Please provide a brief description of any engagement that the project has had with the government over the last 6 months. Please indicate what level of government the project has been engaging with. *

SFCG engaged government authorities to get the official endorsement and permission to implement the project in collaboration with national partners. A Technical Agreement (TA) was signed between SFCG, Umserdiba Organization for Development, the Humanitarian Aid Commission (HAC) at the state level in South Kordofan, and The Ministry of Health and Social Development in South Kordofan. The TA signatures were initiated by the IP in March 2023, signed by SFCG in April 2023 after which the process was hindered due to the erupted conflict on the 15th of April, while it was resumed by the signature of the line ministry of september 25th, 2023 and it was signed by HAC state on October 1st, 2023.

Search started the Project by allocating internal staff, signing sub grants agreement with its partner in South Kordofan, signing a technical agreement with the Humanitarian Aid Commission at the state level (SK), and conducting the inception meeting with two of the project partners, Badya and Um Serdiba, and transferring the first tranche of funds to the former. The inception meeting with these two partners was held in Dilling, South Kordofan, during the last week of October 2023, and brought together Search staff, Badya, and Um Serdiba to discuss the project.
Search conducted a financial and programmatic capacity assessment for CAFA in Blue Nile, and unfortunately, CAFA didn't meet the necessary programmatic or financial standards to partner with Search on this project. As a result, Search proposed another partner to the PBF Secretariat in Sudan, Mubdeoon Organization for Development, Search's partner in Blue Nile for another project, which has displayed good financial and programmatic capacities. Search is also in discussions with Al Hareesat, whose team has fled to Uganda, but has been very active in supporting civil society women's engagement in the Sudanese peace process from there. SFCG is revising the contextual contribution of their scope of work to the project. SFCG is contacting the selected baseline consultant, Andariya Consultancy Group, to look at possibilities for collecting limited baseline data to inform the implementation of upcoming activities. Search is currently working on a proposed methodology, which we will be able to share with UNPBF in the coming month.

Summarize *the main structural, institutional or societal level change* the project has contributed to. This is not anecdotal evidence or a list of individual outputs, but a description of progress made toward the main purpose of the project where evidence of contribution to outcomes is available if requested *

PART II: RESULT PROGRESS BY PROJECT OUTCOME

Describe overall progress under each Outcome made during the reporting period (for June reports: January-June; for November reports: January-November; for final reports: full project duration).
Do not list individual activities. If the project is starting to make/has made a difference at the outcome level, provide specific evidence for the progress (quantitative and qualitative) and explain how it impacts the broader political and peacebuilding context.

- "On track" refers to the timely completion of outputs as indicated in the workplan.
- "On track with peacebuilding results" refers to higher-level changes in the conflict or peace factors that the project is meant to contribute to. These effects are more likely in mature projects than in newer ones.

The progress in this outcome encountered some delays due to the outbreak of conflict on April 15, 2023. The overall insecurity and movement difficulties were a challenge affecting the safety of Search staff and other stakeholders who might be part of the activities. Some modifications were considered to overcome those challenges- e.g. the change in target localities in West Kordofan due to access issues.

The budget for this outcome was charged because it is an activity based budget, so any expenses (incl. salary, office rent etc) need to be charged to an activity line. We agreed with our finance staff member that he could charge on the activities we have been starting/preparing, i.e. preparation for the media campaign (our social media engagement around the featuring of locally-led initiatives for peace) and for the dialogues there is preparation for their start in late November/early December.

Human Impact

This section is about the human impact of the project. Please state the number of key stakeholders (including but not limited to: Civil Society Organziations, Beneficiaries, etc.) of the project, and for each, please briefly describe:

i. The challenges/problem they faced prior to the project implemantation
ii. The impact of the project in their lives
iii. Provide, where possible, a quote or testimonial from a representative of each stakeholder group
This is an optional question. You may leave it unanswered if not relevant

PART IV: Monitoring, Evaluation and Compliance

» Monitoring

Please list monitoring activities undertaken in the reporting period *

Please limit your response to 350 words.

As explained under the preparatory activities above, Search is currently working with its selected baseline consultant, the Andariya Consultancy Group, to design a more limited, feasible baseline methodology that will enable us to collect some baseline data to inform the implementation of project activities. The insecurity within the project target location and the fact that the situation on the ground remains highly volatile, data collection and movement on the ground are very limited, some changes were proposed such as - due to the inaccessibility of Khartoum state- respondents who fit the demographic criteria located in Wad Madani, Al Gazira will be engaged to capture baseline values for the capital, despite that Gazira was not a target area at the beginning of the project.

Please limit your response to 350 words.

Sustainability

Does the project have an explicit exit strategy?

Please describe any steps that have been taken to ensure sustainability of peacebuilding gains beyond the duration of the project. *

Please limit your response to 350 words.

Sustainability is an integral feature of the project's design. Platforms and activities established or supported under this project have included sustainability mechanisms and Search, alongside our local partners, will ensure our initiatives and platforms are connected to existing women's networks, and women's organisations so that they have continued support after the project ends. The online platforms, which are inexpensive for local groups to sustain with limited inputs, will continue to connect women leaders to one another to share information and resources beyond the project's end. Similarly, the Women's Centers will be handed over to local partners and existing women's networks for ongoing management and support. At the same time, Search will provide technical support to identify funding opportunities to sustain these centres.

The project focuses on strengthening the organisational capacity of WLWSOs and building relationships among diverse stakeholders which will contribute to the sustainability of project outcomes. By providing WLWSOs and women leaders with key skills in grants management, fundraising, grant writing, and coalition building the project team will be able to hand over key activities (such as the CSO networks) to strong organisations to continue to lead them. WLWSOs and women leaders will be supported to formalise their registration with local government entities so that they can continue to pursue funding opportunities. Lastly, sustainability has been included in the project's aim to shift social norms and perceptions: as relationships are built among diverse stakeholders, women's empowerment and women's rights will be recognized as a collective community priority rather than solely a women's issue. Further, the tangible results and benefits from the women-led peace and livelihood initiatives, promoted through the dialogues and multimedia campaign, will support a shift in social norms and contribute to increased and sustainable multi-stakeholder support for women's inclusion in recognition of the benefits of their inclusion and empowerment.

Are there any other issues concerning project implementation that you want to share, including any capacity needs of the recipient organizations?

Please limit your response to 350 words.

It is worth sharing that SFCG decided not to partner with CAFA in Blue Nile following a detailed capacity assessment of the organisation, and its staff/functioning as well as relationships with Blue Nile authorities in the current war situation. Instead, we would like to propose the Mubdeoon Organization for Development as a partner in Blue Nile, with whom we've conducted a more satisfactory capacity assessment and have been partnering over the past year, with satisfaction.

To avoid the accessibility restriction in Greater Lagawa locality in West Kordofan, Badya Center for Integrated Development (one of the project IPs) will cover Alsunoot, Alfula, and Abuzabd localities in West Kordofan state as part of the project target areas. This modification was approved by PBF secretariat and the partner's subaward agreement was modified accordingly.
