Donors

Total

As you can understand, one of the Goals of the MDG-F is to generate interest and attract funding from other donors. In order to be able to report on this goal in 2010, we would require you to advise us if there has been any complementary financing provided for each programme as per following example:

Please use the same format as in the previous section (budget summary) to report figures (example 50,000.11) for fifty thousand US dollars and eleven cents

Туре	Donor	Total	For 2010	For 2011	For 2012
Parallel		\$0.00	\$0.00	\$0.00	\$0.00
Cost Share		\$0.00	\$0.00	\$0.00	\$0.00
Counterpart		\$0.00	\$0.00	\$0.00	\$0.00

DEFINITIONS

- 1) PARALLEL FINANCING refers to financing activities related to or complementary to the programme but whose funds are NOT channeled through Un agencies. Example: JAICA decides to finance 10 additional seminars to disseminate the objectives of the programme in additional communities.
- 2) COST SHARING refers to financing that is channeled through one or more of the UN agencies executing a particular programme. Example: The Government of Italy gives UNESCO the equivalent of US \$ 200,000 to be spent on activities that expand the reach of planned activities and these funds are channeled through UNESCO.
- 3) COUNTERPART FUNDS refers to funds provided by one or several government agencies (in kind or in cash) to expand the reach of the programme. These funds may or may not be channeled through a UN agency. Example: The Ministry of Water donates land to build a pilot 'village water treatment plant' The value of the contribution in kind or the amount of local currency contributed (if in cash) must be recalculated in US \$ and the resulting amount(s) is what is reported in the table above.

Beneficiaries

Beneficiary type	Targetted	Reached	Category of beneficiary	Type of service or goods delivered
Public	70	43	National Institutions	Awareness raising through workshops, dialogue, information sharing, etc
Public	320	300	Local Institutions	Financing cultural projects/ initiatives and events
Municipality	550	500	Municipalities	Awareness raising through workshops, dialogue, information sharing, etc
CSOs	200	150	Civil Society Organisations	Creating socio-economic opportunities for women (craft, entrepreneurial skills, etc)
Private Sector	40	60	Small and Medium Enterprise	Supporting cultural events, exhibits, cultural manifestations
Academia	60	60	Culture Professional/Men	Financing cultural projects/ initiatives and events
Village Citizens	2	2	Communities	Developing of support mechanisms: training materials, toolkits, business support infrastructure

Beneficiary type Children Targetted 500

Reached Category of beneficiary
500 Local Institutions

Type of service or goods delivered

Supporting cultural events, exhibits, cultural manifestations

Section II: JP Progress

1 Narrative on progress, obstacles and contingency Measures

Please provide a brief overall assessment (1000 words) of the extent to which the joint programme components are progressing in relation to expected outcomes and outputs, as well as any measures taken for the sustainability of the joint programme during the reporting period. Please, provide examples if relevant. Try to describe facts avoiding interpretations or personal opinions

Pleases describe three main achievements that the joint programme has had in this reporting period (max 100 words)

Progress in outcomes

Joint Programme Output 1: A model for strategic direction, prioritization and safeguarding of tangible cultural heritage and cultural tourism delivery in Turkey's less developed regions produced and implemented in Kars

Outcome 1.1: Policy for the protection and enhancement of cultural assets in Kars

Outcome 1.1: Policy for the protection and enhancement of cultural assets in Kars

Activities successfully completed and outcome fully achieved. Follow-up activities are on-going.

In parallel with the installation and activation of the GIS digitalized information management system, MoCT accelerated the establishment of the Kars Preservation Council. Meanwhile, the GIS system has been installed at the Museum of Kars as a temporary solution. The system (hardware components) has then been transferred and permanently installed at the seat of the Kars Preservation Council, upon the finalisation and opening of the new Council's premises. The necessary training on the use of the GIS system was provided, to build capacities of relevant users/institutions (MoCT; newly assigned personnel of the Kars Preservation Council; Erzurum Preservation Council; and Kars Museum). In order to maximise the efficient use of the GIS system, additional training sessions are already planned to take place after the end of the project. Within this framework, a total of 2643 files have been digitized and the terrestrial measurements of 14 sites completed and integrated into the GIS system.

Upon MoCT's request, and in consideration of the great interest raised by the awareness-raising brochures on the legislative and normative framework for the safeguarding of cultural heritage in Turkey, additional 7000 copies of the brochures have been printed to be used by MoCT at the national level.

Outcome 1.2: Support to the implementation of the recommendations by the Site management Board

Activities successfully completed and outcome achieved beyond expectations. Follow-up activities are on-going.

Support through technical assistance continued to be provided to the Ani's Site Management Planning Team, especially established by MoCT in order to prepare the Ani Site Management Draft Plan, and to develop the capacities or relevant institutions and stakeholders. Follow-up meetings of the newly established Site Management Planning Team were organised, also with the technical assistance provided by the UNJP. Upon the agreement achieved on modalities of cooperation in implementing the site management plan, the data collection was completed and the contributions of all stakeholders, including relevant authorities (local and national) and NGO's in the planning process of the Ani Site Management were reflected in the draft plan. This final draft will be submitted to the Ani Site Management Advisory Board, as a necessary passage towards the official approval of the Management Plan by MoCT.

Outcome 1.3: A cultural tourism strategy and action plan agreed to by national authorities within the context of the "Brand City" programme

Tourism Strategy Document for Kars is available in the MoCT and approved by the Ministry of Culture and Tourism dated 22 December 2010. The Tourism Strategy for Kars includes a Diagnostic Report which evaluates the potential of tourism development in Kars, a Master Plan with recommendations for the sustainable development of tourism in

Kars based on culture, nature and winter sports tourism products, and, an Action Plan for the implementation of the Master Plan recommendations.

A complete qualitative and quantitative audit of Kars Province tourism facilities and services was carried out.

Tourism potential of cultural tourism assets (tangible and intangible) based on UNESCO's identification and evaluation assessed and reflected to the Tourism Strategy of Kars.

The institutional capacity assessment was carried out and the possible structure of a Tourism Governance Organization (TGO) elaborated.

Market profile, trends and opportunities of tourism assessed. Marketing and promotional strategy for Kars including recommendations for the setting up of a Tourism Information Centre was prepared.

A survey of selected international and national tour operators on current and potential interest of Kars as a tourism destination was conducted.

In order to support and widen the promotion of Kars tourism a logo and slogan for Kars Province had been created and promotional brochures (general information, winter, nature and culture thematic brochures) for Kars Province were prepared, used in the tourism fairs and distributed to the tourism relevant organizations by MoCT.

Outcome 1.4: New information delivery and marketing system established in Kars

A familiarization tour was organized in July 2011. The 15 participants included 5 international tour operators and national tourism stakeholders and media representatives.

On the otherhand in order to create awareness and motivation among potential visitors to Kars and therefore to be considerably visual, i.e. feature media support such as videos and photographs, a tourism web site for Kars preparation process has been going on. Beside this, the web site should serve as a source of information (factual) for potential visitors on the tourism resources, tourism services and facilities in the region.

Joint Programme Output 2: Capacities of communities and enterprises increased for income generation and job creation in culture based tourism

Outcome 2.2: Community initiatives started for enterprise development in cultural tourism in Kars

A Sustainable Tourism Conference in Ankara will be organized end of January 2012 with the participation of Ministry of Culture and Tourism, Ministry of Development, Ministry of Environment and Urbanization, Ministry of Forestry and Water Affairs, Development Agencies, Municipalities, Tourism Unions, Tourism Associations, CSOs and Private Sectors Representatives. The Conference is aiming to information sharing to build the capacity among the relevant actors to increase the dialog around income generation opportunities of sustainable tourism models to implement.

Joint Programme Output 3: Capacities of local authorities and civil society in promoting social cohesion and dialogue through fostering of pluralism

Outcome 3.1. 2003 Convention on Intangible Cultural Heritage follow up initiated in Kars

Activities successfully completed and outcome fully achieved, with results beyond expectations. Regarding the most recent activities, the publication of the research on the

"Mapping of Intangible Cultural Heritage of Kars Province" has been completed, and the printed copies will be distributed in all universities and provinces in Turkey. The book comprised of information on the aim and methodology of the research, the work plan and the evaluation of collected data, and a selection of ICH field research results in oral traditions and expressions, performing arts, social practices and rituals, knowledge concerning nature and universe, and finally traditional craftsmanship domain.

The UNJP also continued to support the Culture House, by purchasing 40 books mostly on the Minstrelsy Tradition in order to enrich the Culture House's library. 2 traditional music instruments were also purchased for the Culture House, to support training and performing activities.

The atelier on the making of traditional musical instruments, "saz" and "tar", is still operating after the completion of the training courses. The master keeps the courses on performing with the chorus established during the training programmes held within UNJP activities. This chorus started to be involved in the local cultural activities. □

Outcome 3.3. Children's understanding of cultural diversity and ability to resolve conflict increased through the provision of cultural and life skills based education programmes within the Child's Rights Committees of Istanbul-Eskişehir-Ankara-Kayseri- Sivas- Erzincan-Erzurum-Kars.

Sustainability meeting held in Ankara, 24-25 October 2011 with 120 participants of UNICEF, UNJP, Ankara University, Ministry of Culture and Tourism, Ministry of Family and Social Policies (Social Services and Child Protection Agency), Ministry of National Education, State Railway, Provincial Directorate of Social Services, Child Rights Committees, Directorates of Museums.

Progress in outputs

Joint Programme Output 1: A model for strategic direction, prioritization and safeguarding of tangible cultural heritage and cultural tourism delivery in Turkey's less developed regions produced and implemented in Kars.

The preparation phase of the Ani Site Management Plan is completed and the draft Plan has been submitted for official approval. Site Management Planning is a relatively new subject for Turkey. The first legal disposition was approved in 2004 and specific regulations were introduced in 2005. Since then, only a few management plans have been defined in Turkey in draft form, mostly through external procurement for the assignment of related services to consulting companies. The Ani Site Management Planning process carried out within UNJP is therefore an outstanding achievement and the applied methodology, based on international standards and leveraging directly on the institutional structures and capacities of the relevant institutions, was implemented for the first time in Turkey and will constitute a good practice and a standard for future exercises on different sites.

The revised and reprinted awareness raising brochures were distributed to the museums, tourism information centres and other relevant offices/institutions of 81 provinces of Turkey. These brochures, containing information on Excavations, Museums, Contribution to the Restoration of Cultural Assets, Sponsorship and Incentives, Legal Framework for the Preservation of Cultural Assets, Illegal Trafficking of Historical Works, were revised according to the amendments recently approved in related regulations in 2011. The brochures are expected to bring concrete results in terms of enhanced knowledge on the concerned issues, and thus to strengthen the respect and safeguarding of cultural heritage in Turkey.

The planning, development, installation and activation of the GIS digitalized information management system stimulated the MoCT to accelerate the establishment of the new Kars Preservation Council. The GIS System will ensure an efficient and effective monitoring and the implementation of conservation, renovation, observation, inspection, licensing and project management activities in relation to the registered sites and assets. The System, designed and realised in close coordination with the MoCT, is the first comprehensive tool for digitisation of cultural heritage ever activated in Eastern Anatolia, and will represent a model for the development of similar structures in the region and all over Turkey.

Tourism Strategy Document for Kars is available and approved by the Ministry of Culture and Tourism dated 22 December 2010. The report includes a Diagnostic Report which evaluates the potential of tourism development in Kars, a Master Plan with recommendations for the sustainable development of tourism in Kars based on culture, nature and winter sports tourism products, and, an Action Plan for the implementation of the Master Plan recommendations.

A complete qualitative and quantitative audit of Kars Province tourism facilities and services was carried out.

Tourism potential of cultural tourism assets (tangible and intangible) based on UNESCO's identification and evaluation assessed.

The institutional capacity assessment was carried out and the possible structure of a Tourism Governance Organization (TGO) elaborated.

Market profile, trends and opportunities of tourism assessed. Marketing and promotional strategy for Kars including recommendations for the setting up of a Tourism Information Centre was prepared. Further work planned with MoCT to prepare a legal framework for TGOs.

A survey of selected international and national tour operators with current and potential interest of Kars as a tourism destination was conducted with a view to design marketing strategies.

A familiarization tour was organized in July 2011. The 15 participants included 5 international tour operators and national tourism stakeholders and media representatives. Following the famtour, the hotel owners reported that they have strengthened their relationships with the tour operators. Also Kars was familiarized in national and local media further.

A report with detailed research on tourism website development for Kars and draft ToR for a potential designer were formulated with the involvement of two UNWTO. Themis Foundation Volunteers.

In order to support and widen the promotion of Kars tourism a logo and slogan for Kars Province had been created and promotional brochures (general information, winter, nature and culture thematic brochures) for Kars Province were prepared, used in the tourism fairs and distributed to the tourism relevant organizations by MoCT.

Joint Programme Output 2: Capacities of communities and enterprises increased for income generation and job creation in culture based tourism

A Sustainable Tourism Conference in Ankara will be organized end of January 2012 with the participation of Ministry of Culture and Tourism, Ministry of Development, Ministry of Environment and Urbanization, Ministry of Forestry and Water Affairs, Development Agencies, Municipalities, Tourism Unions, Tourism Associations, CSOs and Private Sectors Representatives. The Conference is aiming to information sharing to build the capacity among the relevant actors to increase the dialog.

Joint Programme Output 3: Capacities of local authorities and civil society in promoting social cohesion and dialogue through fostering of pluralism

The results of the research carried out by the Kafkas University under the supervision of MoCT and with the support of UNJP, has been published and is ready to be distributed to the universities, and governorates of 81 provinces of Turkey. In addition, the overall research outcome will be submitted to MoCT for their archives, central inventorying, and

further processing. The research on ICH in its diverse forms of expressions greatly contributed toraise awareness on ICH as an integral part of the local cultural assets, especially with regard to the heritage's bearers, and to reinforce their ownership. Furthermore, the research will offer a necessary reference for all future actions aimed at the safeguarding and viability of this heritage, as well as for its inclusion into sustainable and responsible programmes of tourism development. As regards support provided by the UNJP to the process of the official ICH national inventorying, it shall be noted that the inventory-making is considered as one of the necessary conditions to ensure the sustainable safeguarding of ICH and it is one of the priority actions that the signatory parties of the UNESCO convention must undertake for the Convention's implementation.

The comprehensive approach aimed to enhance the safeguarding and promotion of the Minstrelsy Tradition included activities for supporting transmission through written form, creating a platform for the making and performing of traditional instruments, supporting international dedicated festivals, producing audio CDs for promotion and diffusion of this art, as well as the establishment of a Culture House especially dedicated to the training and performance of the Kars Minstrels. Such complementary and mutually reinforcing set of actions posed the basis and provided the necessary tools for the effective safeguarding, viability and promotion of the Minstrelsy tradition as one of the most distinguished and important expressions of the local ICH, already inscribed in the UNESCO Representative List of the intangible cultural heritage of humanity. In addition, through the UNJP women from Kars were also encouraged and supported to approach this form of artistic expression, to learn and practice it.. The continuation of the activities beyond the end of the UNJP, as well as the development of related institutional of local authorities, university, and the MoCT are also a clear indicator of the extent and sustainability of the UNJP's results. In this sense, the cooperation should be underlined that was established by the UNJP with the Municipality of Kars for the organisation of the 6th International Minstrels Festival, held in Kars on 24-26 June 2011, with the participation of performers from Turkey and abroad (Kyrgyzstan, Georgia, Azerbaijan and Iran), the Kars Minstrels Festival organized in September 2011, and other Festive events held on the occasion of Ramadan in August, for which activities the MoCT also contributed financially and institutionally.

For Children Museum Room activities, sustainability meeting held in Ankara, 24-25 October 2011 with 120 participants of UNICEF, UNJP, Ankara University, Ministry of Culture and Tourism, Ministry of Family and Social Policies (Social Services and Child Protection Agency), Ministry of National Education, State Railway, Provincial Directorate of Social Services, Child Rights Committees, Directorates of Museums. The meeting ended up with a protocol draft for sustainability of the children museum rooms.

Measures taken for the sustainability of the joint programme

Are there difficulties in the implementation?

What are the causes of these difficulties?

na

Briefly describe the current difficulties the Joint Programme is facing

Briefly describe the current external difficulties that delay implementation na

Explain the actions that are or will be taken to eliminate or mitigate the difficulties

2 Inter-Agency Coordination and Delivering as One

Is the joint programme still in line with the UNDAF?

Yes true No false

If not, does the joint programme fit the national strategies?

Yes true No false

What types of coordination mechanisms

The implementation mechanisms have been applied parallel to Multi Donor Trust Fund Operational Guidance Note for the Participating UN Organizations (MDG-F, June 2009). Coordination and collaboration between participating UN agencies have been ensured by the UN Resident Coordinator in Turkey. A supporting team including the Joint Programme Manager and a Programme Assistant ensure the facilitation of collaboration between UN organizations. UNDP acts as the Administrative Agent (AA) of the Joint Program and UNDP Turkey supports the executing agency in the overall coordination of the outputs and management of administrative, financial and procurement issues related to project implementation. UNDP also assists coordination among the participating UN agencies of the Joint Program, particularly for UNESCO and UNWTO which are non-resident in Turkey including their contribution during recruitment and provision of support in the dissemination of JP objectives and strategies. UNDP has also facilitated high level attention from MoCT.

The NSC including a representative of the Turkish Government, a representative from the Government of Spain and the UN Resident Coordinator, which has been established to monitor all MDG-Fund Projects also monitors this Joint Program semi-annually. A PMC composed of the participating UN agencies of the Joint Program and the Department of Foreign Relations and EU Coordination of the Ministry of Culture and Tourism (ensuring coordination between relevant Departments of the Ministry), relevant General Directorates of MoCT, Ministry of Foreign Affairs and Ministry of Family and Social Policies (Social Services and Child Protection Agency) with State Planning Organization, Kars Governorate, Kars Municipality and other relevant stakeholders has been conducted to meet quarterly.

During the reporting period following meetings/events were held:

- •MDG-F Knowledge Management for Culture and Development Workshop and contribution to the preparation of publication.
- •Weekly teleconferences with UNJP UN Agencies, UNJP Team were conducted.
- •ColorCoded WP for the period July-September 2011 submitted to the MDG-F Secretariat.
- •Exit Strategy and Improvement Plan updated and four months extension memo prepared and shared with PMC and endorsed and submitted to the MDG-F Secretariat.
- 1st Draft Management Plan of Ani Site Management prepared
- •Closure Book of UNJP prepared
- •Kars Tourism Master Plan including Diagnostic Study and Action Plan revised.
- •Kars Tourism and Marketing Strategy and SMEs Advisory Report revised
- •Revised and updated the Tourism Brochures and coordinated the republication.
- "Sustainability of Children Museum Trainings and Museum Rooms Workshop" held

- •9th PMC meeting in Ankara, 27 October was conducted.
- •Kars Tourism Web Site ToR prepared.
- Virtual Tour of Kars contracted
- •Community Based Tourism Meeting in preparation.

Please provide the values for each category of the indicator table below

Indicators	Baselin e	Current Value	Means of verification	Collection methods
Number of managerial practices (financial, procurement, etc) implemented jointly by the UN implementing agencies for MDF-F JPs	4	4	Website contract	
Number of joint analytical work (studies, diagnostic) undertaken jointly by UN implementing agencies for MDG-F JPs	1	1	Tourism Masterplan	
Number of joint missions undertaken jointly by UN implementing agencies for MDG-F JPs	1	4	9th PMC Meeting in Ankara	Minutes of Meeting

3 Development Effectiveness: Paris Declaration and Accra Agenda for Action

Are Government and other national implementation partners involved in the implementation of activities and the delivery of outputs?

Not Involved false
Slightly involved false
Fairly involved false
Fully involved true

In what kind of decisions and activities is the government involved?

Policy/decision making

Management: service provision Management: other, specify

Fully participating to the activities and benefiting from the results of the activities which initiatives and etnrepreneurships are being supporting. Providing services where needed.

Who leads and/or chair the PMC?

UNDP chairs PMC, UNRC or UNDP DRR

Number of meetings with PMC chair

Is civil society involved in the implementation of activities and the delivery of outputs?

Not involved false
Slightly involved false
Fairly involved true
Fully involved false

In what kind of decisions and activities is the civil society involved?

Management: budget Management: procurement Management: service provision

Are the citizens involved in the implementation of activities and the delivery of outputs?

Not involved false
Slightly involved true
Fairly involved false
Fully involved false

In what kind of decisions and activities are the citizens involved?

Management: other, specify

Programme design

Where is the joint programme management unit seated?

Local Government UN Agency

Ani Site Management preparation meetings were conducted with MoCT, UNESCO, local authorities, Consultant and Scientific Board.

Minstrels Folk Tales Book printed with MoCT, UNESCO and Minstrels.

Digitization of cultural heritage completed with MoCT, Private Company and UNESCO.

Current situation

4 Communication and Advocacy

Has the JP articulated an advocacy & communication strategy that helps advance its policy objectives and development outcomes?

Yes true No false

Please provide a brief explanation of the objectives, key elements and target audience of this strategy

The objectives of the UN Joint Programme "Alliances for Culture Tourism in Eastern Anatolia's communication strategy are aligned with the objectives of the JP itself. Strategy aims to help to promote local ownership, to raise the awareness of people of Kars about the JP; strategy will also help to get the media attention. The general objectives of the communication strategy are:

- •Promoting Kars' potential in culture, winter and nature tourism
- •Promoting tangible and intangible cultural heritage of Kars
- Promoting local ownership
- •Raising the awareness for capacity building in tourism sector
- •Using relevant media effectively to promote Kars and provide updated information to the media about what the city can offer to the visitors
- •Encouraging women's entry to the entrepreneurship
- Securing sustainability through increased impact of the Joint Programme at the local level
- •Strengthening the participatory approach, taking decision and working together with different stakeholders by increasing the awareness and benefits of the JP.

The UNJP aims to reduce income disparities by mobilizing tourism sector in the Kars province. Target groups of this are: Public sector (local and national level), private sector (tourism sector), NGOs, people of Kars, public in general, media.

Key elements are: Printed /published materials, media relations, web site of UNJP, relevant activities (meetings, trainings, media tours, study tours, press conferences, supporting relevant activities in Kars (exhibitions, festivals, etc.)

The Tourism Master Plan is available on the MDGF website as are photos and local press releases of the Train-the-Trainer programmes conducted in Kars and Sarikamis by UNWTO/MOCT

What concrete gains are the adovacy and communication efforts outlined in the JP and/or national strategy contributing towards achieving?

Increased awareness on MDG related issues amongst citizens and governments

Increased dialogue among citizens, civil society, local national government in erlation to development policy and practice

New/adopted policy and legislation that advance MDGs and related goals

Estabilshment and/or liasion with social networks to advance MDGs and related goals

Key moments/events of social mobilization that highlight issues

Media outreach and advocacy

What is the number and type of partnerships that have been established amongst different sectors of society to promote the achievement of the MDGs and related goals?

Faith-based organizations 7
Social networks/coalitions 5

Local citizen groups 3
Private sector
Academic institutions 2
Media groups and journalist

Several local and 1 National

Other

What outreach activities do the programme implement to ensure that local citizens have adequate access to information on the programme and opportunities to actively participate?

Focus groups discussions
Use of local communication mediums such radio, theatre groups, newspapers
Capacity building/trainings
Others

Communication with the local media continued about the relevant JP activities. In addition journalists from several magazines, journals and web sites wrote articles about the JP after their participation to the Fam Tour. Moreover, an article about the JP has been published in Turkish Airlines (THY) Magazine Sky Life, which was on every national and international THY plane. Also an article on one of the grantees of the JP has been published on MDG-F global web site.

Section III: Millenium Development Goals Millenium Development Goals

Additional Narrative Comments

Please provide any relevant information and contributions of the programme to de MDGs, whether at national or local level

Please provide other comments you would like to communicate to the MDG-F Secretariat

Section IV: General Thematic Indicators

1 The development of government policies for the effective management of the country's cultural heritage and tourism sector strengthened and supported

1.1 Number of laws, policies or plans supported by the programme that explicitly aim to mainstream cultural diversity, and strengthen national and local government capacity to support the cultural and tourism sector.

Policies

National 1 Local

Laws

National Local

Plans

National Local 1

1.2 Please briefly provide some contextual information on the law, policy or plan and the country/municipality where it will be implemented (base line, stage of development and approval, potential impact,):

Policy 1. Museum Training Policy - National + Local

Baseline: 0

Stage of Development and Approval: Proposal from UNJP – Approval from Ministry of Culture and Tourism and Social Services and Child Rights Institution – Implementation in Provincial Directorate of Culture and Museums

Potential Impact: A model for implementation of Child Museum Trainings developed. (1) Children have been implementing "Child to Child- Peer Education" Training Models in Museum Rooms (2) Child Museum Rooms established in two eastern provinces of Turkey.

Policy 2. Tourism Governance Organization and Tourism Strategy with Action Plan – National +Local Stage of Development and Approval: Proposal from UNJP- Approval from MoCT- Endorsement of Local Stakeholders- Establishment of the Organization Potential Impact: New form of public private and civil society partnership for sustainable tourism development. Tourism Strategy approved by MoCT.

Plan 1. Capacity Development for Ani Site Management Plan – Local Stage of Development and Approval: UNJP in coordination with MoCT- Approval from Board of Conversation- Endorsement of MoCT Potential Impact: A site management model for Ani site is available.

1.3 Sector in which the law, policy or plan is focused

Management and conservation of natural and cultural heritage Tourism infrastructure Cultural industries Statistics and information systems on natural and cultural heritage

Comments: Please specify how indicator 1.1 addresses the selected sectors

Plan 1 will have a direct impact on the management of cultural heritage by supporting the development of a Site Management Plan for Ani Archaeological Site. Policy 2 will provide the required governance mechanism which will be an umbrella of institutions working for the development of Kars tourism destination. Policy 3 will be implemented via promotion of social cohesion and dialogue through fostering of pluralism in children.

b. Joint Programme M&E framework

This template is the same as the one you will find in the JP documents. We have added 3 columns to provide spaces for baselines of the indicators as well as targets. All the values for indicators in this template are cumulative. This means the past values obtained accumulate (add up over time) as the joint programme gets implemented. We are expecting you to include not only the indicators but the value of these indicators. If you do not provide them, please explain the reason and how you are going to obtain this information for the next reporting period.

Expected Results (Outcomes & Outputs)	Indicators (with baselines & indicative timeframe)	Means of Verification	Collection Methods (with indicative time frame & frequency)	Responsibilities	Risks & Assumptions
JP OUTCOME UNDAF Outcome 2: By 2010, social and economic policies for poverty and disparity reduction implemented effectively and quality basic social services reaching vulnerable groups ensured.(Outcome 2, UNDAF) Outcome of Joint Program (from UNDAF): Pro-poor sectoral (tourism) development policies implemented with framework of social (cohesion) integration policies (Country Program Outcome 2.1.2, UNDAF) by fostering pluralism, dialogue of cultures and the establishment of a culture of peace in Eastern Anatolia and with peoples of neighbouring countries	Contribution to MDG 1-Target 1, Indicator 1- Percentage of population below the poverty line; Indicator 2- Income distribution by population, by gender (UNDAF, 2.1.2) Baseline: Lorenz Curve Figures: Disparities in share of income between quintiles of income brackets: lowest 20%: receives 5 percent; highest 20%: receives 55 % of total income(UNDAF,2.1.2)	Indicators are verified on the basis of information provided by Turkish Statistical Institute (TURKSTAT). Source: Results of Poverty Study	Information directly gathered from TURKSTAT Source: Results of Poverty Study	UNDP,UNESCO,UNWTO, UNICEF, Ministry of Culture and Tourism of Turkey	Baseline indicators are measured in 2000 however JP started in 2008 which the used data was not updated so; gap between the next measured values may not reflect contribution of the JP to the MDG target.

	Indicator -3 Poverty Rate of Kars Compared by National Poverty Rate of Turkey Baseline: Poverty rates of Kars: 31% (TURKSTAT regional office, unofficial) Poverty rates of Turkey: 18, 08% Note: (Internationally accepted poverty rates, end of 2008 below the %17,11 food &non-food consumption) Source: Results of 2009 Poverty Study,	Indicators are verified on the basis of information provided by TURKSTAT.	Information directly gathered from TURKSTAT if available at the end of the project (2012)	UNDP,UNESCO,UNWTO, UNICEF, MoCT and Local stakeholders	
	TURKSTAT				
JP Output 1: A model for strategic direction, prioritization and safeguarding of tangible and intangible cultural heritage and cultural tourism delivery in Turkey's less developed regions produced and implemented in Kars	a)Digitization of the registered site areas and immoveable culture and natural assets database within Kars province Baseline: 0 (as of year 2009) b) Activation of a system for the management of the digitised information, including capacity building for relevant authorities Baseline: 0 (as of Jan 2009) c) Realisation of awareness-raising activities on the safeguarding of cultural heritage, and production of related information materials. Baseline: 0 (as of Jan 2009) Progress as of December 2011 a) Activities completed and expected outputs achieved (see previous	Indicators will be verified on the basis of information provided by MoCT and relevant authorities at local level (Erzurum Preservation Council, Kars Preservation Council)	Information directly gathered from project's outputs, MoCT, Erzurum Preservation Council, Kars Preservation Council)	UNESCO, MoCT, Museum of Kars , Members of Kars Preservation Council	Following the procurement of the Software and Hardware services and the related training activities, the Arc GIS system was installed at the newly established Kars Preservation Council. Risk(s): Possible delay and inefficiencies in the use of the system, due to the recent establishment of the Kars preservation council and the employment of new staff.

b) The installation of the system for the management of the digitized information has been completed. The system has been installed at the newly established Kars Preservation Council's premises. The additional training to build capacities of relevant users/authorities to use and operate the digitization and GiS system has been also delivered (MoCT, Kars Governorate, Kars Museum, newly assigned personnel of the Kars Preservation Council, I. Additional trainings will be delivered through the national implementing partner (MoCT). c) Awareness raiking brochures on safeguarding of cultural heritage were revised according to the amendments to the legal framework in 2011 and reprinted, to be distributed to the museums, tourism information centres and other relevant offices in 81 provinces of Turkey. lindicator-2 Site management capacity developed (an action plan prepared) towards preparation of a site management plan and other relevant offices in 81 provinces of Turkey. lindicator-3 Indicator-4 Site management capacity developed (an action plan prepared) towards preparation of a site management plan authorities at local level Baseline: An assessment report of existing situation and recommendations for preservation for Ani site management plans labeled and the management plans and precommendations for preservation for Ani site management plans labeled and the management plans are provided by the management plans and precommendations for preservation for Ani site management plans labeled and the management plans are provided by the provided plans and precommendations for preservation for Ani site management plans are provided by the provided plans and precommendations for preservation for Ani site management plans and precommendations plans are provided by the provided plans and precommendations plans are provided by the plans	1				,

upprover of the mid	management available, Ani site				approval of the final

manager appointed) (as of year 2009)

Progress as of December 2011:

The expected outcomes were fully achieved, with results beyond expectations.

Besides the development of the capacities on awareness raising of importance and preservation of Ani Site of national and local stakeholders such as; Ministry of Culture and Tourism, Provincial Directorate of Culture and Tourism, Regional Preservation Council, Provincial Directorate of Museums, Kafkas University and Academia, the final draft of the Management Plan was prepared and is now pending official approval by the Management board of Ani.

In particular:

The draft Ani site management plan was finalized and submitted to the approval of Management Board of Ani. The missing information and data collection has been completed. The site management plan preparation and preservation principles of site management capacities of the site management planning team of MoCT have been developed.

Follow-up meetings with the newly established site management planning team of MoCT were held.

The updated archaeological plan of Ani was fully integrated in the new software automated system and

management plan.
Possible delays in follow-up activities to be carried out by MoCT according to the policies suggested by the draft document.
Lack of participation/cooperation of the Head of Excavations to the process

Both Ani Site Manager and Head of Excavations Resigned (end of year 2010). The new assignments have not been completed yet by relevant authorities (December 2011).

Indicator -3 Availability of a Tourism Strategy for Kars Baseline: 0 (as of year 2009) Progress as of December 2011: Tourism Strategy Document for Kars is available and approved by the Ministry of Culture and Tourism dated 22 December 2010. The Tourism Strategy Document includes a Diagnostic Report which evaluates the potential of tourism development in Kars, a Master Plan with recommendations for the sustainable development of tourism in Kars based on culture, nature and winter sports tourism products, and, an Action Plan for the implementation of the Master Plan recommendations.	Indicators will be verified on the basis of information provided by MoCT and relevant authorities at local level	Information directly gathered from project's outputs	UNWTO, MoCT and local stakeholders	Approval and implementation of Tourism Strategy. Risk(s): Change in the political and sectoral policies that may risk the validity of the Strategy in the future.
•				
Indicator -4 Availability of Tourism Products strategically identified on the basis of supply and demand Baseline : 0 (as of year 2009)	Indicators will be verified on the basis of information provided by MoCT and relevant authorities at local level	Information directly gathered from project's outputs	UNWTO, MoCT and Local stakeholders	Production of defined products with high quality and proper cost. Awareness raising to the defined products. Put into proper marketing strategies.

tourism institutions and stakeholders to enhance public-private partnerships; and (v) improve service capacities of local tourism institutions and stakeholders for culture, winter and nature tourism through product development and/or human resources development programmes. Support scheme for tourism development activities (income generating activities and/or cluster development activities launched with 8 initiatives supported. 3) Local governance mechanisms supported for tourism service delivery and promotion: UNJP made a contractual agreement with Kars Tourism Infrastructure Union (KARTAB) to prepare promotional materials such as booklets/maps, documentary and fair participation.				
Indicator -2 Number of jointly implemented tourism related local economic development activities in Kars;	Indicators will be verified on the basis of information provided by MoCT and relevant authorities at local level	Information directly gathered from project's outputs	UNDP, MoCT and Local stakeholders	Ensuring of commitment of local and national stakeholders. Development of realistic and practical Clustering approach.
Baseline: 0 (as of year 2009) Progress as of December 2011				Risk(s): Impact of economical crisis Lack of interest of local and national stakeholders

 Training in English language was implemented from February to April 2011 – 3 local trainers were trained and 39 trainees (from tourism and tourism-related establishments) were trained. Training for tourism entrepreneurship implemented in May 2011. The training included one-on-one intensive sessions with 17 tourism and tourism-related entrepreneurs to review and analyse their business structure and provide guidelines for their improved business planning and management. 				
Indicator -3 Number of Arrivals to Kars Baseline: (2008) Number of arrivals through tourism operation license: 44.981 Number of arrivals thru municipality operation license: 59.059 Total number of arrivals :104.040 (Source: Tourism Statistics MoCT 2009) Number of arrivals thru tourism operation license: 46.373 Number of arrivals thru municipality operation license: 55.790 Total number of arrivals :102.163 (Source: Tourism Statistics MoCT 2009)	Indicators are verified on the basis of information provided by MoCT.	Information will be directly gathered from MoCT end of each year.	UNDP,UNESCO,UNWTO, UNICEF, MoCT and Local stakeholders	The Joint Program will mobilize the culture sector in Turkey's Eastern Anatolia. It will result in increased number of arrivals at a localized level Risk(s):Poor implementation of defined strategies and inadequate awareness raising to the cultural assets

	Increase in the number of overnights in Kars Baseline: (2009) Number of nights spent by foreign tourists: 36399 Number of nights spent by local tourists: 289.512 Total Number of nights spent : 329.511 (Source: Tourism Statistics MoCT 2009) Baseline: (2009) Number of nights spent by foreign tourists: 35.745 Number of nights spent by local tourists: 336.690 Total Number of nights spent : 372.435 (Source: Tourism Statistics MoCT 2010) Target: at least %2 increase in overnights.	Indicators are verified on the basis of information provided by MoCT.	Information will be directly gathered from MoCT end of each year.	UNDP,UNESCO,UNWTO, UNICEF, MoCT and Local stakeholders	The Joint Program will mobilize the culture sector in Turkey's Eastern Anatolia. It will result in increased number of nights spent at a localized level. Risk(s): Poor implementation of defined strategies and inadequate awareness raising to the cultural assets
JP Output 3: Capacities of local authorities and civil society in promoting social cohesion and dialogue through fostering of pluralism	Indicator -1 Number of Awareness Raising Workshops on Cultural Heritage and social cohesion implemented in Kars Baseline: 0 (as of year 2009)	Indicators will be verified on the basis of information provided by MoCT and relevant authorities at local level	Information directly gathered from project's outputs and MoCT	UNESCO, MoCT, Kafkas University, Minstrels Association , Municipality of Kars	Sufficient number of participants with appropriate qualifications. Delivery of qualified and proper workshops.
	Progress as of December 2011. Activities were fully completed and all expected outcomes were achieved. In particular:				Risk(s): Dedication of less funds and support by the local authorities for the continuation of the activities within "Culture House", also due to the subsequent establishment

The field research on ICH in Kars province was completed, as well as the training and awareness-raising meetings on the inventorying of ICH (based on UNESCO 2003 Convention requirements).

The 6th International Minstrels Festival was held between 24-26 June 2011, organised by the Municipality with the support of the UNJP, with exceptional participation of performers from Turkey and abroad (Kyrgyzstan, Georgia, Azerbaijan and Iran).

The Culture House was established and its premises refurbished and inaugurated to host the activities of the Minstrels Association. Minstrels Association started to hold regular activities (practice, performing, training, social activities) within the Culture House.

The Kars Minstrels Fest was organized in September by the Municipality, with the support of the UNJP. Regular Festive events were also held on the occasion of Ramadan in August.. MoCT allocated 3500 USD. for the realization of these events.

The "saz" and "tar" making and performing training courses were completed. The master continues to hold regular traditional music courses once a week and training classes on the production of traditional instruments, on its own initiative and with the active participation of the local community (both men and women).

of a second Culture House for a different local Minstrel Association in Kars, with the support of the SERHAT Development (NB. Agency The establishment of this second culture house can be considered as a byeffect of the UNJP, as it was clearly inspired by the UNJP activities. Unfortunately. the activities related to the second culture house were carried out without informing the UNJP team and with no coordination. This issue shall be tackled by the local authorities, to avoid future duplication of efforts and dispersion of resources)

The results of ICH research will be officially registered together with the book in the Folklore Documentation and Information Centre of MoCT after the revision through Archive Evaluation Commission of MoCT.

Indicator -2 Availability of information on Main ICH Assets in the Target Area Baseline -0 (as of year 2009) Progress as of December 2011	Indicators will be verified on the basis of information provided by MoCT and relevant authorities at local level	Information directly gathered from project's outputs, MoCT and field research through survey, voice and video recordings, and interviews	UNESCO, MoCT	Contribution to national ICH inventory preparations. Significant increase in the quantity and quality of inventory forms for the definition of national ICH inventory in the target area.
Activities were fully completed and all expected outcomes were achieved. In particular: The results of the field research on ICH of Kars Province carried out by Kafkas University under the supervision of MoCT has been prepared as a publication and printed. This book will be distributed to all universities and provinces of Turkey. Books on Minstrel tradition and traditional instruments have been purchased in order to enrich the Culture House's Library and increase the interest of people and particularly young generation. 40 Minstrels folk tales collected and published as a two volume book including a voice recording CD. The books have been distributed to related libraries and interested institution/ associations.				The folk tales from Eastern Anatolian Region has been collected for the first time and printed in written form in a single publication. Risk(s): Lack of reflection of diversity, incomplete data regarding preparation of inventory forms. Insufficient safeguarding measures implemented by relevant authorities besides the UNJP action.
Indicator -3	Indicators will be verified on the basis of	Information directly gathered	UNICEF, MoCT	Obtaining official approvals and delivery of the
Establishment of Children Museums in	information provided by	from project's		museum buildings within
