plan to implement these activities (maximum 1500 characters)	transport of victims in need to consolidated report. Extremel support though a voucher systhem on: community based p Bondhere, Yaqshid and Karamobilizing the communities; carvices provided by the MCHUNOCHA will promote a sect the aim of having protection for Target group identification will and the experts in vocational project. The exit strategy consental as agenda point the exit	trainings for staff members of the MCHs. An ambulance will be rented to facilitate the referral and to other centers. The data collected will continue to be shared with UNHCR for the monthly by low income women and girls victim of SGBV will be supported to access health and psychologistem. IIDA and Fero will be in charge of supporting the mobilization of community groups and train rotection mechanisms; basics of face to face interviews with victims. IIDA will support CISP in an districts in Mogadishu while FERO will support CISP in Afgoye. The support will consist in: organizing and chairing the monthly meetings of the community protection groups; promoting the 4s; facilitating the access of the counselors to the communities. CISP in cooperation with UNHCR and edition of the workshop on PSEA targeting members of the different clusters in Mogadishu will ocal points in each cluster. An initial survey will be carried out to identify possible IGA for survivors II follow. The beneficiaries able to start up IGA after training courses will be mentored. IIDA, FERC training from CISP livelihood sector will support all the phases of the livelihood component of the sists in: a) monthly review meetings with the community protection groups, the DCs and the elders it strategy; b) capacity building of MCH staff and community protection groups; c) participation of eimplementation will transfer knowledge and skills.				

MONITORING AND EVALUATION (to be completed by organization) The day by day monitoring will be guaranteed by CISP field officer in Mogadishu who collects weekly data gathered by the MCH (A) Describe how you will monitor, evaluate and report on staff on the progress of the activities. FERO and IIDA will support the process. The field officer shares the report with the PM Based 50% in Nairobi for finalization. The PM conducts regular missions for supervision, capacity building, coordination etc. The community protection groups in each district, will be trained on M&E and participate in joint monitoring and review activities on a your project activities and achievements, including the monthly basis. CISP will meet District Commissioners and Community Elders to discuss progress on a monthly basis. The PM will frequency of monitoring, methodology (site visits, observations, remote monitoring external evaluation, etc.), and verify the technical reports and data, validate and share with donor and other relevant stakeholders (including the Clusters and WGs) as requested. The field finance officer will collect and verify financial documentation on a monthly basis and share with the senior finance in Nairobi for validation and compiling the financial report. After verification of expenditures, the finance authorizes monitoring tools (reports, statistics, photographs, etc.). Als describe how findings will be funds disbursements, supervises and authorizes procurement and HR processes with the support of the HR officer. Interim and Final Reports are finalized and shared in due time at Nairobi level. CISP will ensure that photos/videos of initiativesand success stories are gathered and shared when appropriate. The donor will be among the actors included in the information sharing that will utilize, among other means, CISP website in the activity update section (http://www.cisp-som.org/activity-update). Third party used to adapt the project implementation strategy. (maximum 1500 characters) * nonitoring will be welcome and OCHA staff will be allowed to monitor the project when possible. Must be in line with the log frame Please select 'weeks' for projects up to 6 months, and 'months' for projects up to 12 months Month 1-2 Month 3-4 Month 5-6 Month 7-8 Month 9-10 Month 11-12 Mark "X" to indicate the period activity will be carried out Activity 1.1* Training of 12 MCH stat 1.2 Provision of emergency 1.3 Promotion of the servi 2.1 Selection and training of 2.2 Promotion of a workship 2.3 Promotion of a survey or 3.1 Promotion of a target gro 3.2 Training on entrepreneu 3.3 Training on entrepreneurship and business management, IGA identification, Business Plan and grant application development and r 6.
