Addendum to agreement with UNOPS

Proposal Title: System-Wide Evaluation of COVID-19 (Amendment 3)

Budget Amendment 3: USD 2,107,301

Evaluation of the UNDS Socio-Economic Response to COVID-19

The primary objective of the evaluation would be to assess progress and results and demonstrate accountability of the UN development system's contribution to the socio-economic response to COVID-19 and to learn lessons to accelerate progress towards recovering better and greener and achieving the SDGs. The specific objectives should focus on the following four areas:

1. Provide an assessment of progress and results in the implementation of the UN Framework on the immediate socio-economic response to COVID-19 as operationalized through the SERPs.
2. Provide accountability for the results of the COVID-19 MPTF and the Joint SDG Fund through a specific module or component of the evaluation.
3. Present an assessment of the efficiency, effectiveness and coherence of the UNCT in the management of socio-economic response to COVID-19 as per the QCPR in the context of UNDS reform.
4. Learn lessons on how the new generation of UN Country Teams can better accompany national governments and partners to progress towards recovering better and greener during the decade of action to deliver on the Sustainable Development Goal.

The primary audiences for this evaluation are United Nations member states, the UN Sustainable Development Group, Resident Coordinators, and UNCT entities.

Management:

A handwritten signature in blue ink is located in the bottom right corner of the page.

The evaluation will be managed by the System-Wide Evaluation Office in line with the Secretary-General's proposal in the QCPR. In the interim Senior Coordinator, System Wide Evaluation will manage the evaluation until the SWE Office is functional and then the evaluation will transition to the SWE Office under the leadership of the Director – System Wide Evaluation Office.
