Peacebuilding Fund Project Progress Report

PROJECT OVERVIEW

Thank you for taking the time to complete the PBF Progress report. For projects with more than one recipient, please consult among co-recipients prior to filling out the form to ensure collaboration on the responses. You can generate a print out of the blank form by clicking on the *print* icon on the top right corner of the page. If you have any questions or require technical assistance in filling out the form, please send an email to <u>keshni.makoond@un.org</u>

PART I: OVERALL PROJECT PROGRESS

NOTES FOR COMPLETING THE REPORT:

- Avoid acronyms and UN jargon, use general /common language.
- Report on what has been achieved in the reporting period, not what the project aims to do.
- Be as concrete as possible. Avoid theoretical, vague or conceptual discourse.
- Ensure the analysis and project progress assessment is gender and age sensitive.
- If relevant, please include any COVID-19 related considerations, adjustments and results and respond to section IV. (This section is optional)

Briefly outline the *status of the project* in terms of implementation cycle, including whether preliminary/preparatory activities have been completed (i.e. contracting of partners, staff recruitment, etc.)

Please limit your response to 1500 characters including spaces.

With the overall vision of the project to facilitate sustainable and holistic reintegration of returning migrants in the economic, social and psychosocial dimensions in a manner that contributes to peacebuilding, from December 18, 2018 to March 17, 2022 the project recorded significant achievements. It was successfully able to recruit staff and work in close partnership with key government and non-governmental partners and achieved its overall objectives. With its three main outcomes, the project has contributed to reduced stigma and trauma faced by returnees, enhanced social inclusion and cohesion among returning migrants and host communities, and a more balanced and positive public perception of return migration, returnees, and their roles in community stabilization, through the following key achievements:

Launched the National Coordination Mechanism on Migration (NCM) in November 2019 and operationalized eight (8) Thematic Working Groups (TWGs) by June 20212. Established community-based reintegration task force in December 2020 with ten (10) community projects completed. 3. Established a Project Technical Committee (PTC) in September 2020. The PTC met four (4) times to discuss implementation progress and organized three (3) field monitoring visits to the project sites.4. 5,500 community members including returnees engaged in dialogue, shared learning, and intergenerational sessions, with an additional 510 involved in moonlight storytelling in the seven (7) regions.

Summarize *the main structural, institutional or societal level change* the project has contributed to. This is not anecdotal evidence or a list of individual outputs, but a description of progress made toward the main purpose of the project

FOR PROJECTS WITHIN SIX MONTHS OF COMPLETION ONLY; (1500 character limit)

Having established the NCM, in November 2019, and under the leadership of the Office of the Vice President (OVP) the Government of The Gambia (GoTG) has put in place a coordination structure to ensure a whole-of-government approach on migration governance. The NCM provided the platform for discussions on migration governance in the eight (8) Thematic Working Groups (TWGs): Border Management, Communication and Advocacy, Cross-cutting issues, Internal Migration, Labour Migration, Migration and Development, Migration Data, Policy and Legislation, Return and Reintegration.

The project has significantly contributed as 1) the Mental Health and Psychosocial Support (MHPSS) The MHPSS framework and curriculum gave the Ministry of Health (MoH) an integrated approach to the community mental health, and addressed knowledge gaps 2) the refurbishment of Tanka-Tanka psychiatric facility further ensured decent conditions for the patients admitted to the facility by providing dignified spaces and improved sanitary s the need, 3) GoTG has strengthened capacity to facilitate sustainable reintegration by establishing community-based reintegration structures, 4) community linkages strengthened through and social inclusion and reintegration of returnees based on dialogue sessions, moonlight storytelling

PART II: RESULT PROGRESS BY PROJECT OUTCOME

Describe overall progress under each Outcome made during the reporting period (for June reports: January-June; for November reports: January-November; for final reports: full project duration). Do not list individual activities. If the project is starting to make/has made a difference at the outcome level, provide specific evidence for the progress (quantitative and qualitative) and explain how it impacts the broader political and peacebuilding context.

- "On track" refers to the timely completion of outputs as indicated in the workplan.
- "On track with peacebuilding results" refers to higher-level changes in the conflict or peace factors that the project is meant to contribute to. These effects are more likely in mature projects than in newer ones.

Outcome 1: Gambian society has a balanced and positive perception of return migration Rate the current status of the outcome progress 1. Off Track () 2. On Track () 3. On Track with evidence of peacebuilding results Progress summary Please limit your response to 3000 characters including spaces. The research on reintegration and peacebuilding highlighted the roles of returnees in community peacebuilding initiatives. As part of the research findings, 68 per cent of community members interviewed believed that migrants need more financial support for a more sustainable reintegration. Interestingly, an overwhelming 72 per cent of returnees were very open to staying and contributing to national and community development efforts. Findings from the study have been used throughout the project's implementation phase, for more sustainable outcomes. Following the initial rounds of consultations with key stakeholders including border officials, national and local authorities as well as The Gambia Bureau of Statistics (GBoS), the Displacement Tracking Matrix (DTM) for The Gambia was launched in November 2021. The platform generated evidence-based data on the population mobility within and outside The Gambia, in four identified Flow Monitoring Points (FMPs): Brikama in West Coast Region (WCR), Basse Upper River Region (URR), Barra and Farafenni North Bank Region (NBR). To ensure a more communitydriven approach and ownership of the process, Flow Monitoring (FM) activities were done with local partners and a total of eight (8) monthly Flow Monitoring Reports (FMR) and two (2) guarterly Flow Monitoring Surveys (FMS) have been published from June 2021 to January 2022. The FMR and FMP have generated data for discussions on migration

The project has strengthened and supported the GoTG through the Ministry of Information and Communication Infrastructure, which acts as Chair of the Communication Platform anchored under the Communication and Advocacy TWG of the NCM. Since the validation of the communication strategy, the action plan on the communications platform was implemented with the first government TV and radio programs held.

at two NCM Thematic Working Groups (TWGs) on Internal Migration, and Data, Policy and Legislation and at regular

Support was also provided to the National Youth Council (NYC) by establishing and operationalizing the Youth Toll-Free line (1216) for returnees and young people in general to provide information on job services and job referrals. By the end of the project, 201 calls were recorded (from 159 males and 42 females), including returnees. DoL also engaged and rolled out the job centre services and referrals to regional youth centres. Within the span of the project, activities have been able to complement other projects through social media reach, TV programs and radio talk shows of the TekkiFii programs under other International Trade Centre (ITC) projects – and in partnership with the National Youth Council regional TekkiFii awareness activities were organized in Bansang (CRR) and Kudang (CRR)

Indicate any additional analysis on how Gender Equality and Women's Empowerment and/or Youth Inclusion and Responsiveness has been ensured under this Outcome

Please limit your response to 1500 characters including spaces.

consultations with government partners on migration-related issues.

The research on return and reintegration and its implication on peacebuilding adopted a youth and gender-sensitive approach, with most interviewees being returnees between the ages of 18–35 years. Among family members, there were 24 respondents from parents/guardians (12 males and 12 females) and 24 respondents from siblings (12 males and 12 females) and 24 respondents from siblings (12 males and 12 females) per cluster. From the host community members, there were 30 respondents per cluster, comprising five (5) village alkalos/VDC chairmen, five (5) religious' leaders, ten (10) women's group leaders and ten (10) youth leaders (5 males and 5 females) per cluster.

In recruiting DTM enumerators for the data collection, gender was considered with a total of fifteen enumerators, including eight (8) males and seven (7) females, showing a 46 % female composition. Overall, from July 2021 to January 2022 both male and female travellers were 50 % as observed.

Additionally, the job referral program and awareness-raising with key messages on migration, return and reintegration under this project did not only cater for returnees (mostly youth returnees) but also their families and community members

Progress summary

Please limit your response to 3000 characters including spaces.

The NCM launch (Annex C: NCM) also included the Global Compact for Migration (GCM) prioritization exercise where the GoTG selected 15 priority objectives out of the GCM 23 objectives, to address in the short to mid-term. Under the overall guidance of the OVP as the lead for the NCM and technical lead of the Ministry of Foreign Affairs, International Cooperation and Gambians Abroad (MOFA), the first National Voluntary Review of The Gambia GCM implementation progress was finalized and published in April 2021 – and a second review meeting took place in February 2022 to review and update on progress of GCM implementation in The Gambia as part of the Government's preparation ahead of the International Migration Review Forum (IMRF) New York in May 2022

The project Enhanced access to MHPSS services for returnees and communities as the national MHPSS framework (Annex D) and a training curriculum (Annex E) on the MHPSS needs of migrants was developed. Office and printing supplies were provided to facilitate dissemination of the documents. Furthermore, the capacity of mental health practitioners has been strengthened with 725 (392 males, 333 females) health care workers from private and public hospitals trained to support covid response and MHPSS.

Through an IOM-driven initiative, and in coordination with the Department of Community Development (DCD), communities of high return and beneficiaries' needs were identified, in January 2021 for community-based reintegration. IOM took the lead to support partners and stakeholders in trainings to establish the CBR, however, concerns have emerged from the lack of sustainability of the approach used by other partners who only provided economic reintegration. In February 2022, Mbolo Association, an implementing partner for ITC's training of six (6) returnees on Tuk-tuk operation as part of the PBF project raised concerns about the way in which the returnees are being trained without support first in MHPSS and rehabilitation of their psychological state. To mitigate the concerns, IOM:1) delivered MHPSS training for ITC's CBR beneficiaries 2) organized a mini-information session for all partners on modalities of a holistic and sustainable reintegration on the importance of psychosocial support to ensure consistency, even so, some partners couldn't participate. In March 2022, the project handed over ten (10) community projects (Annex F).

To strengthen CSOs, the project partnered with Starfish International in Kiang Kwinella in the Lower River Region (LRR) and trained 35 community members (32 women and 3 men) including families affected by irregular migration and human trafficking, on soap making, tie and dye, batik and basic literacy. The referral platform (www.dol.gm) and staff emails set up for DoL created platforms for awareness of available opportunities in The Gambia, on top of media campaigns on QTV and GRTS. These are all demonstrations of the government's enhanced capacity to manage reintegration.

Indicate any additional analysis on how Gender Equality and Women's Empowerment and/or Youth Inclusion and Responsiveness has been ensured under this Outcome

Please limit your response to 1500 characters including spaces.

Gender mainstreaming was considered in implementing activities under this outcome. The MHPSS and Infection Prevention Control (IPC) trainings had 54 % male and 46% representations among health, protection, and frontline workers across the regions in the Gambia. The community-based livelihood interventions ensured gender mainstreaming and youth inclusion since the inception stage, by involving women and young returnees in the consultations for pre-identifying and validating projects alongside community members. The active involvement of Youth Against Irregular Migration (YAIM), a local non-governmental organization further ensured the inclusion of returnees in the consultation processes and the project implementation. Furthermore, the craft production training in Kiang had 91% female and 9% male trainees, promoting inclusiveness according to their peculiar needs.

Progress summary

Please limit your response to 3000 characters including spaces.

The formation of three Migrant Peer Support Groups (MPSGs) in three regions of high return gave returnees the chance to drive community-led initiatives as trainings provided improved their understanding of stress and coping mechanisms and also helped them build resilience through home visits, tie and dye-making, cooking competitions, visits to schools and shared their experiences, and awareness-raising on stigma and discrimination which have contributed to their sustainable reintegration.

The refurbishment and additional construction at Tanka-Tanka increased the facility's bed capacity from 100 to 150, has changed the ecosystem of MHPSS in The Gambia. The initiative aimed at enhancing the well-being of mental health patients and creating safe and dignified spaces that are in line with the international safety, security, and sanitary standards. Additional recreational items were also donated to facilitate psychosocial support activities and recovery. Furthermore, 60 personnel (male 36, female 24) from the facility were trained in February 2022, on facility management, MHPSS, Infection Prevention Control (IPC), and conflict/crisis management.

The Youth Centres in Bundung and Pakalinding were refurbished, and the Bundung centre hosted some activities in 2020 and 2021, mainly returnees and community members. Also, ten (10) coaches participated in an intensive fiveday ToT workshop in March 2021, that combined theoretical training about essential football-based life skills for employability and entrepreneurship using Life Skills Curriculum. Eight (8) of the coaches in the ToT workshop received additional resources to support the rollout of the employability and entrepreneurship program in KMC, WCR and NBR. The coaches have implemented a four-month Kick 4 Trade workshops using the Kick for Trade curriculum in their communities with 200 participants. Since the launch of the training, two refresher workshops have been held to support the eight coaches during the roll-out of their workshops.

The shared learning sessions in seven (7) regions have engaged over 5,500 community members including returnees, vulnerable young people, opinion leaders, family members, women leaders, chiefs, and religious leaders in intergenerational dialogues and enhanced understanding of reintegration and irregular migration and facilitated the engagements returnees in decision-making processes

A five-day bootcamp was held for 50 migrant returnees and the moonlight storytelling sessions with 510 participants created a safe space for migrants to share their stories, and be trained on irregular migration and reintegration, entrepreneurship skills, and peacebuilding and to benefit from psychosocial support, fostering social cohesion. The community surveillance and contact tracing initiative involved 80 young people including returnees sensitized community members including young people on COVID-19 and the signs shown in suspected cases.

Indicate any additional analysis on how Gender Equality and Women's Empowerment and/or Youth Inclusion and Responsiveness has been ensured under this Outcome

Please limit your response to 1500 characters including spaces.

Gender mainstreaming principles were strictly adhered to in the implementation of key activities under this outcome area. Overall, 60% of beneficiaries were females and 40% males. For instance, the mobile health outreach benefitted more females than males. The migrant peer support groups had 33.3% female and 66.7% male, and the photography training sessions had both male and female beneficiaries. Furthermore, shared learning sessions, moonlight storytelling sessions, and the community contact tracing and surveillance initiative featured young people including women and migrant returnees, empowering women and young people to participate in community initiatives

Please list monitoring activities undertaken in the reporting period *Please limit your response to 1000 characters including spaces.*

In November 2020 a joint monitoring visit with government and UN partners took place. Among sites visited were: Gamjobs RESTART project, Department of Labour, Bundung Youth Centre, beneficiaries of shared learning sessions (Kerr Sait Maram -CRR North), PBF outreach beneficiaries (URR).

As part of the project's regular monitoring exercises, in May 2021, a joint project monitoring involving the government, UN partners, and other partners took place. Among sites visited were: Bundung Youth Centre, MPSG URR, National Youth Council (GBA - Toll Free Line), Bundung Youth Centre, Shared Learning Sessions in CRR, Outreach clinic in NBR, and other locations.

In September 2021, another joint monitoring exercise was conducted. The monitoring team visited different project activity implementation sites.

Do outcome indicators have baselines?
If only some of the outcome indicators have baselines, select 'yes'
() yes
O no
Please provide a brief description
Please limit your response to 3000 characters including spaces.
All outcome indicators have baseline. The overall impact of the project is evaluated through the final project evaluation.
Has the project launched perception surveys or other community-based data collection?

yesno

Please provide a brief description

Please limit your response to 3000 characters including spaces.

A baseline survey was done during the first phase of the project. During the development of the research study under Outcome one (1), perception surveys were deployed which led to the development of the report. Likewise, a consultancy to determine knowledge, attitudes and practices (KAP) was launched and reports were made available. The study was designed to support the Risk Communication and Community Engagement (RCCE) efforts as well as to determine the effectiveness of all RCCE activities conducted under the project as part of COVID-19 reprogramming.

Other, Please describe
If relevant, please share a COVID-19 success story of this project (i.e. how adjustments of this project made a difference and contributed to a positive response to the pandemic/prevented tensions or violence related to the pandemic etc.) <i>Please limit your response to 3000 characters including spaces.</i> Currently, people living in rural areas can have access to vaccine doses and regular campaigns are organized by the regional health administrators as trained young people were essential and continued to sensitize their communities on the importance of vaccination whilst debunking false beliefs.
Are there any other issues concerning project implementation (related to COVID-19 or not) that you want to share, including any capacity needs of the recipient organizations? (1500 character limit) <i>Please limit your response to 3000 characters including spaces.</i> Despite supports provided to GoTG in key areas to address COVID-19, there is still a lot to be done to strengthen the system against any future pandemics. The community-based structures also need strengthening through other platforms, to continue to consolidate on the gains of the project.
 Final Steps Please save a pdf copy of the form by clicking on the <i>Printer</i> icon on the top right corner of the page. A dialogue box will appear: Please select the A4 size and portrait orientation. Click "prepare" and save the document as a PDF (if on first attempt, the generated page is not readable, close the pop up page and try again. If the problem persists, you can contact technical support at the email address below) Please upload the pdf version of the report as well as your financial report in excel format on the MPTF-O gateway. If you encounter any difficulty in filling the form or generating the print-out for MPTFO gateway, please contact Anupah Makoond <u>keshni.makoond@un.org</u>
Thank You. You have finished the report. Please Click on the SUBMIT button below. When the report is submitted, a confirmation note will appear on a yellow banner on top of the page. This can take a few seconds.
