1. Introduction

In December 2006, the United Nations Development Programme (UNDP) and the Government of the Kingdom of Spain signed a landmark agreement to direct US\$710 million (EUR 529 million) through the UN, towards key Millennium Development Goals (MDGs) in selected thematic areas and countries. These funds were supplemented by an additional US\$117 million (EUR 90 million) in contributions from the Government of Spain in December 2008, amounting to a total of US\$827 million (EUR 618 million). From this, ultimately US\$684¹ million were approved and transferred to 130 joint programmes in 50 countries (Annex 1). The remainder was allocated in support of One UN pilot funds and selected UN agencies, as well as the MDG-F Secretariat.

As envisaged, all 130 joint programmes completed operations by 30 June 2013, and the report issued in June 2014 presented the final narrative progress report. This consolidated financial report therefore focusses on the progress made towards the financial closure of the MDG-F. As of May 2018, nearly all refunds have been received and only 9 of 634 certified final financial reports are pending completion or adjustment from 2 agencies.

2. Financial Closure

As outlined in the MOU signed by all 27 Participating Organizations (POs), the financial closure of the MDG-F follows the standard UNDG procedures for closing a Multi-donor Trust Fund. As a first step, all the Participating Organizations need to close the agency-specific budgets following their respective regulations, rules, policies and procedures. Only when the first step is completed, can the MPTF Office as Administrative Agent proceed with step two, which is financial closure of the Fund.

While the POs work together in 130 joint programmes, they each have their own distinct financial reporting lines. Therefore the 130 MDGF joint programmes translate into 634 agency-specific budgets for which certified final financial reports must be submitted. This part of the financial closing process involves receiving refunds, receiving certified final financial reports from the POs' Headquarters, and reconciling the information with that of the MPTF Office.

Efforts to improve project closures

In 2017 and 2018 the MPTF Office continued to intensify efforts to ensure that final financial reports would be submitted in a timely manner, in an effort to expedite fund closure, and took additional actions to financially close projects.

It has invested a substantial amount of resources on improving project and Fund closure rates through eliminating non-essential requirements, streamlining processes and strengthening its advocacy efforts with UN agencies. To expedite financial closure, the MPTF Office has introduced a single certification for final project financial reports by UN agencies (an agency can certify all final reports for project closure at the same time with one signature), which has substantially improved UN Agency's reporting rates. All UN agencies have welcomed and embraced this change with the exception of UNDP which has declined to adopt this approach.

¹ Initially, US\$699 million were approved for the joint programmes. In September 2012, the Steering Committee decided that selected non-performing joint programmes would not receive the full amount approved. These were Algeria/Gender, Afghanistan/Conflict, Brazil/Conflict, Mali/Nutrition, Panama/Private Sector, Mauritania/Culture and Ecuador/Youth.

In addition the MPTFO has also performed extensive advocacy efforts at multiple levels to improve UN agencies closure rates. These include: outreach to the UNDG oversight body for pooled funds, FMOG; increased bi-lateral discussions and the provision of tailored information on outstanding actions.

As of the issuance of this report, only 6 of the 634 agency specific budgets showed balances (either additional expenditures to report or refund, or an over-expenditure). The total amount potentially due to be refunded is US\$32,776.² Table 1 provides information on the joint programme, PO and amount to be reported/adjusted.

Total amount outstanding (Morocco, Peru, Angola, Mali)							32,776
Total amount reported as over expenditure (Nicaragua, Palestine)							(76,265)

A total of US\$14.3 million had been received as refunds from Participating Organizations (POs). This represents 2 percent of the US\$684 million that was transferred to the Joint Programmes, resulting in an overall delivery rate of 98 percent of the amount transferred by the MDGF. To date, the MPTF Office has received 99.5 percent of the required certified final financial reports with only 3 of the 634 reports outstanding.

Further, for the purposes of limiting transaction costs, the MPTF Office no longer requires a refund of a PO balance on a project where the total refund due is US\$250 or less. Similarly, since the POs cannot claim any additional funds for over-expenditures, the MPTF Office will accept final financial reports with an over-expenditure of US\$ 250 or less.

As of 31 May 2018, certified final financial statements are still outstanding for the 2 POs listed below. The MPTF Office will continue to proactively engage with these POs to expedite financial closure. Once the financial reports are received, they are reviewed to ensure that the indirect support costs are correct, there are no over-expenditures or there are no refunds to be submitted. Given the length of time from the operational closure of the fund, the MPTF Office has taken additional and exceptional measures to close projects that represent small to no financial risk to the MDGF in closing them.

²Two agency budgets reported over-expenditures of US\$ 76,265. Since additional amounts will not be transferred from the MDGF, these amounts will be adjusted, leaving a net balance of US\$32,766 for the four agency budgets that still had expenditures pending reporting or refund.

³Although Participating Organizations (POs) worked together under the Joint Programme (JP) modality, every PO had to open an individual financial budget to manage the funds transferred for each of the JPs.

⁴This item will be resolved by processing of a write-off by FAO.

Only 9 of the 130 joint programmes were still awaiting certified financial statements from all the POs involved in the joint programme. In other words, overall, 121 of 130 Joint Programmes, or 93 percent of the Joint Programmes are financially closed. The remaining project will be closed as soon as the certified financial statements are received and adjustments are made.

5. EXPENDITURE AND FINANCIAL DELIVERY RATES

All final expenditures reported up to 31 May 2018 were submitted by the Headquarters of the Participating Organizations. These were consolidated by the MPTF Office.

As shown in table below, the cumulative net funded amount is US\$ **669,201,964** and cumulative expenditures reported by the Participating Organizations amount to US\$ **669,245,453**. The remaining amounts will be reported when all Participating Organizations submit final financial reports. Of the amount initially transferred, to date, 98 percent have been reported as expenditure.

5.1 EXPENDITURE REPORTED BY CATEGORY

Project expenditures are incurred and monitored by each Participating Organization and are reported as per the agreed categories for inter-agency harmonized reporting. In 2006 the UN Development Group (UNDG) established six categories against which UN entities must report inter-agency project expenditures. Effective 1 January 2012, the UN Chief Executive Board (CEB) modified these categories as a result of IPSAS adoption to comprise eight categories. All expenditure incurred prior to 1 January 2012 have been reported in the old categories; post 1 January 2012 all expenditure are reported in the new eight categories. The old and new categories are noted to the right.

Table 8 reflects expenditure reported in the UNDG expense categories. Where the Fund has been operational pre and post 1 January 2012, the expenditures are reported using both categories.

6. COST RECOVERY

Cost recovery policies for the Fund are guided by the applicable provisions of the Terms of Reference, the MOU concluded between the Administrative Agent and Participating Organizations, and the SAAs concluded between the Administrative Agent and Contributors, based on rates approved by UNDG.

The policies in place, as of 31 May 2018, were as follows:

- **The Administrative Agent (AA) fee:** 1% is charged at the time of contributor deposit and covers services provided on that contribution for the entire duration of the Fund. Cumulatively, as of 31 May 2018, US\$ **6,988,069** has been charged in AA-fees.
- **Indirect Costs of Participating Organizations:** Participating Organizations may charge 7% indirect costs. In the current reporting period US\$ **(245,312)** was adjusted in indirect costs by Participating Organizations. Cumulatively, indirect costs amount to US\$ **43,331,426** as of 31 May 2018.

7. ACCOUNTABILITY AND TRANSPARENCY

In order to effectively provide fund administration services and facilitate monitoring and reporting to the UN system and its partners, the MPTF Office has developed a public website, the MPTF Office Gateway (<http://mptf.undp.org>). Refreshed in real time every two hours from an internal enterprise resource planning system, the MPTF Office Gateway has become a standard setter for providing transparent and accountable trust fund administration services.

The Gateway provides financial information including: contributor commitments and deposits, approved programme budgets, transfers to and expenditures reported by Participating Organizations, interest income and other expenses. In addition, the Gateway provides an overview of the MPTF Office portfolio and extensive information on individual Funds, including their purpose, governance structure and key documents. By providing easy access to the growing number of narrative and financial reports, as well as related project documents, the Gateway collects and preserves important institutional knowledge and facilitates knowledge sharing and management among UN Organizations and their development partners, thereby contributing to UN coherence and development effectiveness.

8. DIRECT COSTS

The Fund governance mechanism may approve an allocation to a Participating Organization to cover costs associated with Secretariat services and overall coordination, as well as Fund level reviews and evaluations. There were no direct costs charged to the Fund.
