5. MONITORING AND EVALUATION (to be completed by organization)

(A) Describe how you will monitor, evaluate and report on your project activities and achievements, including the frequency of monitoring, methodology (site visits, observations, remote monitoring, external evaluation, etc.), and monitoring tools (reports, statistics, photographs, etc.). Also describe how findings will be used to adapt the project implementation strategy. (maximum 1500 characters) *

Project monitoring will be continuous and includes both monitoring of the impact of the implemented activities, as well as assessing the result indicators. The project coordinator and field staff will carefully monitor the project on a daily basis and document all activities to ensure effective implementation. Post Distribution Monitoring in partnership with UNHCR and Intersos will be carried out and the costs covered by UNHCR while SSWC will provide the distribution reports. The project manager will produce monthly progress reports on activities till their completion. The monitoring from the outset of the project will be supported by the use of a logical framework. The project staff will be present in the entire project duration. Stakeholders including target beneficiaries, TFG administration representatives, IDP committees, women household heads and SSWC staff. All stakeholders will contribute to review the project progress in order to ascertain the set bench-marks. The project manager and board of directors will ensure that monitoring and evaluation information in an accurate and consistent way, and that reporting is done in a timely manner on a monthly basis. This documentation will be compiled for success stories and includes both challenges and lessons learnt. Evaluation will be done at the end of the project to determine whether the project has achieved its intended objectives. All monitoring, final and evaluation reports as well as photos and beneficiary phone numbers will be shared with OCHA. All 10 camps are in the TFG controlled areas.
