*Please limit your response to 3000 characters*

**All preparatory activities including development and revision of concept notes/proposals and budget from potential implementing partners and contracting of implementing partners; signing of low value grant agreement, responsible party agreements and letter of agreements respectively are completed. Following the finalization and endorsement of agreements with implementing partners, UNDP and UNICEF have transferred all funds in line with respective agreements to the partners in tranches for the execution of approved activities. In partnership with representatives of MPAPA (former MPPA), the project ensured the monitoring of the activities carried out by the implementing partners. The project's baseline assessment was also concluded following engagement with relevant stakeholders in both agencies and the implementing partners at the national and district levels. The baseline facilitated the revision of some outcome and output indicators, which has been submitted. With regards to staffing, in line with the project document, payment remains effected for the following staffing configuration, who are already on board in both agencies: 1 CTA/PM P5 charged 50% to the project for 24 months (the other 50% is covered under the UNDP election project); 1 P3 from UNICEF (charged at 30%) for 24 months; and 1 NOC from UNICEF (charged 100%) for 24 months respectively.**

Describe overall progress under each Outcome made during the reporting period (for June reports: January-June; for November reports: January-November; for final reports: full project duration). Do not list individual activities. If the project is starting to make/has made a difference at the outcome level, provide specific evidence for the progress (quantitative and qualitative) and explain how it impacts the broader political and peacebuilding context.

Is the project on track for the timely completion of outputs as indicated in the workplan? *

## Project progress summary

*Please limit your response to 6000 characters*

Under outcome 1, UReport Ambassadors strengthens existing platforms for youth participation and feedback. The popularization of UReport platform witnessed additional registration of 71,018 U-Reporters, and increased number of adolescent responders, aged 15-19 years. A youth-driven third UReport on Peace and Social Cohesion which attracted over 3,600 Responders informed intergenerational dialogues and U-Report Community Radio Discussion Programmes across five districts. Consultations are ongoing with MPAPA for increased coordination with CSOs for the deployment of peace and social cohesion interventions.

Under outcome 2, iVerify continues to foster the mitigation of mis/disinformation across mainstream and social media through fact-checking and publication of verified content as requested by the public. The increased frequency of the initial weekly one-hour radio shows hosted by the Independent Radio Network (IRN) and broadcasted across 60 radio stations in the 16 districts of Sierra Leone publicizes verified content, empowers media literacy, and post-electoral education. Since operationalization in April 2023, a total of 354 stories (including 90 in 2024) have been verified, published and widely disseminated through iVerify's website, Facebook and X (twitter) accounts and radio weekly programmes with ongoing consultations for its sustainability beyond the project. Increased capacities of 60 people including fact-checkers, journalists, social media influencers and bloggers on digital media literacy contribute to mitigate mis/disinformation. The project also enhanced the technical and logistical capacities of Political Parties Regulation Commission (PPRC) for the operationalization of the 'Inter-Party Dialogue Framework' in line with Resolution 5 of the Agreement for National Unity, October 2023. Engagement of the Kofi Annan International Peacekeeping Training Center (KAIPTC)'s has strengthened advisory and technical skills of PPRC for the review of Inter-Party Dialogue Committee's ToR, and a capacity needs assessment informed the development of operational guidelines for the Inter-Party Dialogue as well as thematic mediation capacities of PPRC staff.

UNICEF-led capacity building programmes and intergenerational dialogues enhanced the skills of several stakeholders including 60 Youth Peace Ambassadors (32 males, 28 females) and 10 Youth Civil Society Organisations (YCSOs) on problem-solving, intergenerational dialogues, peacebuilding, life skills, leadership, and their roles as lifelong youth ambassadors. Across 30 communities, 2,161 parents capacitated on positive parenting; and 3,863 adolescents and youth (1,918 men,1,945 women) on life skills, community dialogues and awareness raising, an youth participation. Intergenerational dialogues engaged 7,896 people (4,269 men, 3,627 women) including 520 religious and community leaders and 95 people with disabilities, resulting in increased youth engagement, community leadership, and the development of sustainable mechanisms for conflict prevention and resolution. These initiatives have fostered development of plans of action, sustained sensitization of relevant groups, and the dialogues platforms have enabled communities to accommodate and collaborate diverse perspectives and priorities, promote peaceful coexistence, increase youth participation etc. Key priorities identified during the dialogues were disseminated through 170 radio discussion programs across 5 districts including outreach to non-target communities. Additionally, youth sensitization on political rights and against drug abuse increased capacities of 109 (20-24) in Makeni, 100 households in Lungi, fostered tackling of drug abuse in Tombo, appointment of a focal person to collaborate with the police in Lunsar, utilization of UReport data to develop actionable plans, and establishment of a committee to monitor substance-related and political conflicts in Largo respectively. In order to meet the project outcomes and targets, UNICEF incurred in an additional USD 51000 in expenditures for the intergenerational dialogue and awareness raising activities with young people. Although UNICEF committed a matching grant of USD 337000 to complement the PBF activities, it was still required to invest additional funds from PBF, reallocating funds from underspent activities.

Under outcome 3, the finalisation and signing of the Information Sharing Protocol (ISP) by the Technical Working Group (TWG) and the pilot organizations ensures ethical collection and sharing of GBV data to ensure the safety of survivors and data collection organizations. Provision of at least one essential GBV service to 409 SGBV cases (170 cases in 2024) including 82% cases against children since the launching of GBVIMS+ in May 2023 in Freetown, Bo and Kailahun. Road map developed to scale up the GBVIMS+ to the remaining 16 districts of the country. GBVIMS+ rollout has enhanced capacities of 7 facilitators for replication in new districts and 34 new case workers from existing user organizations (Commit and Act, Rainbo Initiative, MoGCA and MSW) on GBVIMS+; increased reporting of SGBV (47,339 including 17,749 in the reporting period) through the 116 Helpline; GBV case management of over 297 cases; information dissemination and counseling; improved coordination, reporting and referral by Ministry of Gender and Children's Affairs; and increased capacity of the government and civil society partners to respond to GBV cases. The upgraded Digital Referral Pathway (eRPW), which includes offline functionality has increased the efficiency of service providers to offer requisite support; with ongoing plans to enable ERPW accessibility through USSD. The government's dedication to expanding GBVMIS+ nationwide is clearly outlined in the country's Medium Term National Development Plan (MTNDP). MGCA has allocated funding for GBVIMS+ programming in its annual budgets and plans, demonstrating its commitment to sustaining the system.

**Despite the reduced team of iVerify, gender balance, and youth representation is maintained. U-Report youth Ambassadors (males and females) are promoting peace and raising awareness for upcoming UReport polls at various youth-centric locations such as schools, universities, and public spaces to recruit participants for the U-Report platform. Increased number of adolescent UReport responders aged 15-19 years, shows the growing interest in civic engagement amongst youth. The inclusion of Youth and adolescent from various backgrounds in intergenerational dialogues ensures that multiple perspectives are heard. Participation in the community and intergenerational dialogues is also strategically considered to include adolescents, young women and men.**

**FOR PROJECTS 1+ YEAR IN IMPLEMENTATION ONLY:**

Is the project demonstrating outcome-level peacebuilding results?   *

*Outcome-level peacebuilding results entail results achieved at the societal or structural level, including changed attitudes, behaviours or institutions.*

- ( ● ) Yes
- ( ○ ) No

If yes, please provide concrete examples of such peacebuilding results   *

**The signing of the 2023 electoral peace pledge signaled commitment by political actors and parties to promote peaceful elections. The goodwill eschewed by key political actors by the signing of the peace pledge and the Agreement for National Unity has largely contributed to peacebuilding efforts in the post-election period. For instance, despite the stalemate experienced during proceedings of the Cross-Party Committee on Electoral Systems and Processes Review, both parties committed to peace despite grievances upheld the Unity Agreement, and jointly issued a statement, encouraging their supporters and citizens to refrain from violence. Further, the culture of dialogue is increasingly utilised by parties to transform grievances, thereby contributing to behavorial and attitudinal changes in the use of non-violence approaches to address complaints.**

**Community and intergenerational dialogues on peaceful elections, positive parenting and life skills have empowered communities, youth and adolescents with required skills and mindset to foster social cohesion and peace especially within households and communities. In Tombo, youth-led efforts to address drug abuse initially faced challenges, as their independent actions were ineffective. Recognizing the need for broader community involvement, the youth requested a dialogue with local leaders. This meeting fostered consensus on how to tackle the issue collaboratively, underscoring the importance of dialogue in promoting cohesion and collective problem-solving. As a result, both youth and leaders are now more inclined to use dialogue as a tool to address sensitive community issues moving forward.**

If yes, please provide sources or references (including links) as evidence of peacebuilding results, or submit them as additional attachments.

*Evidence may be quantitative or qualitative but needs to demonstrate progress against outcome indicators in the project results framework. Sources may include project surveys (such as perception surveys), monitoring reports, government documents, or other knowledge products that have been developed by the project.*

# Human Impact

This section is about the human impact of the project. Please state the number of key stakeholders (including but not limited to: Civil Society Organziations, Beneficiaries, etc.) of the project, and for each, please briefly describe:

i. The challenges/problem they faced prior to the project implemantation
ii. The impact of the project in their lives
iii. Provide, where possible, a quote or testimonial from a representative of each stakeholder group
*This is an optional question. You may leave it unanswered if not relevant*

| Human Impact | Type of stakeholder | What has been the impact of the project on their lives? | Provide, where possible, a quote or testimonial from the stakeholder |
|---|---|---|---|
| 1 | | | |
| 2 | | | |
| 3 | | | |
| 4 | | | |

In addition to the stakeholder specific impact described above, please use this space to describe any additional human impact that the project has had.

**iVerify continues to provide a viable platform for citizens to verify pertinent information through submission of request on the website or facebook platform. Relevant stakeholders on specific subject matter are contacted by fact checkers to elicit accurate information, which are reviewed by coordinators before publication on the website and facebook pages. This has contributed to countering of fake news, misinformation and disinformation during the highly contested electoral process, and in the post-electoral landscape. UNICEF engaged with adolescents and youth for the development of visibility materials such as posters and card news that contributed to mobilizing young people for peace and social cohesion throughout the 2023 elections**

**UNICEF mobilised funding ($353,430) from Global Programme to End Child Marriage (GPECM) which is a joint programme of UNFPA-UNICEF across 12 countries to end child marriage. The resources from GPECM were used as co-funding to set up and roll out GBVIMS+ in the country, and capacity building of the workforce to effectively use the system to respond to GBV cases, focusing on electoral related violence. Furthermore, LAB developed the messages, jingles on elections and the directory with the contact numbers from LAB for legal support related to electoral and post-electoral violence, which was disseminated beyond the project districts. Similarly, FSUs were sensitised and trained to respond to electoral related violence beyond the project districts. Additionally, UNICEF contributed USD 337,003 from its regular resources to support intergenerational community dialogues with religious and traditional leaders and raise awareness on young people's election-related rights. These resource-intensive activities, focused on increasing youth participation, promoting peace, and reducing electoral violence, required additional funding as PBF resources were insufficient to meet the project's outcomes and targets.**

**UNDP mobilised USD 250,000 additional funds from its Core TRAC to complement the iVerify platform integration in the 2023 elections and USD 115,000 from its EU/Elections Project for the Early Warning Early Response (EWER) activities towards the establishment, customization and operationalization of the election EWER online portal, and trainings for data collectors on conflict monitoring. The Folke Bernadotte Academy also provided training for WANEP insider mediators on dialogue and mediation at no cost. Further, UNDP mobilized an additional USD 44,437 from Irish/Elections to support development of capacities and operational guidelines for the effective operationalization of the Inter-Party Dialogue Committee (Resolution 5) of Agreement for National Unity; and USD 79,925 from Irish/Elections to enhance the capacities of iVerify fact-checkers, journalists, social media influencers and bloggers on digital media literacy as part of concerted efforts to sustain countering of mis/disinformation.**

**For women, youth, insider mediators, political parties and public, MGCA, LAB, FSU on conflict monitoring, mediation and dialogue, sexual and gender-based violence, legal education, etc. Additionally, the capacities of communities were strengthened on adolescent and youth engagement, ensuring their participation in decision-making process including the development of community action plans for youth participation.**

**☐ Partnered with local/grassroots civil society organizations [please explain]**
**UNDP's key implementing partner – WANEP has an extensive network of civil society organisations across all districts, which were leveraged to support the early warning and response mechanisms. The partnership with Sierra Leone Association of Journalist (SLAJ), Independent Radio Network (IRN) and British Broadcasting Corporation (BBC) Media Action for the operationalization of iVerify also promoted engagements with CSOs. Also, UNICEF's CSO implementing partners – Focus 1000 and Defence for Children International (DCI) facilitated community dialogues and Positive Parenting Education Programmes focusing on peaceful civic engagement and youth participation in the electoral process. The new CSO partner – Restless Development, has trained 60 peace ambassadors in all 30 project communities to mobilize youth and amplify their voices, leveraging U-Report through radio programmes and intergenerational dialogue.**

## Who are we working with (in addition to the implementing partners) *

- ☐ Strengthened partnerships with IFIs
- ☑ Strengthened partnerships within UN Agencies
- ☑ Partnered with local civil society organizations
- ☐ Partnered with local academia
- ☐ Partnered with sub-national entities
- ☑ Partnered with national entities
- ☑ Partnered with local volunteers

## Please explain

*Please limit your response to 3000 characters*

**GBVIMS+ was launched jointly by UNICEF and UNFPA to further strengthen the partnership between the UN agencies under the PBF project. UNFPA and UN Women support the One Stop Centres in the country which are a critical service and referral mechanism to respond to GBV related cases during elections. All the four agencies (UNDP, UNICEF, UNFPA, UN Women) are also part of the Gender Theme Group which further strengthens the coordination between all of them focusing on Gender related issues including GBV, its prevention and response throughout the elections.**

Catalytic Effect (non-financial): Has the project enabled or created a larger or longer-term peacebuilding change to occur, in addition to the direct project changes? *

- ◉ Yes
- ◯ No

---

If yes, please select the relevant option below: *

- ◉ Some catalytic effect
- ◯ Significant catalytic effect

---

If relevant, please describe how the project has had a (non-financial) catalytic effect, i.e. removed barriers to unblock stalled political, institutional or other peacebuilding processes at different levels in a country, and/or created the conditions to establish new processes to do so *

*Please limit your response to 3000 characters.*

**The deployment of 2 UN SPC to ONS for 6 months contributed to enhancement of technical capacities on election security and early warning. FBA trainings to WANEP-NERG also enhanced their capacities on dialogue and mediation**

## Sustainability

Does the project have an explicit exit strategy?

---

Please describe any steps that have been taken to ensure the sustainability of peacebuilding gains, including any mechanisms, platforms, networks and socio-economic initiatives supported, beyond the duration of the project *

*Please limit your response to 3000 characters.*

**The ONS and WANEP Situation Rooms outlives the project, with data emanating from it serving as baseline for subsequent interventions, and utilized to monitor, report and respond to emerging political and election issues as well as complement the monitoring of broader threats to human security, peace, security and stability. The iVerify platform will also transcend the project and support efforts to counter misinformation, disinformation and hate speech in the country beyond the polls. Further, the DERG and NERG members shall continue to support community dialogue and cohesion processes. The GBVIMS+ institutionalisation within the Ministry of Gender and Children's Affairs will continue to ensure GBV cases are managed and responded to beyond the project. FSU and LAB capacities, strengthened by this project, will also outlive this PBF project as they are a part of the Government system that will continue to support vulnerable populations after the elections. The gains made through selection and engagement of youth peace ambassadors, life skills education for adolescents and positive parenting education in the communities will go a long way in building cohesion and trust leading to a sustained peaceful ecosystem.**

Are there any other issues concerning project implementation that you want to share, including any capacity needs of the recipient organizations?
