Project Proposal

	OXFAM GB (OXFAM GB)											
Project Title	Procurement and management of core pipeline water, sanitation, and hygiene (WASH) emergency supplies to support emergency WASH response in South Sudan SSD-15/SA1/WASH/INGO/373											
Fund Code	SSD-15/SA1/WASH/INGO/373											
Cluster	Primary cluster Sub cluster											
	WATER, SANITATION AND HYGIENE None											
Project Allocation												
Project budget in US\$												
Planned Start Date												
OPS Details		SSD-15/WS/72983 OPS Budget 0.00										
Project Summary	OPS Project Ranking OPS Gender Marker The WASH Cluster pipeline has been established in South Sudan since 2010 and Oxfam has committed to manage 12.5% of the overall identified pipeline no 2015. Oxfam, procuring through its catalogue, will ensure the quality of items procured is of the highest standard. As it is now approaching the dry season a will be made to pre-position supplies, referenced in the budget, in key identified locations (Nyal, Wau, Lankien, Juba, Rumbek) to maximize road access, re logistics costs, and ensure life saving WASH items are available as close as possible to displaced populations. Items which will be included are water purific vessels for mobile populations to enable them to purify water "on the run" with a particular focus for women, children, elderly, and disabled people. It is hope this assistance will enable IDPs to reach final destinations in better health, as well as place less pressure on host community resources. Pre-positioning loc are as follows: Nyal – covering a catchment area of Panyijar county Unity State, Wau – covering a catchment area of Greater Bahr el Gazal, and Lankien – covering a catchment area of Northern Jonglei, in addition to top up items (supplies to support a set amount population, if an area of response required addis supplies) available from Juba and Rumbek. Oxfam's primary outcome is to ensure that WASH partners have access to life saving WASH supplies to meet to need of 100,000 vulnerable IDPs and host communities women, men, boys, and girls affected by conflict, natural hazards and / or at risk of water borne di

4. Grant Request Justification

Oxfam's added value for this grant is the current functional EP&R team in South Sudan since 2008, working in coordination with the National WASH Cluster and the Operational Working Group (OWG) coordinating Rapid Responses. The EP&R team has responded to emergencies throughout South Sudan in the past and are better able to respond to new emergencies in Unity, Jonglei, Upper Nile and WBeG since setting up bases in these locations. Oxfam proposes the provision of safe emergency water, sanitation, and gender sensitive hygiene promotion (WASH) support to the most vulnerable populations affected by conflict and natural hazards in Central Equatoria, Jonglei, Upper Nile, and Unity states. Oxfam's intention to provide for basic WASH needs driven by women's and men's priorities learned through sex-specific consultations, is imperative to saving lives and achieving overall WASH cluster objectives.

Oxfam is currently implementing an emergency WASH program with operational bases in Malakal and Melut in Upper Nile state, working in the PoC area in Malakal and IDP sites in Melut, and has an operational base setup in Jonglei, and in Unity states. Oxfam has an EP&R team with experienced technical WASH staff ready to respond to emergencies that may arise at the request of the WASH cluster. Gender and protection capacity will be in place to ensure timely assessments to drive the response

Oxfam has a WASH catalogue of items available quickly from our headquarters in Oxford. The items have all been quality inspected and are tried and tested in emergency contexts. Oxfam has a global reputation specializing in WASH and the logistical capacity to provide supplies in large quantities quickly and as cost effectively as possible covering all elements of the sector (water, sanitation, and public health).

5. Complementarity. Explain how the project will complement previous or ongoing projects/activities implemented

by your organization.

LOGICAL FRAMEWORK Overall project objective

Contribute to the improvement of public health through the reduction of waterborne diseases and malnutrition

Logical Framework details for WATER, SANITATION AND HYGIENE

Cluster objectives	Strategic Response Plan (SRP) objectives	Percentage of activities
2015 SSO 1: Affected people have timely access to safe, and sufficient quantity of water for drinking, cooking, and personal and domestic hygiene	SO 1: Save lives and alleviate suffering by providing multi- sector assistance to people in need	30
2015 SSO 2: Affected people have access to safe, sanitary, and hygienic living environment through provision of sanitation services that are secure, sanitary, user-friendly and gender-appropriate	SO 1: Save lives and alleviate suffering by providing multi- sector assistance to people in need	30
2015 SSO 3: Affected people have access to improved hygienic practices, hygiene promotion and delivery of hygiene products and services on a sustainable and equitable basis	SO 1: Save lives and alleviate suffering by providing multi- sector assistance to people in need	40

Outcome 1	WASH partners have access to life saving WASH supplies to meet the needs of 100,000 vulnerable natural hazards and / or at risk of water borne diseases	e IDPs and host community women, men, boys, and girls affected by conflict,
Code	Description	Assumptions & Risks
Output 1.1	Procurement of adequate WASH emergency supplies targeting 100,000 vulnerable IDPs and host community women, men, boys, and girls affected by conflict, natural hazards and / or at risk of water	Assumptions: Cooperation amongst WASH Cluster partners is conducive for smooth communication and information sharing of supply needs. Conflict, theft and destruction of property does not occur in identified pre-positioning locations. Humanitarian access is conducive to pre-positioning of supplies in key strategic locations. Humanitarian access is conducive for receipt of Oxfam supplies by partners. WASH partners request supplies from the Oxfam stock. Air asset availability Provision of accurate and timely information by counterparts and partners on the ground. Logistical accessibility in South Sudan or region. Staff are able to obtain work and travel permits and visas. Tax exemption processes are not significantly delayed or disrupted. Market accessibility and access to local and regional supplies remain possible for the majority of items. Oxfam catalogue items are readily available from warehouse Risks: Conflict, insecurity or natural disasters prevent the delivery by road to locations

Indicators

Code	Cluster	Indicator	End Cycle		End- Cycle		
			Men	Women	Boys	Girls	Target
Indicator 1.1.1	WATER, SANITATION AND HYGIENE	[Core pipeline] % of partner requests for WASH core pipeline supplies requests that are honoured					90
	Means of Verification:	Stock report Bin cards Waybills Goods received notes Cluster stock release requests					

Activities

Activity 1.1.1	Procure supplies as outlined in the budget
Activity 1.1.2	receive supplies
Activity 1.1.3	Deliver supplies to key prepositioning hubs Juba, Rumbek, Wau, Nyal and Lankien
Activity 1.1.4	Store supplies in adequate facilities
Activity 1.1.5	Stocktake
Activity 1.1.6	top up supplies as stock levels deplete

Output 1.2

Adequate storage and management of the WASH emergency supplies at Oxfam warehouses in Juba, Rumbek, Wau, Nyal and Lankien

Assumptions: Cooperation amongst WASH Cluster partners is conducive for smooth

communication and information sharing of supply needs.
Conflict, theft and destruction of property does not occur in identified

pre-positioning locations. Humanitarian access is conducive to pre-positioning of supplies in key strategic locations.

Humanitarian access is conducive for receipt of Oxfam supplies by partners. WASH partners request supplies from the Oxfam stock.

Air asset availability

Provision of accurate and timely information by counterparts and partners on

Logistical accessibility in South Sudan or region. Staff are able to obtain work and travel permits and visas.

https://chfsouthsudan.unocha.org/chf/printchfproject.aspx?request=2dZqFzTXjsRfsfRWOMSzXum1P18iCINe2ge5uccBXzM=

Tax exemption processes are not significantly delayed or disrupted. Market accessibility and access to local and regional supplies remain possible for the majority of items.

Oxfam catalogue items are readily available from warehouse

Conflict, insecurity or natural disasters prevent the delivery by road to locations

M & R DETAILS

Monitoring & Reporting Plan:

Describe how you will monitor the implementation of each activity. Describe the tools you plan to use (checklist, photo, questionnaires, interviews, suggestion box etc.) in order to collect data and how you will store data. Explain the frequency type and protocol of reporting (how often do you report about what to whom?). State if, when and how you plan to evaluate your project .

All activities within the project will be regularly monitored and results against indicators will be collected in monthly reports as well as for each intervention report. Oxfam will provide the Humanitarian Coordinator, through the Technical Secretariat, with the following reports using the CHF reporting templates - Midterm project progress report that includes utilized and remaining balance of the funds allocated, for project of more than 6 months

Final quantitative and narrative project reports
 Ad hoc project reports for management purposes as may be requested by the HC.

One monthly monitoring visit will be done each month to a cluster partner receiving supplies. This will be conducted in agreement with the Cluster and monitoring report will be shared with the cluster and the partner.

OTHER INFORMATION

Accountability to Affected Populations

Oxfam staff will visit partners who receive supplies to monitor whether supplies have been disbursed/distributed in an equitable way with the most vulnerable prioritised. Oxfam staff will collect feedback from beneficiaries directly to ascertain waiting times at distribution locations, quality of the item and additional items that may have been required/more suitable for their needs.

Implementation Plan: Describe for each activity how you plan to implement it and who is carrying out Oxfam coordinates pipeline responses based on need with the national WASH Cluster. Working with the WASH Cluster - Oxfam plans on pre-positioning stock in 5 locations across South Sudan. These include Juba (CES), Rumbek, (Lakes State), Nyal (Unity State), Wau (WBEG State) and Lankien (Jonglei State).

Oxfam will receive requests from the WASH Cluster to provide supplies to a partner. Request will include location, agency, number of beneficiaries and need. Based upon this request Oxfam will release supplies to the partner within 72hours from the nearest available storage hub. Supplies will be collected by the partner however in some locations for small quantities Oxfam may have the capacity to deliver. The Cluster request form will be stamped and signed by Oxfam and the partner will sign upon receipt. This document will be attached to the stock release form and waybill corresponding with the Cluster request.

Coordination with other Organizations in project area

s	Name of the organization	Areas/activities of collaboration and rationale
	1. UNICEF	Coordination with other Pipeline partners for procurement & distribution

		·							
	2. IOM	Coordination with other Pipeline partners for procurement & distribution							
	3. All WASH Cluster partners	3. All WASH Cluster partners Coordination with other Pipeline partners for procurement & distribution							
Environmental Marker Code	A: Neutral Impact on environmen	nt with No mitigation							
Gender Marker Code	4-Not applicable - Only used for very small number of projects, such as "support services"								
Justify Chosen Gender Marker Code	gender equity and the promotion seeks to mainstream work to rec internal gender policy, a SGBV/V gender equality through interven South Sudan and in our regional	n, boys, and girls are affected differently by disasters and displacement, Oxfam GB (hereafter referred to as Oxfam) prioritizes of women's rights in all our humanitarian responses. Oxfam policies recognize that SGBV/AWW is a violation of human rights and duce SGBV and protection into all programs. Oxfam is a key member of the Inter Agency standing committee, and also has an AWW policy and has developed minimum standards for gender in emergencies as a tool to measure consistency in promoting tions. Oxfam trains its programme personnel in gender mainstreaming, and has a team of gender and protection advisers based in centre in Nairobi that work closely together to mainstream gender into programmes and projects. WASH activities will incorporate fferent needs of women, men, boys, and girls and provide opportunities for different groups to feedback and influence programme							
Protection Mainstreaming	integrating protection activities in bathing shelters, provision of set safety and security are all critical networks, and participates in the Oxfam has and will continue to cand conflict affected communities continue to take into consideratic as modified latrines, handrails, c	ninimum aims to be safe programming through conflict sensitivity and adhering to 'Do No Harm' principles, while at the same time our WASH programme. Indicators such as safe and equitable access to water points, safe and equitable access to latrines and x and context appropriate hygiene and dignity kits, and understanding and monitoring beneficiaries' experience and perception of all to the provision of safe programming that Oxfam provides. Oxfam is a member of the Global Protection Cluster, global protection experience and field level in South Sudan (including the GBV Sublcluster and Child Protection Subcluster). Consult with the communities (men, women, boys, girls, youth, elderly) we work with to identify the particular needs of the displaced is throughout all phases of programming (assessment, implementation, monitoring, and evaluation), but also in particular will not the needs of those who may be particularly vulnerable to being unable to access or use assistance safely and effectively (such ommodes, etc). We strive to adhere to minimum standards but also to use innovation to ensure special needs and vulnerabilities roughout the proposal, needs of women, men, boys, girls, elderly, and persons with disabilities or special needs have been explicitly for continued consultation.							
	host and displaced communities, field who will not only support sat advocacy. Oxfam WASH progra communities also helps build relaprogramming. One of the critical ways that Oxf to information and services, ever	order to mitigate existing risks but to ensure that Oxfam's programming does not unintentionally create risks. Oxfam works with both which is not only conflict sensitive but may also support social cohesion. Oxfam has dedicated Protection and Gender staff in the fe programming, but will also be able to identify critical protection concerns to be addressed through assistance, services, and unimmes work with communities through community mobilizers, volunteers, and children (in child to child activities) from the ationships and awareness directly with the communities we work with and helps mitigate potential conflict, unsafe and uninformed fam's WASH programme integrates protection into its programme beyond mainstreaming is through referrals and facilitating access in in locations where we do not have dedicated protection staff. All WASH staff and volunteers will be able to identify needs and ation and facilitate access to services through the use of mapping and Standard Operating							
	 Provision of enough water for p Provide quality drinking water f Train community leader on the Assist in HIV/AIDS education for 	vital information through hygeine promotion activities covering topics including; people with People living with HIV/AIDS (PLWHA) long term illness or PLWHA HIV/AIDS and other chronic diseases or PHVs, CHP, CHW, Health Centre staff, Oxfam Staff, other NGO staff, Gov. Staff, Teachers, Secondary students, etc. chronic illnesses to appropriate agencies or health services.							
Safety and Security	Oxfam will use its Security (SOP	P) Standard Operation Procedures for staff safety and to determine the safe staff movements in the affected area.							
Access		and supplies in these 5 locations (Juba CES, Rumbek Lake state, Nyal, Unity state, Lankien Jonglie state, and Wau WBEG State), better access to the resources that might be needed.
