CSO promoted community-based crime prevention in border areas by establishing and strengthening local crime prevention committees and coordination mechanisms involving police, local authorities, and civil society. It supported implementation of the national Law on "Crime Prevention" and the "Safe Borders" Action Plan, conducted an analysis of prevalent crimes, and will next develop local prevention plans with co-financing from local budgets.

Please limit your response to 3000 characters

Over the reporting period, the active engagement with government counterparts at national, provincial, and local levels was engaged, strengthening institutional collaboration and alignment with national priorities for cooperation between Kyrgyzstan and Uzbekistan, migration management, and community-level peacebuilding.

At the national level, the project facilitated an agreement with the Ministry of Foreign Affairs of the Kyrgyz Republic on supporting the establishing of the monitoring centre of MFA to streamline the provision of consular services for citizens of the Kyrgyz Republic and foreign nationals, particularly in facilitating documentation, legal assistance, and protection mechanisms for migrants and cross-border traders.

Engagement with the Border Service under the State Committee for National Security of the Kyrgyz Republic advanced through a joint scoping mission to selected pilot Border Crossing Points, aimed at identifying needs and informing targeted interventions for safe, orderly, and gender-sensitive border management. It was also agreed to support the "Electronic Border" mobile application which contain valid information on working hours of BCPs, migrant-related topics such as visa regimes and cross-border labour mobility to enhance its functionality and relevance.

The project also established a new line of engagement with the Cabinet of Ministers, in response to Presidential Decree No. 164 (22 May 2025) regulating the legal status of migrants, foreign nationals, and stateless persons residing irregularly in Kyrgyzstan. In coordination with the Ministry of Labor, Social Protection and Migration it was agreed to develop and disseminate multilingual information materials in Uzbek and Kyrgyz, ensuring inclusive and accessible communication for affected migrant communities.

At the provincial and local level, the project closely collaborated with the Offices of the Plenipotentiary Representatives of the President in Osh, Jalal-Abad, and Batken provinces and Mayor's offices to coordinate implementation of activities under the regional "Road Maps", aligning local development and cooperation initiatives with broader peacebuilding objectives.

Finally, the project convened «Stakeholders coordination meeting with the National Partners» on 31 of October 2025 bringing together high-level government officials, civil society representatives, and other local partners to review progress and strengthen collaboration under the UN PBF. The meeting served as a platform to align efforts, share lessons, and jointly plan next steps to advance cross-border cooperation frameworks, and contributed to building an enabling environment for safe mobility, trade promotion, and community-level peacebuilding in Kyrgyzstan's southern border regions.

Over the reporting period the project established the required operational capacity to enable efficient and timely implementation. Staff recruitment has been completed across all recipient UN agencies, ensuring that the necessary programmatic and operational human resources are in place to support effective project implementation (Project coordinators, project associates, AFAs).

Since the actual project start three coordination meetings were convened among the implementing UN agencies to ensure coherent and aligned implementation resulting in elaboration of joint project working plan, establishing joint communications, monitoring and evaluation plans, finalized TOR for baseline and endline survey. The survey methodology has been developed and validated in consultation with partners, with field data collection scheduled to commence before the end of 2025. The baseline findings will serve to inform activity design, monitoring, and evaluation across all project components.

Call for Proposals for NGOs was announced to deliver capacity-building activities for local authorities and community leaders on case management and gender-sensitive service provision, particularly for women identified as vulnerable migrants or victims of trafficking, requiring tailored approaches for referral and identification. Overall, the project has completed the necessary preparatory and foundational activities, including recruitment, coordination, and research initiation, positioning it for full-scale implementation in early 2026.

Describe overall progress under each Outcome made during the reporting period (*for June reports: January-June; for November reports: January-December (anticipated); for final reports: full project duration*). Do not list individual activities. If the project is starting to make/has made a difference at the outcome level, provide specific evidence for the progress (quantitative and qualitative) and explain how it impacts the broader political and peacebuilding context.

Is the project on track for the timely completion of outputs as indicated in the workplan? *

Project progress summary

Please limit your response to 6000 characters

To strengthen cross-border cooperation between Kyrgyzstan and Uzbekistan, the project worked closely with provincial administrations in Osh, Jalal-Abad, and Batken to advance the implementation of the "Road Maps" aimed at interregional cooperation with Uzbekistan counterparts in the socio-economic, cultural-humanitarian areas. Implementation of the activities of the "Road Maps" serve as a locally owned mechanism for promoting dialogue, joint planning, and peaceful engagement between communities and institutions on both sides of the border.

Over the reporting period, the project supported national partners in organizing several high-level and community-level engagements to operationalize Road Maps and enhance people-to-people and institutional cooperation. The international tourism and cultural events "Yr Mayramy" in Batken and "Salam, Osh!" in Osh city created inclusive platforms for direct interaction among border communities from Kyrgyzstan, Uzbekistan, and Tajikistan. Beyond their cultural value, these gatherings encouraged cross-border dialogue around shared concerns such as cross border mobility, tourism development, and local livelihoods. Participants noted that such exchanges reduced stereotypes, increased trust, and demonstrated that cooperation in culture and tourism can help mitigate tensions and address economic marginalization, one of the key conflict drivers in the region.

The "Cooperation and Traditions" Festival in Aydarken (Batken province) and the "Dostuk Festival" in Ala-Buka (Jalal-Abad province) further deepened cross-border social cohesion. Together, they engaged more than 400 participants, including representatives of local governments, youth councils, artisans, and civic activists, alongside a large official delegation from neighbouring provinces in Uzbekistan. The Aydarken festival resulted in the signing of a Memorandum of Cooperation between Kyrgyz and Uzbek partners in tourism, culture and educational exchanges, youth initiatives, an example of how local initiatives can evolve into formal, durable cross-border partnerships that extend beyond the project's lifespan.

The Jalal-Abad Regional Investment Council (RICs), served as a structured dialogue platform between local authorities, the private sector. RICs serves as an institutionalized platform for private businesses to discuss and solve grievances followed by informed policy, regulatory level solutions. It provided a safe environment to discuss practical measures for attracting investment and fostering regional economic cooperation, reinforcing trust between the state and local entrepreneurs. International Forum on Cooperation Development, Cross-Border Trade, and Investment Interaction "Manas Expo – 2025" resulted in concluding 4 business to business agreements between Kyrgyzstan and Uzbekistan. Both event's inclusive format encouraged greater participation of women-led and youth-led enterprises, promoting their role as drivers of peaceful economic transformation.

To link social dialogue with real economic opportunities, the project helped over 30 entrepreneurs from Kyrgyzstan gain hands-on skills in export marketing, international negotiations, and trade procedures. Many participants said the training gave them the confidence to approach new markets and partners in Uzbekistan. Later, during a business tour to Tashkent, Kyrgyz entrepreneurs met their Uzbek peers in the e-commerce and digital sectors, exchanged practical experience, and identified joint business ideas. The visit concluded with the signing of two Memoranda of Cooperation between e-commerce and fintech associations, contributing to lasting professional ties and opening new channels for cross-border trade and collaboration.

A joint assessment with State Border Service across eight border crossing points identified urgent needs for surveillance systems aimed at protecting both security and human rights. This collaborative process itself built trust as border staff began to see local residents as partners in safety, while communities gained a better understanding of how transparency and accountability work in practice.

The identification of sites for "Mother and Child" rooms at Kadamjay and Ak-Kyia crossings marked a simple but powerful step toward dignity, safety, and inclusivity for women and families who often face long waits in difficult conditions.

To make border experiences more predictable, the State Border Services agreed to launch development of the "Electronic Border" mobile app aimed at easing congestion at border crossing points by allowing travellers to plan their journeys in advance and choose the most convenient time to cross. By giving people access to accurate, real-time information, the app will empower them to make informed decisions and reduce unnecessary pressure on border staff, creating a smoother, more predictable, and less stressful experience for everyone. A prototype version of the application, developed in September 2025, is accessible at: https://kgborder-mlp-ver1-685222267602.us-west1.run.app

By combining cultural engagement, economic cooperation, and institutional dialogue, border communities, local businesses and state actors were enabled to work collaboratively to manage shared challenges. The initiatives implemented under the cross-border "Road Maps" have encouraged peaceful socio-cultural interaction and established practical mechanisms for continued economic cooperation with Uzbekistan counterparts laying the foundation for a more resilient, connected, and peaceful border region.

Indicate any additional analysis on how Gender Equality and Women's Empowerment and/or Youth Inclusion and Responsiveness has been ensured by the project to date *

Please limit your response to 3000 characters

Over the reporting period the project ensures gender equality, women's empowerment (GEWE), and youth inclusion by mainstreaming these priorities in needs assessments and baseline perception surveys, ensuring that project activities address differentiated needs, barriers, and priorities of women, men, and young people in border communities. For instance, the project addressed the specific needs of young women by identifying checkpoints for the establishment of "Mother and Child Rooms" and by developing the "Electronic Border" mobile application to help women and children avoid long waiting hours at the border.
At the policy level, the Ministry of Interior Affairs of the Kyrgyz Republic was supported in the development of the National Action Plan for the implementation of UNSCR 1325 on Women, Peace and Security (2025–2027).

Is the project 1+ year in implementation? *

○ Yes

◉ No

FOR PROJECTS 1+ YEAR IN IMPLEMENTATION ONLY:

Is the project demonstrating outcome-level peacebuilding results? *

Outcome-level peacebuilding results entail results achieved at the societal or structural level, including changed attitudes, behaviours or institutions.

○ Yes

○ No

If yes, please provide concrete examples of such peacebuilding results *

Please limit your response to 6000 characters

If yes, please provide sources or references (including links) as evidence of peacebuilding results, or submit them as additional attachments.

Evidence may be quantitative or qualitative but needs to demonstrate progress against outcome indicators in the project results framework. Sources may include project surveys (such as perception surveys), monitoring reports, government documents, or other knowledge products that have been developed by the project.

PART IV: Monitoring, Evaluation and Compliance

» Monitoring

Please list key monitoring activities undertaken in the reporting period *

Please limit your response to 3000 characters.

Erfolg Consult LLC is hired to provide Baseline/Endline research. A baseline Terms of Reference (ToR) has been developed, focusing on measuring social cohesion and institutional trust in border areas of Kyrgyzstan, and integrating Strategic Results Framework (SRF) indicators—specifically, the proportion of people reporting increased trust in communities and migrants across the border (SRF Indicator 3a1), as well as confidence in the performance of formal and informal local institutions in preventing and mitigating conflicts (SRF Indicators 3c and 3d), with all data disaggregated by age and gender. The ToR also includes sub-indicators to distinguish levels of trust in migrants and to separately assess confidence in formal and informal local institutions, enabling a more nuanced understanding of community dynamics.

Do outcome indicators have baselines? *

If only some of the outcome indicators have baselines, select 'yes'

◯ Yes

🔘 No

If yes, please provide a brief description. If not, explain why not and when they will be available. *

"Erfolg consult LLC" is hired. Methodology is developed. Baseline data will be collected In December 2025.

Has the project used or established community feedback mechanisms? *

Community feedback mechanism, or community-based monitoring, is an organized system for communities of participants to monitor the local effects and impact of an intervention. Ideally, this system empowers the community to express whether their expectations are being met and to provide suggestions to decision-makers for possible (re)focusing. See PBF Guidance Note for more information. link

The project has taken concrete steps to ensure the sustainability of peacebuilding gains by strengthening local ownership and fostering durable cross-border and inter-community networks that will remain active beyond the project's duration.

At the institutional level, cooperation with the Plenipotentiary Representatives of the President in Osh, Jalal-Abad, and Batken provinces, as well as with regional authorities in Andijan, Namangan, and Fergana (Uzbekistan), has led to the operationalization of the Regional "Road Maps"—frameworks that translate peacebuilding priorities into actionable, government-owned plans until 2027. These mechanisms ensure the continuation of structured dialogue, joint planning, and cross-border coordination after the project ends.

In the border management domain, collaboration with the State Border Service on introducing video surveillance systems, constructing "Mother and Child" rooms, and developing the "Electronic Border" mobile application has laid the foundation for transparent, gender-sensitive, and rights-based border governance. These interventions are institutionalized within government systems, ensuring sustainability through state ownership, budgetary integration, and alignment with national security and migration strategies.

Are there any other issues concerning project implementation that you want to share, including any capacity needs of the recipient organizations?
