(maximum 1500 characters)	been implementing a comprehensive nutrition project in for Mogadishu and Afgooye corridor and the key human resources are							
	currently in place to continue with this vital work, the staff will comprise 1 project Manager-will do all monitoring and evaluation of							
	the project,1 Nutrition Office	er who will treat and refer all complicated cases, 3 OTP Supervisors, 3 Nutrition Screeners, 3 Nurse, 3						
	Auxilary and 6 community mobilizes for the three areas. The teams will be operational six days a week with 8 working hours per							
	day. Each day daily attendance sheets registration of the staffs and the patients shall be deployed and managed by the SOYDA							
	field team, while the project coordinator will supervise the activities at the field progress. UNICEF will provide all necessary supplies							
	during and a PCA agreement has already been signed for 2012-2013. During the Project, SOYDA trained IMAM Experts will carry							
	out Staff IMAM Refresher training for the 15 SOYDA Health and Nutrition Staffs for one sessions during the project, and also will							
	carry out Breast feeding and PHC promotion training on 15 mothers /chws/community group training will be conducted twice during							
	the project.							

## MONITORING AND EVALUATION (to be completed by organization) SOYDA Managers team will have the overall responsibility for this project. The programme will be managed at by Project Manager (A) Describe how you will monitor, evaluate and report on SOYDA Managers team will have the overall responsibility for this project. The programme will be managed at by reject wainager based in Mogadishu and who will supervise the field staff in the implementation of the activities for project. SOYDA will report on the progress of activities, achievement of project objectives and finances on both Interim and final report. Monitoring of nutrition activities will take place through regular supervision visits to the project sites, admission cards, ratio acrds and ways of doing disharges, Beneficiary accountability is an important part of SOYDA's system to monitor quality and will be developed according to your project activities and achievements, including the frequency of monitoring, methodology (site visits, observations, remote monitoring external evaluation, etc.), and the needs of the community. Information on complaint mechanisms for the programmes will be a standard component of all community level workshops, meetings or training sessions, also SOYDA will report to UNICEF monthly OTP and SFP reports Throughout the implementation of this project, there will be ongoing evaluation of performance and achievement, and also will do monitoring tools (reports, statistics, photographs, etc.). Also describe how findings will be monthly statistic reports and interim and final narrative reports during the six months. Project Manager and SOYDA managers will have initial responsibility for evaluating progress in their sectors, including through the use of participatory methods such as focus FGD. SOYDA will collaborate with other external agent responsible on behalf of the donor. used to adapt the project implementation strategy.
