Donors

As you can understand, one of the Goals of the MDG-F is to generate interest and attract funding from other donors. In order to be able to report on this goal in 2010, we would require you to advise us if there has been any complementary financing provided in 2010 for each programme as per following example:

Amount in thousands of U\$

Туре	Donor	Total	For 2010	For 2011	For 2012
Parallel					
Cost Share					
Counterpart	local government	844	285 8	344285	

DEFINITIONS

1) PARALLEL FINANCING – refers to financing activities related to or complementary to the programme but whose funds are NOT channeled through Un agencies. Example: JAICA decides to finance 10 additional seminars to disseminate the objectives of the programme in additional communities.

2) COST SHARING – refers to financing that is channeled through one or more of the UN agencies executing a particular programme. Example: The Government of Italy gives UNESCO the equivalent of US \$ 200,000 to be spent on activities that expand the reach of planned activities and these funds are channeled through UNESCO.

3) COUNTERPART FUNDS - refers to funds provided by one or several government agencies (in kind or in cash) to expand the reach of the programme. These funds may or may not be channeled through a UN agency. Example: The Ministry of Water donates land to build a pilot 'village water treatment plant' The value of the contribution in kind or the amount of local currency contributed (if in cash) must be recalculated in US \$ and the resulting amount(s) is what is reported in the table above.

Section II: JP Progress

1 Narrative on progress, obstacles and contingency Measures

Please provide a brief overall assessment (250 words) of the extent to which the joint programme components are progressing in relation to expected outcomes and outputs, as well as any measures taken for the sustainability of the joint programme during the reporting period. Please, provide examples if relevant. Try to describe facts avoiding interpretations or personal opinions

Progress in outcomes

During this reporting period, the JP successfully progressed into the final semester of the 2year programme and is nearing completion. Based on recommendation and assistance provided by the MDG-F Secretariat, the JP has focused the last 6 months on improving monitoring and evaluation in order to better prepare for the final evaluation planned for Spring of 2011. Progress towards the outcomes was made through pursuing a multi-disciplinary approach and a simultaneous top-down/bottom-up approach. The recent MDG-F activities implemented contributed to strengthening national and multi-agency coordination on conflict prevention, reconciliation and recovery (outcome 1). By providing on-going assistance to the VPM's office in resolving remaining legal issues of refugee/returnee, the JP supported trend of returns on a national level. MDG-F activities also strengthened community integration, safety and social cohesion (outcome 2). By implementing Safer Community Plans and holding violence prevention workshops in schools, the JP improved perception of public safety in target areas. Lastly, trainings and workshops organized especially for farmers and entrepreneurs contributed to improve socio-economic situation of areas of Special State Concern. Along with small infrastructure projects, this contributed to socio-economic recovery of areas of Special State Concern (outcome 3).

Progress in outputs

During 2010, the JP's achieved the following results:

- Improved Joint Programme Monitoring and Evaluation Framework and recording of beneficiares.
- Support to the Vice Prime Minister's office regarding legal issues of returnees and refugees.

- Support improvements to provision of free legal aid to target communities through 6 coordination meetings with NGOs and 1 conference on Law on Free Legal Aid attended by 80 participants.

- Implementation of 10 safer community plans in war-affected areas.
- Organized 3 workshops for women organizations in conflict prevention, reconciliation and peace building,
- Organized 7 workshops on psycho-social counselling and employment opportunities for veterans associations in target communities.
- Strengthened the National Network of Violence-free Schools with inclusion of 14 additional schools in war affected areas.
- Enhanced capacity in project development of local authorities and community leaders provided through implementation of 5 certified training courses.

- Economic opportunities were created in targeted areas through 3 vocational trainings and 8 workshops for local authorities, communities and regional development agencies on how to use EU Pre-accession Agriculture and Rural Development Funds, EU IPA funds, as well as the formation of Local Action Groups to formulate local community-led development strategies.

- Technical assistance and infrastructure was improved in 6 micro-projects in order to support business development services for local businesses and scale-up agricultural cooperatives.

- 12 sets of technical documentation and 11 local community identified infrastructure micro-projects were developed and implemented.

Measures taken for the sustainability of the joint programme

- Additional government representatives invited to the programme management committee
- Offices for Witness/Victim Support in four courts successfully integrated into Ministry of Justice system.

Are there difficulties in the implementation? Administrative / Financial

What are the causes of these difficulties? External to the Joint Programme

Briefly describe the current difficulties the Joint Programme is facing

- Impact of global financial crisis in Croatia: Due to the financial crisis, the government of Croatia initiated budget cuts for 2009 programmes. As social programmes and government projects are reduced or delayed, most of the country will be impacted but particularly vulnerable groups in the war-affected Areas of Special State, where the MDG-F project is working, may be heaviest hit. On a macro-economic level, the financial crisis exacerbates existing difficulties. Wages, employment and labour conditions of Croatian workers and especially workers from ASSC have suffered, slowing domestic consumption and perpetuating economic downturn. The budget cuts also diminish the possibility of government co-financing of MDG-F related activities.

- Output 2.2 has faced a delay in organizing of workshops due to a series of changes in management and staff over the last year. The JP Manager is working with the responsible agency to revise the workplan and implement the necessary workshops to achieve the expected results.

Briefly describe the current external difficulties that delay implementation

No delay in implementation.

Explain the actions that are or will be taken to eliminate or mitigate the difficulties

The JP Manager with the support of the UNRC office is working with the responsible agency to ensure output 2.2 remains on track to achieving expected results.

2 Inter-Agency Coordination and Delivering as One

Is the joint programme still in line with the UNDAF? Yes false No true

If not, does the joint programme fit the national strategies?

true Yes No false

What types of coordination mechanisms

The UN in Croatia does not operate under an UNDAF, but rather, all four involved agencies work under national strategies for furthering regional development, safety and social inclusion in war affected areas. The first UNRC in Croatia assumed her post in July 2010 and formal establishment of a UNRC office will further assist MDG-F with interagency coordination.

As planned in the Programme document, the management and coordination of the Joint Programme during the reporting period involves a Programme Manager overseeing the implementation of all outputs; a Programme Implementation Unit and a Programme Management Committee ensuring due coordination; and a National Steering Committee providing oversight and strategic guidance. In addition, each output of the Joint Programme is managed by a single designated UN agency that is responsible for that output's timely and cost-effective implementation. Wherever possible, the programme implementation unit seeks to maximize the impact of MDG-F activities in the field by coordinating UN agencies activities in targeted communities.

As the agencies with an established field presence, UNDP and UNHCR have included their field offices and associated personnel as crucial elements of its programme delivery. These offices can effectively coordinate field operations, logistics and ensure national ownership at the local level in the communities and municipalities. Field personnel are under the supervision of the PM for those activities that relate to the Joint Programme.

4 Communication and Advocacy

Has the JP articulated an advocacy & communication strategy that helps advance its policy objectives and development outcomes?

Yes false

No true

Please provide a brief explanation of the objectives, key elements and target audience of this strategy

What concrete gains are the adovacy and communication efforts outlined in the JP and/or national strategy contributing towards achieving?

Increased awareness on MDG related issues amongst citizens and governments

In 2009, UN agencies communication officers met on ad hoc basis to develop common communication tools (i.a. press release template, folders, brochures and web-site) for the JP. Such tools will ensure that a consistent and targeted message promoting JP objectives and development outcomes is communicated. These tools have resulted in a common written and visual identity for all communications. Communications officers have actively engaged with local media to develop exposé reports on MDG-F goals, activities and interviews with beneficiaries. Activities have included an interview about the MDG-F with UNDP Resident Representative on television talk show with nationwide coverage. With the arrival of the UNRC in July 2010, the UN communications group is expected to take a more active role and will develop a common UN website for Croatia which will prominently feature the MDG-F as a joint UN programme in Croatia.

What outreach activities do the programme implement to ensure that local citizens have adequate access to information on the programme and opportunities to actively participate?

Open forum meetings

Different channels were mobilized in order to raise awareness of national and local audiences on the JP activities, results and opportunities to participate.

- National and local media highlighted the achievements of JP in at least 60 separate articles.
- MDGF leaflets describing the MDGs and the global and national MDGF programmes were produced and 2000 copies printed.
- MDGF leaflets were produced with human interest stories of JP beneficiaries. The stories were also uploaded to the MDGF global website.
- The MDG-F joint programme was prominently represented at the UN Day town hall meeting organized by the UNCT in Petrinja, a war affected target area of the MDGF.

Additional Narrative Comments

Please provide any relevant information and contributions of the programme to de MDGs, whether at national or local level

Despite the best efforts of the UNCT, the Ministry of Foreign Affairs did not produce a new national MDG report for 2010. Instead the MFA will focus on meeting EU requirements for accession which incorporates similar targets to the MDGs. A representative of UNDP Croatia participated in the Regional MDG+10 Conference held in Istanbul, 9-10 June 2010, at which the Republic of Croatia was highlighted as a best practice case for achieving the MDGs. At the MDG Summit in September 2010, Croatia reported that multiple economic difficulties have caused growth and development rates to decline, thus affecting progress on MDG1. Croatia reported continuing progress in achievement of MDG2 and MDG3. Overall, Croatia remains on-track to achieve the MDGs.

Please provide other comments you would like to communicate to the MDG-F Secretariat

1.2 Please briefly provide some contextual information on the above mentioned mechanisms and the country/municipality where it will be implemented (base line, stage of development and approval, potential impact)

10 Plans – Under JP Output 2.1, local crime prevention councils consisting of representatives of mayors office, community police and civil society representatives discuss and analysis problems in order to formulate Safer Community Plans. To date MDG-F has implemented 10 Safer Community Plans designed to improve safety and security in the community.

20 working groups – Under JP Output 2.4, the NGO Udraga Mi is supporting 20 local cooperatives that work to improve the situation in their local communities. All cooperatives are located in former war affected areas and involve multi-ethnic tensions. The actions of the cooperative and implementation of micro-projects are intended to reduce tension among ethnic groups and improve the overall situation for whole community.

1 National Law – Under JP output 1.2, MDG-F organized a high-profile conference on implementation of the Law on Free Legal Aid and reviewed short-comings of the law. As a result of the conference, the Ministry of Justice has now recognized these shortcomings and announced changes in the future implementation that should led to greater access to free legal aid thereby reducing conflict points.
