1. BACKGROUND

The **UN Sri Lanka SDG multi-partner pooled (UNSLSDG)** fund instrument will support an ambitious agenda for working together to unlock progress towards the 2030 Agenda and the SDGs. The SDGs were endorsed by the government as a framework for national planning and the UNSDF 2018 to 2022, but progress has been constrained by several challenges, most recently by institutional and political uncertainties in the run-up to Presidential elections in November 2019. The new government that took office in November 2019 has endorsed the SDGs in its Vision and National Policy Framework for national development set out in December 2019. The full implementation of new policies and programmes is underway following the Parliamentary Elections in August 2020.

The UNSLSDG Fund includes three SDG based interventions that are fully aligned with the SDGs and UNSDF, to reduce inequalities and leave no one behind, by:

1. Sustaining peace interventions, including but not limited to those under the Joint Programme on Peace.
2. Enhancing resilience including through emergency preparedness and response capacity in a climate risk and disaster-prone country, and through more resilient social protection, economic, trade, business, and SME development; and
3. Enhancing evidence-based policy making and national planning, data analysis and monitoring, financial strategies and innovation to support the new governments' policy ambitions.

Experience to date shows that pooled funding mechanisms can improve coordination, coherence, and alignment; better manage risks; and promote transformative change. They help bridge the silos between humanitarian, peace and development agendas in a flexible design that can accommodate several windows and governance mechanisms while improving overall accountability for results and financial reporting. The UNCT wishes to take more advantage of this mechanism as part of its implementation of the reforms to the UN Development System.

The UNSLSDG Fund will complement UNCT core and non-core funding resources that are committed to the achievement of results under the UNSDF by providing for the last three years of the UNSDF a more concerted and focused approach to generating resources to support the key cross-cutting interventions of the UNCT. The Fund will target mobilization of but not be limited to un-earmarked resources from a wide range of partners including government, development partners and the private sector, in order to maximize the potential to deliver joint results in the context of a lower middle-income country.

2. OBJECTIVE OF THE FUND

The objective of the Fund is to support the achievement of results consistent with the current and any future UNSDCF. It supports coherent resource mobilization, allocation and disbursement to under-funded cross-sectoral areas where the UN has a comparative advantage in implementing together. The main focus of the Fund is the mobilization, financing coordination and co-financing of catalytic interventions in support of the SDGs. The Fund is overseen by a Steering Committee, chaired by the United Nations Resident Coordinator. The Steering Committee defines the priorities of the Fund, depending on needs related to the SDGs agenda.

A Secretariat will be established, to facilitate the management of the Fund, entailing the following main tasks: 1) Advise the Steering Committee and the Thematic Window Committees whenever on determining strategic priorities and programme/financial allocations; 2) Follow up the formulation and development of programmes/projects, providing feedback to proponent organizations in order to ensure consistency, quality and risk management, and supervising the application of Fund's cross-cutting approaches; 3) Organize or facilitate calls for proposals and appraisal processes; 4) Monitor the balance of funding between Windows and report to the Steering Committee; 5) Consolidate monitoring and evaluating information from approved programmes/projects, and periodically inform Fund stakeholders of progress in the implementation; 6) Carry out the Fund's knowledge analysis and management, including knowledge systematization, collection of good practices, lessons learned and proposed recommendations; 7) Support resource mobilization activities; and 8) fulfilling the secretariat function to the Steering Committee.

The Secretariat falls under the overall guidance of the United Nations Resident Coordinator and it sits in the RCO. **The funding for the programme will be facilitated via UNDP on behalf of the Office of the Resident Coordinator (RCO)**
