**Two-three sentences with a brief project description and succinct explanation of how the project is time sensitive, catalytic and risk-tolerant/ innovative:**

Reel Peace builds, trains and supports a national network of women in Liberia using film to support peace and stability. Young Liberian women remain deeply excluded in political, economic and social terms. Traditional gender roles undermine women's independence, widespread domestic violence perpetuates female subordination and lack of access to opportunities prevents social mobility. All of this undermines peace- when over 50% of the population is systematically abused, excluded and marginalized this breeds resentment, precipitates violence, undermines economic growth and ignores the significant capacity these women have to support peace-building.

Equipping women with film-making skills is an innovative way to provide space for their voices on critical issues in Liberia, including peace-building and gender equality.

<b>Type of submission:</b> <input type="checkbox"/> New project <input checked="" type="checkbox"/> Project amendment	<b>If it is a project amendment, select all changes that apply and provide a brief justification:</b>  <b>Extension of duration:</b> Additional duration in months: 1 months <b>Change of project outcome/ scope:</b> <b>Change of budget allocation between outcomes or budget categories of more than 15%:</b> <b>Additional PBF budget:</b> Additional amount by recipient organization: USD XXXXX
<b>Brief justification for amendment:</b>  The project was intended to start in Dec 2017, but the first funding tranche was only delivered in March 2018, making March 2018 the official start of the project. Due to this delay and a variety of logistical and organizational challenges, project implementation did not commence as planned. This includes delays caused by rainy season. Since we are working with women from 15 counties, we've had complications engaging with teams in parts that are difficult to reach by road. Some of these outlying counties also struggle with cell service. Our staff and film training mentors are doing their best to keep momentum going, but we are slightly behind schedule due to the challenges presented by some counties. We faced an additional set of challenges and delay brought on by our filmmaking expert, Kathleen Flynn, who has had to avoid returning to Liberia for safety reason. She will return in January, and in the meantime our Program Manager and mentors on the ground are driving the project. Our filmmaking expert, Kathleen Flynn, will continue to guide teams remotely with hands-on support from the mentors on the ground.  In this regard, we would like to request a 1-month extension to complete the project by June 30 <sup>th</sup> , 2019.	
<i>Note: If this is an amendment, show any changes to the project document in RED colour or TRACKED CHANGES, ensuring a new result framework and budget tables are included with clearly visible changes. Any parts of the document which are not affected, should remain the same. New project signatures are required.</i>
