

UN Pooled Funds Stakeholder Forum 16 July 2019

The Multi Partner Trust Fund Office (MPTFO)

- First established in 2004 as Iraq Trust Fund Office
- Administrative Agent for a portfolio of > 11 billion USD
- > 180 Funds / about 80 active
- > 100 partner countries
- > 100 contributors
- > 60 recipients of funding, including UN organisations, WB, NGOs and national governments
- Hosted by UNDP internally firewalled

Pooled funds: distinct functions

Fund design and administration (MPTF Office)

Fund allocations and operations - Governance (Steering Committee – Member States, UN and other stakeholders)

Fund implementation (Multiple organizations -UN entities, governments and NGOs) Administrative Agent (Trustee). Sign/maintain MoUs and SAAs; receive and administer donor funds; timely disbursements; consolidate financial statements and reports; provide final reporting. Trustee role firewalled from implementing organizations. Fund design support.

Steering Committee. Inclusive composition (UN, Government, contributors, private sector and civil society). Provide overall guidance and direction and takes allocation decisions.

Fund Secretariat. Operational body of the Fund, **r**esponsible of programmatic coordination and monitoring. Different hosting arrangements (Agency, RCO, etc) Costs charged as direct costs of the Fund (usually around 3%).

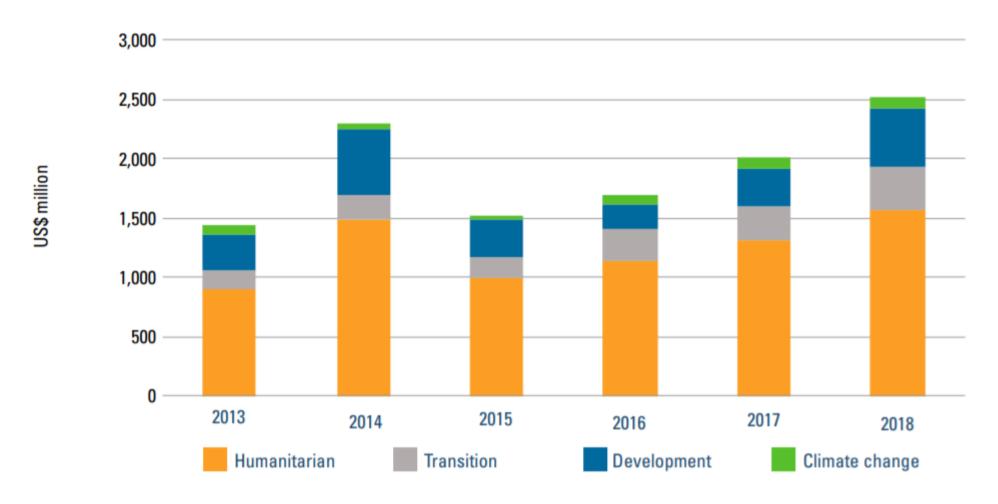

Participating Organizations. Entities assume full programmatic and financial accountability using own regulations, directives and procedures. Diverse implementing partners: UN, Government, NUNOs

Deposits to UN inter-agency pooled funds, 2010-2018

Deposits to UN-administered Pooled Funds, 2013 - 2018 (in millions, US\$)

Funding Compact – Interagency Pooled Funds targets

Member States Commitments

- **Doubling to 10%** of non-core resources for development related activities channeled through interagency pooled funds.
- \$290 million annual capitalization of the Joint Fund for Agenda 2030
- \$500 million annual contribution to the Peacebuilding Fund
- 100 Member States contributing to development related inter-agency pooled funds

UN entities commitments

- 75% of UNSDG entities reporting at least 15% of development related activities on joint activities
- -100% of inter-agency pooled funds posting evaluation reports on the UNEG website
- Specific mention of individual contributors in all results reporting by pooled funds administrators
- Common management features across all inter-agency pooled funds*

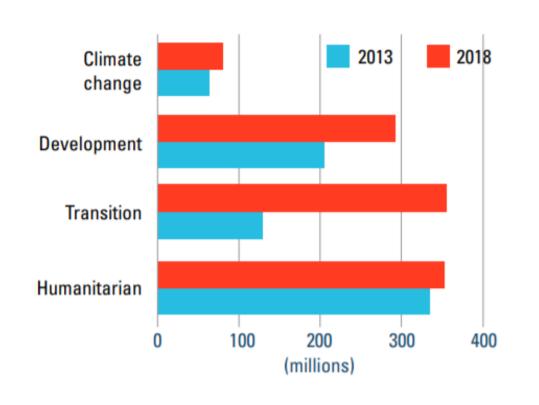

Management features of inter-agency pooled fund funds – Funding Compact

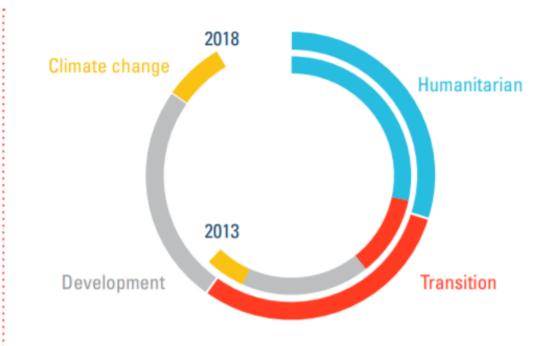

- Well-articulated strategy, including innovation features clear theories of change, solid Results-Based Management systems, well-functioning governance bodies supported by effective secretariats, quality assurance on issues of UN norms and values;
- **Risk management** systems and strategies;
- Operational effectiveness, reporting, visibility and transparency standards;
- Planning and funding for joint and system wide evaluations that meet UNEG norms and standards.

Deposits to MPTFO pooled funds (2013 vs 2018)

Deposits to MPTF Office-administered Pooled Funds, 2013 vs 2018

Achievements and transformation (2013 – 2018)

Million to US

\$1.06 Billion

Increased engagement of the private sector,

with private sector contributions growing from US\$0.34 million (3 companies) to US\$7.5 million (12

companies)

Flagship funds takeoff,

mainly the
Peacebuilding
Fund, Spotlight
Initiative, and Joint
SDG Fund

Efficiency gains,

managing a larger portfolio with same level of office costs

Accelerated closure of projects and funds,

in 2018, 15 funds and 430 projects financially closed

Independent evaluation,

confirms the quality of professional services provided by the MPTF Office as administrative agent

Investment in I.T. systems,

digitizes fund management processes and enhances transparency through the MPTF Office Gateway

Comprehensive services offer,

includes core fund design and administration, and administration services for Secretariats' support, UN data analytics, and knowledge management per request of stakeholders

Diversified funding sources,

with non-DAC contributors and non-traditional donors growing

Instruments for implementation,

for non-UN entities, including national governments, NGOs and international cooperation agencies.

Diversification of Funding and Deposits from 2013 to 2018

Diversification of Funding and Deposits from 2013 to 2018

MPTF Office KPIs (2018)

- US\$ 1.05Bn in applied deposits in 2018
- 93% of transfers within 5 days
- 95% of annual consolidated reports issued by 31 May
- 100% SUOFs issued by 31 May
- 430 projects financially closed (as of January 2018)

When and why to use UN inter-agency pooled funds

• WHEN: Co-mingled contributions to multi-entity funding mechanism, not earmarked for specific UN entity (definition from UN Financial Data Standards).

WHY:

- **Speed and Flexibility**: The legal templates are standard and are legally recognized by all institutions, which allows the Fund to be quickly established. Streamlined project appraisal/approval cycle, with the possibility of reducing the cycle timeline up to 1 week. Also, the Fund is a flexible mechanism that adapts to any changes.
- **Reduced transaction costs:** use of (i) pre-approved and (ii) single Standard legal agreements (MOU and SAA).
- **Broadening the donor base:** Pooled funding instruments attract emerging and non-resident donors. They collect and channel resources from innovative financing instruments. Well-designed funds are more likely to be capitalised, attract new partners and hence 'grow the pie' of funding.
- **Availity to fund cross-cutting functions:** coordination, risk management, M&E, etc, are difficult to fund bi-laterally.
