## SITUATION UPDATE

Changes in the context since the beginning of 2017 have brought into sharp focus the value of the Joint Programme on Enablers as an instrument to coordinate, fund and deploy enabling services that allow the UN and its partners to deliver their respective mandates.

The Enablers Programme continued to lend significant support to system-wide priorities, such as the finalization of the UN Strategic Framework (UNSF), risk management support to drought response through accelerating partner selection by increased information sharing, due diligence and tailored risk assessments, the facilitation of a coordinated UN support to the development of Somaliland's NDP, and continued provision of security advice to the International Community, particularly in support of enabling greater response to famine prevention.

The Enablers Programme also raised extensive attention to gender equality and the empowerment of women in the electoral process due to the 30% agenda and supported greater attention to gender issues in the NDP. Through UN Women, the Enablers Programme has also raised greater awareness and created a more conducive environment across the UNCT and UNSOM on the need for accountability on addressing gender issues.

The UNDSS component of the Enablers Programme has been underfunded since its inception. At the end of the reporting period, considering solely the MPTF programmes' funded activities under the five outputs, the budget deficit was already \$23,942 dollars. If the entire expenditure vs. funding received by UNDSS is taken into account, this amounts to a deficit of \$1,073,562 dollars as of 30 June 2017. If no additional funding is secured in the short run, some essential services – such as the MERT - will be discontinued.

#### **QUARTERLY & ANNUAL PROGRESS REPORT RESULTS MATRIX**

#### **OUTCOME STATEMENT**

Coordinated, transparent and safe delivery of International assistance throughout Somalia.

#### SUB-OUTCOME 1 STATEMENT

n/a

**UNDSS** 

Output 1: Security Aircraft capacity maintained

 $<sup>^{1}\</sup>underline{\text{Uncertified expenditures}}. \text{ Certified annual expenditures can be found in the Annual Financial Report of MPTF}\\ \text{Office ($\underline{\text{http://mptf.undp.org/factsheet/fund/4SO00}$}$)}$ 

<sup>&</sup>lt;sup>2</sup> The negative figure results from expenditure reversals from the MPTF funds to the non-MPTF funds – some payments were charged under MPTF funds as they were pending a decision with UNDP and were later on reversed.

|  |   | PROGRESS ON OUTPUT IN   | DICATOR <sup>3</sup>  |
|--|---|---|---|
| INDICATOR  | TARGET  | THIS QUARTER  | CUMULATIVE<br>2017  |
| Security aircraft is able to respond to urgent security needs or to assess newly recovered areas | 2017: Capacity<br>maintained  | Security Assessment Missions conducted and four Crews readily available.  | Operational capacity of Security Aircraft maintained and Crew strategically accommodated in MIA for immediate response.                       |
| Output 2: Medical Emerg  | ency Response Team cap  | L<br>acitated   |   |
| # of teams providing<br>MERT coverage in<br>Somalia  | 5 MERT teams operational  | MERT teams reinforced with two stand-by medical nurses and rotated to full capacity gaps in all five locations.   | MERT teams fully operational, team capacity reinforced and gaps sealed by deploying two stand-by nurses to Bossaso and Dollow.                |
| Output 3: Enhanced prot  | ected security  | Baba in an interiocations.  | naises to Bessuse and Benefit   |
| Armored vehicles available to enable transport of staff  | 2017: 3-6 vehicles are replaced with new armored vehicles   | (10) Armored vehicles maintained in operational condition, supporting humanitarian missions within the quarter.   | (10) armored vehicles maintained and the fleet Maintained in functional order since January 2017.   |
| Output 4: Airport road se  | curity (NISA project)   |   |   |
| Airport road security  | 2017: NISA security apparatus on airport road maintained  | NISA security apparatus on airport road maintained and paid up during reporting period.   | NISA security apparatus on airport road maintained and paid up from January through June 2017.  |
| Output 5: Surge capacity   | provided to support the o   | drought response  |   |
| No. of Surge Officers<br>brought on board  | 2017: Reinforced<br>Security in South<br>Central (Dollow)   | Enhanced security operations in Dollow over reporting period, through the use of Surge Officer (FSCO)   | Since March to June 2017, Surge capacity in Dollow has been reinforced in security matters, enabling vital UNDSS and humanitarian operations. |
|  |   | RCO   |   |
| Output 1: Ensure the effective increased volume of funds through the UN MPTF                     | For 2017: 10 Joint Programmes funded by the UNMPTF; \$100 million capitalization; 35% of UN development funding through the UN MPTF | the ISF & New Deal Somali Compace Zero (0) Joint Programmes developed and endorsed in Q2 as SDRF met for the first time in 2017 and focused on drought response and new aid architecture; \$13.1 million additional donor resources | the UN MPTF; \$205,035,321 million committed; approx. 33% of UN development funding through the UN MPTF (Aid Flow Analysis)                   |

#### **NARRATIVE**

#### **UNDSS**

With UN MPTF support, UNDSS was able to maintain Medical Emergency Response Teams over the reporting period in Garowe, Hargeisa, Galkayo, Bossaso and Dollow, enabling UN agencies and international staff to operate in these locations. A surge Officer in Dollow has especially reinforced the capacity of DSS to deliver on its crucial mandate. Two MERT Nurses, which are on stand-by, have reinforced the capacity of the existing team by filling gaps in locations where other MERT nurses are on leave or R&R. This has allowed DSS to keep adequate staff capacity in the five MERT centres. This also ensured no gaps in operational capacity of medical teams. Payments for the Airport Road security arrangements (through NISA logistics and stipends) were promptly made, covering April through June 2017.

#### **RCO**

During the reporting period, the RCO finalized the drafting of the UN Strategic Framework (UNSF), which will inform the UN's strategic priorities, including the UNSOM mandate, and its posture over the next few years. The framework articulates the UN's contribution, division of labour, commitments and funding needs in support of Somalia's political, security and socio-economic priorities (framed under the NDP), and is based on five strategic priorities. Upon signing and finalization of the UNSF at the next SDRF on 26 July, the RCO will share outreach products to inform partners and stakeholders about the UNSF, its structure and impact – an initiative that is already ongoing internally, to inform all UN Somalia staff about the meaning and impact of the UNSF.

The RCO (with the UNSOM New Deal team) continued to provide support to the SDRF meetings in Mogadishu and provided policy and technical assistance, together with World Bank and UNDP, to MoPIED, the Office of the DPM and the ACU on development of a revised aid architecture aligned to the NDP. The RCO also supported the UK and FGS in preparations and execution of the London Conference, primarily through support on the development of the New Partnership for Somalia and the London Communique.

The RCO also continued to support the implementation of its CRESTA/A programmes, funded by the PBF and approved by the SDRF in November 2016.

In Somaliland, the RCO continued to support the Ministry of National Planning and Development on ensuring a coordinated UN support to development of Somaliland's 2<sup>nd</sup> National Development Plan, which will be launched in late July. In Somaliland, the RCO also worked together with OCHA and the NGO Consortium to improve overall coordination of drought response efforts, particularly concerning improvements of government/UN/NGO relations and information sharing and overall UN communications. The RCO loaned its Communications Officer to OCHA for a period of six weeks, in support of public information and increasing visibility and awareness around the drought situation and response.

Finally, the RCO continued to perform its MPTF Secretariat functions, with the release of the Q1 report, the Newsletter, and the convening of the quarterly donor briefings.

#### RMU

During the reporting period, the RMU has continued to provide support to UN agencies engaged in the drought response through accelerated due diligence. In addition, a number of risk assessments and risk analyses were conducted during the reporting period.

The RMU has completed the selection of the database of relationships and mapping tools in CIMS (its Contractor Information Management System database) for increased due diligence functionality.

As part of the review of, and response to the Transparency International report, the UN, the Federal Government of Somalia, the NGO Consortium and donors commissioned an assessment of the impact and effectiveness of the collective risk management systems established since 2011. The overall aim of this assessment is to assess advances made so far through these collective risk management practices, identify challenges in implementing collective risk management solutions, determine outstanding gaps that may allow for corruption to take place, and to provide recommendations to address such gaps.

Finally, the RMU, with the World Bank, Sweden, DFID, EC and the Aid Coordination Unit continued to monitor risks to the SDRF and to implement treatment measures. The RMU also worked with several of the MPTF Joint Programmes to strengthen their own risk management procedures and approaches, and initiated the assessment of the Joint Risk Management Strategy (JRMS) for the SDRF funds, which is expected to be completed during Q4. The results of the assessment will be presented to the Risk Management Working Group and the SDRF in July.

## **UN Women**

During the reporting period, staff engaged in strategic monitoring work and delivered a sharp and concise chapter on gender in the NDP including targets and milestones. This work included extensive lobbying and negotiations with the Ministry of Planning and the Ministry of Women and Human Rights Development to agree on specific texts. In addition, three gender-specific indicators for monitoring investment on gender issues for all joint programmes have been included to the MPTF reporting template.

UN Women financed, led and coordinated the work of the Gender Theme Group to complete the UN Gender Strategy. This strategy is unique in its kind by not addressing thematic areas but rather serving as an accountability framework for

UN AFPs and UNSOM to respond to the NDP and the UN Strategic Framework (UNSF). UN Women has also finalized negotiations of an agreement with the Aid Coordination Unit to develop a strategy for ensuring that pipelined projects for MPTF address gender and adhere to the 15% funding target.

The second stage of the research on women's access to justice and security has started, and will be co-funded by the Joint Programme on Enablers given one of its outputs will be to provide background material for the next HLPF. The work initiated under the Joint Programme early in the year on this research led to the endorsement by the FGS and the donor community of increased focus on Women, Peace and Security. This is now reflected in the NDP. More targeted analytical work on women and violent extremism will be advertised during Q3, looking at it in a regional perspective. Furthermore, two pieces of analytical work on Female Genital Mutilation were initiated, which will also form background for the work on human rights, women and security agenda.

Recruitment for the State of Somali Women and Men option paper was further delayed due to challenges of recruiting qualified analysts (3 unsuccessful rounds). However, a candidate has been identified, allowing the work to start during Q3.

## **Other Key Achievements**

## Challenges (incl: Delays or Deviations) and Lessons Learnt:

#### General

While the Joint Programme on Enablers has received generous funding from donors through the MPTF and beyond, the value and actual costs of enabling services remain insufficiently understood by a number of actors. The Joint Programme will intensify its efforts to communicate the outputs and the impact of its services in allowing UNSOM, the UNCT and partners to operate in a safe, coherent and risk informed manner. As a result, the research efforts of the 'Cost of Doing Business' initiative, which was conducted last year, will be renewed, and additional research based on interest identified through donor feedback will feature in the updated research, which will be conducted in Q3.

#### **UNDSS**

The UNDSS component of the Enablers Programme has been underfunded since its inception. At the end of the reporting period, considering solely the MPTF programmes' funded activities under the five outputs, the budget deficit was already \$23,942 dollars. If the entire expenditure vs. funding received by UNDSS is taken into account, this amounts to a deficit of \$1,073,562 dollars as of 30 June 2017. If no additional funding is secured in the short run, some essential services – such as the MERT - will be discontinued.

#### **UN Women**

The focus is expanding as the Joint Programme proves to be an important vehicle to drive strategic and analytical work and allows UN Women to play a value-added role across UN interventions, and also help strengthen UN Women's programming. Going forward, the Programme will fund all UN Women strategic initiatives. The Enablers Programme can be seen as a good practice that could be replicated in other countries as a way to mainstream gender across the system.

**Peacebuilding impact**: N/A

Catalytic effects: N/A

## Gender

The UN Women component of JP specifically addressed gender equality and has been mainstreaming gender in the work of the UN through coordination, analytical work, high-level advocacy and strategic monitoring across the UN and guiding development instruments (UNSF, NDP). This has been acknowledged as a very useful approach to address gender issues comprehensively, across the whole spectrum of structures, without them being confined to specific thematic areas (such

as violence against women, or women's political empowerment), and thus increasing accountability for gender throughout the work of the UN in the country.

| Proportion of gender specific   | Total no. of Outputs | Total no. of gender specific<br>Outputs                  |  |  |
|---|----------------------|--|--|--|
| outputs in Joint Programme <sup>7</sup>                               | 5                    | 5  |  |  |
| Proportion of Joint Programme<br>staff with responsibility for gender | Total no. of Staff   | Total no. of staff with responsibility for gender issues |  |  |
| issues (as of end of 2016) <sup>8</sup>                               | 1                    | 1  |  |  |

#### **Human Rights**

The RCO led on the drafting of the new UN Strategic Framework, which includes Human Rights as one of three crosscutting issues, besides Gender Equality & Women's Empowerment and Youth Engagement & Empowerment. Furthermore, Human Rights is prominently featured in the Strategic Priority 2 'Strengthening accountability and supporting institutions that protect'.

Finally, the RCO continued to support development of a new joint programme on Human Rights, which will be approved by the SDRF in Q3.

UN Women's analytical work on women's access to justice and security, and on FGM will provide important insight into gender-related protection issues and will inform future UN interventions to ensure protection needs of women and girls are appropriately addressed.

| Has the Joint Programme included a protection risk assessment in its context analysis, including   | Result (Yes/No) |  |
|--|-----------------|--|

## **Support to Drought Response**

The RMU mobilised most of it resources to support the drought response. The focus was mainly on accelerating partner selection by increased information sharing, due diligence support and tailored risk assessments. There were focused trainings on how to use tools such as CIMS to rapidly share information, capacity assessments, and report issues to support partner selection.

The RCO Communication & Research Officer supported OCHA on surge for six weeks on public information and raising awareness on the drought situation and visibility on the humanitarian community's response.

In Somaliland, the RCO undertook a lead role (together with OCHA) on coordination of the drought response, with a particular focus on enhancing coordination, information sharing and overall relations with government national drought

<sup>&</sup>lt;sup>7</sup> Gender Specific Outputs are those that are specifically designed to directly and explicitly contribute to the promotion of Gender Equality and Women's Empowerment.

<sup>&</sup>lt;sup>8</sup> Staff members are those contracted to undertaken work for the Joint Programme including full time staff, consultants, advisors, interns, etc. Staff members with responsibility for gender issues are those who have gender related activities included in their Terms of Reference.

committees and NGO actors. The RCO in Somaliland also supported greater local visibility of UN efforts on the drought, through enhancing social media activities in Somaliland.

#### **Communications & Visibility**

During the reporting period, the MPTF Secretariat developed the quarterly MPTF Newsletter, which was published on 7 May, featuring insight stories from 12 Joint Programmes, including the first programme under the National Window and the two PBF Programmes, a foreword by FAO Somalia and updates on fund capitalization and on the MPTF Secretariat.

In addition, success stories on MPTF Programmes, notably the Joint Programme on Sustainable Charcoal Reduction (PROSCAL) and the PBF Programme 'Daldhis' (build your country) were published on the joint UN Somalia online channels (Facebook, DSRSG/RC/HC's Twitter account, UNCT Website).

Under the lead of UN Women, a photo and video session was completed in Somaliland, in preparation for the FGM conference in Hargeisa in December 2017 and the FGM conference in Addis in February 2018. This material will also be used for coming HLPFs.

Finally, the RCO produced a number of communication products in support of the London Conference in May, notably a booklet on the pre-event in Mogadishu (download here), and a number of informative one-pagers on integrated initiatives, such as the Durable Solutions Initiative, the Youth Portfolio, and CRESTA/A.

## Looking ahead

#### **UNDSS**

In addition to continued implementation of its JP activities, UNDSS is conducting a business planning exercise, with RCO funding support, to update its 2014-2016 strategic plan.

## <u>RMU</u>

Over the next three months, the RMU will focus on the following activities and deliverables:

- Production of the bi-annual systems data analytics report
- Continued risk assessment support to a range of UN system wide initiatives
- Finalization of the review of collective systems
- Provide Risk Management Training to NGOs in Garowe, Puntland.
- Replicating RMU's systems and tools to Syria
- Development of Relationship and visualization tools to aid in entity risk analysis.

#### **RCO**

In the next quarter, the RCO will focus its efforts on the following activities:

- Set up coordination structure of UNSF
- Support to the development of two new Joint Programs: Aid Coordination and Human Rights, Peace and Security
- Support development of new aid architecture

#### **UN Women**

It is envisaged that:

- The UN Senior Management Group (SMG) will approve the UN Gender Strategy and based on this a brown bag lunch will be organized (November)
- FGM conference in Hargeisa called 'Intergenerational Dialogues' (4 December)
- A briefing paper on 'The Gender and the Spoiler Economy in Somalia' will be issued
