<sup>5</sup> Reference to be made to outcomes of the Priority Plan or PBF Performance Management Plan (PMP)

**PBF Priority Area 1:** Support to Implementation of Peace Agreements and Political Dialogue;

**Project Outcome 1:** The Implementation of the Transition Agreement is advanced through the organization of an inclusive, transparent, meaningful and participatory National Dialogue Conference, shaping the peaceful future of Yemen.

• Output: A well-resourced Secretariat -both during the preparatory phase and the Conference –provides the needed administrative, technical and substantive support to the National Dialogue Conference.

## PBF Outcome Area<sup>5</sup>

## PBF Priority Area 2: Promote Coexistence and Peaceful Resolution of Conflict;

**Project Outcome 2:** Yemenis, in particular, the women's groups, civil society, adolescents, and IDPs are empowered to engage and participate effectively in peace-building efforts through the national dialogue processes.

Output: Stakeholders are able to participate effectively in democratic processes
including the National Dialogue by advocating for and negotiating their respective
interests.

**Project Outcome 3:** National reconciliation process and democratic values are strengthened through public awareness and enhanced access to the national dialogue.

• **Output**: Public at large is able to access information on the dialogue process and provide inputs into the debate.

## I. ACHIEVEMENTS:

PBF Priority area 1; Project Outcome 1: By March 2013, Yemen launched the National Dialogue Conference and was on track to implement the Transition Agreement (signed in November 2011). The Conference includes representation from all parts of Yemen and all of its largest social and political groups, including 29% women and 28% youth (inclusive, participative). By June 2013 the first round of Working Group sessions were completed and a report of the outcomes was generated. On 8 June, the second plenary session was launched, which was televised and welcomed by international observers (transparent). The report demonstrated that the Conference was making good progress towards outcomes, and the quality of recommendations on issues of political participation for women and youth, social and economic principles, commitments on IDPs, etc., demonstrated the impact of technical advice provided to the Conference through UN agencies.

# Qualitative assessment of achievements and challenges

The process has required the ongoing close attention and mediation by the Special Adviser to the Secretary General on Yemen, and support from the National Dialogue Secretariat: at several points there have been temporary walk-outs and suspensions of the participation of some groups including those from the Sada'a region (Al Houthis) and from the South (Hiraak).

### Output 1:

The project established a Secretariat to support the preparatory phase of the National Dialogue and provided technical advice to the Preparatory Committee in the end 2012 and beginning of 2013. The National Dialogue Secretariat to support the Conference was established and fully operational by end March 2013. Resources financed by this project were used to leverage international support for a larger programme of assistance to the National Dialogue Secretariat, the Conference and additional outreach activities (budget \$23.1m). OSASG provided technical expertise throughout the process and provided substantial logistical support. During the first

round of the working groups national and international consultations were provided to support and facilitate the sessions of the working groups. Working papers were produced as needed for the working groups including on governance finance, conflict resolution, women and youth, and constitutional issues. The Special Adviser conducted a field trip to Hodeida to strengthen understanding of concerns particular to the people of that region, including with Al Hiraak Al Tehami. Town hall meetings with the Special Adviser for women and youth were also organized to ensure transparent participation of these groups from outside the National Dialogue. Furthermore, the UN has enabled a Yemeni-led coordination of international support to the National Dialogue and relevant outreach activities.

**PBF Priority area 2; Project Outcome 2**: A package of UN-agency activities continued to strengthen coalitions, raise awareness about the National Dialogue, facilitate intra-group dialogues, create space for voices of key constituency groups, and - in some cases - develop recommendations for national policy to be presented to the Conference and inform its deliberations.

## Output 1:

Outreach activities and support to strengthen the participation of women, IDPs and Adolescents were completed by end 2012 by UNICEF, UNHCR, UNFPA and UNWomen.

During this period the following were achieved:

• Facilitating the meaningful participation of children/adolescents, through awareness-raising sessions and trainings (21 field coordinators and 53 trainers trained to conduct and facilitate consultations with 15 -17 year olds). Consultations held with adolescents in 10 governorates. These interventions covered students, persons with disabilities, orphans, internally displaced persons (IDPs), marginalized persons, trafficked children, child soldiers, child marriage, children in contact with the law and child labourers., reaching 1,351 adolescents (693 males and 658 females).

80 consultations (hearing sessions and facilitated discussions) on a week in a child's life were held. Life story interviews have so far been completed in 9 of the 10 governorates. Adolescent-led initiatives have also been completed in 14 of the 21 targeted governorates reaching 560 adolescents (280 male/280 female).

These results focused mainly on the rights of children and issues affecting their physical, psychological and social wellbeing, offering possible recommendations and thereby contributing to the promotion of tolerance, acceptance and cohesion amongst adolescents themselves and between adolescents and adults. (UNICEF)

- Supporting capacity building for Civil Society Organsiations (CSOs) during the National Dialogue: Material and technical support were provided to national CSOs regarding enhancing participation in public debates. This support through three activities:
  - (i) A training of trainers (27 participants, April 2013) on public debating, negotiation, and public presentation skills.
  - (ii) Three workshops on drafting, analyzing and finalizing the CSO Vision for the NDC (16 participants/16 governorates). Workshops included flip chart and

video documentations of participants' dialogue and agreements on different issues.

(iii) Three sessions to develop a Youth policy proposal delivered in partnership with the Yemeni Youth Observatory Foundation (22 NDC youth representative). 450 copies of the proposal were distributed to the NDC delegates. (UNDP)

<u>Outcome</u> 3: Based on the PBF Priority Areas, Over the period several media/communications outputs were produced, including:

Further support to the media sub-committee of the Technical Committee for the National Dialogue preparatory committee members (strategic advice for the communications and public information campaign ahead of the NDC). This advice was reflected in the final draft of the Committee's communications strategy.

Support was provided to the Technical Committee and the National Dialogue Secretariat on development of a NDC logo, a television advertisement informing about the application process for the non-politically affiliated seats at the Conference, development of the first town hall event (in collaboration with NDI), production of a musical for the Conference opening ceremony (also used in live showings in seven governorates, and disseminated through 5,000 copies), design and development of a Conference citizens' - named 'Dialogue in a Box' - toolkit (pen, stickers, Conference pin, 13 flashcards on each Conference topic, and booklet on the structure and purpose of the Conference) which was distributed to 6,000 people (UNDP).

# II. ACHEIVMENTS TO BE EXPECTED:

## PBF Priority area 1; Project Outcome 1:

The success that the NDC in Yemen has accomplished is remarkable. The main milestones of the transition are largely being achieve according to plan, and the mediation efforts of the Special Adviser to keep all political stakeholders participating in this inclusive and transparent process have been important. The NDC is reaching its conclusion, which will be followed by a constitution-making process, and this will be facilitated by an OSASG-facilitated conference of international experts in Morocco in July to advise on planning for the post-NDC phase. Under the IRF project, OSASG will continue to provide technical assistance and expertise through consultation and mediation initiatives as needed. In Sana'a two televised town hall meetings will be conducted. Another two field trips to Sa'ada (July) and another location (3<sup>rd</sup> quarter 2013) will be conducted.

#### Outcome 1:

The technical support will continue for the NDS in the next reporting period, and with the extension more efforts will be devoted to support the final report of the first phase (NDC) and to support the Constitutional Drafting Committee Secretariat.

## PBF Priority area 2; Project Outcome 2:

## Output 1:

• Adolescent-led initiatives will be conducted in the remaining seven governorates reaching an additional 280 adolescents (140 boys and 140 girls). A comprehensive public information campaign targeting adolescents nationwide through songs, posters, roll up stands, T –shirts, radio episodes and wristbands has been developed and designed. The public information campaign will be

- launched during the last week of July. Finally the National Children's Conference scheduled to be held in September.(UNICEF)
- With the new extension and slight modifications on the fund, the UNDPA will focus in bringing women and youth to form an alliance to amply their influence on the National Dialogue. A centre for women and youth has been launched (July), and will be used to host their meetings to discuss women and youth concerns and revert feedback to the working groups. The center will provide an opening for the participation of women and youth from outside the Dialogue. These sessions and meetings are facilitated by national and international consultants to support women and youth in formulating their issues and addressing them (UNDPA)
- The CSOs who has received Training of the Trainers trainings will be providing trainings for another 160 CSOs to reach the targeted 300 CSOs.

# PBF Priority area 2; Project Outcome 3:

## Output1:

 With 6,000 NDC citizens toolkit distributed through UNDP, CSOs and NDC members, an additional 4,000 toolkits with a revised booklet and flashcards specific to hosting local meetings and producing tangible outcomes have been developed, in order to deliver more to the NDC and CSO networks across the country.

**INDICATOR BASED PERFORMANCE ASSESSMENT:** Using the **Programme Results Framework from the Project Document** - provide an update on the achievement of indicators at both the outcome and output level in the table below. Where it has not been possible to collect data on indicators, clear explanation should be given explaining why, as well as plans on how and when this data will be collected.
