PART 1: RESULTS PROGRESS

1.1 Overall project progress to date

Briefly explain the **status of the project** in terms of its implementation cycle, including whether all preliminary/preparatory activities have been completed (1500 character limit):

Key project preparatory activies have been completed to ensure successful implemtation of the project:

- The project coordinator has been recruited and a national counterpart to ensure knowledge transfer and enhance institutional sustainability
- Identification and set up of the project office within the Ministry of Lands to facilitate project operations and instututionalisation of systems and processes introduced by the project.
- Establishment of the Technical Working Group (Forestry, Agriculture, Fisheries, Livestock, Justice, UNDP and FAO)
- Development of annual and costed quarterly plans by implementing partners in consultations with relevant stakeholders including non-state actors
- To commence project implementation the Department of Livestock identified 10 districts for community sensitization in Central River South. This to build Consensus between farmers and pastoralist in order to commence demarcation of cattle tracks. A legal draftsman has been idenitetified for the review and drafting of legislative measure relating to land
- Responsible partnership agreement signed with West Africa Network for Peace to conduct assesment/ analysis in the identified four regions

Developed and distribution of advocacy material (project leaflets) to raise awareness on aims and objectives of the project

Considering the project's implementation cycle, please **rate this project's overall progress towards results to date:**

off track

In a few sentences, summarize **what is unique/ innovative/ interesting** about what this project is trying/ has tried to achieve or its approach (rather than listing activity progress) (1500 character limit).

This is the first time a holistic inclusive (participation of women and youth) approch is being taken in to review and draft legislation/ policy and/ or regulations relating to land and introducing measures to address gaps in the existing legal framework. It provides a unique opportunity for the key government partners-Ministry of Lands, the custodian of land registration to bring together all interested parties to dialogue, and strengthen systems and processes on land govenance.

The project will enhance stability of local communities affected by land conflict and create the space for development activities and investement to continue

In a few sentences summarize **major project peacebuilding progress/results** (with evidence), which PBSO can use in public communications to highlight the project (1500 character limit):
NA

In a few sentences, explain how the project has made **real human impact**, that is, how did it affect the lives of any people in the country – where possible, use direct quotes that PBSO can use in public communications to highlight the project (1500 character limit):
NA

If the project progress assessment is **on-track**, please explain what the key **challenges** (if any) have been and which measures were taken to address them (1500 character limit).
NA

If the assessment is **off-track**, please list main reasons/ **challenges** and explain what impact this has had/will have on project duration or strategy and what **measures** have been taken/ will be taken to address the challenges/ rectify project progress (1500 character limit):
The recruitment of the PBF Project manager took longer than expected which has delayed proper implementation.0

Please attach as a separate document(s) any materials highlighting or providing more evidence for project progress (for example: publications, photos, videos, monitoring reports, evaluation reports etc.). List below what has been attached to the report, including purpose and audience.

1.2 **Result progress by project outcome**

The space in the template allows for up to four project outcomes. If your project has more approved outcomes, contact PBSO for template modification.

Outcome 1: Local and national authorities adopt strengthened, inclusive legislative and policy frameworks for land and natural resources dispute resolution

A consultant has been identified to carry out the review of existing legislation, engage in consultations with national and local stakeholders and taking their recommendations into consideration to draft new legislation, regulations and/ or policy documents

Rate the current status of the outcome progress: off track

Progress summary: *Describe main progress under this Outcome made during the reporting period (for June reports: January-June; for November reports: January-November; for final reports: full project duration), including major output progress (not all individual activities). If the project is starting to make/ has made a difference at the outcome level, provide specific evidence for the progress (quantitative and qualitative) and explain how it impacts the broader political and peacebuilding context. Where possible, provide specific examples of change the project has supported/ contributed to as well as, where available and relevant, quotes from partners or beneficiaries about the project and their experience. (3000 character limit)?*

Outcome 2: : National authorities and communities use dispute resolution mechanisms to address LNR disputes in conflict hot spots.

Under output 2.2 The Department of Livestock of the Ministry of Agriculture have commenced community consultations in 10 districts within the West Coast Region (WCR) and the Central River Region (CRR) South Bank. These comprise of Upper and lower Saloum, Upper and Lower Fuladu, Niamina East and West, Fonni Bondalli and Bintang, Combo Central and East

UNDP is responsible of leading the implementation of the output 2.3: "to enhance the capacity of land commission members, regional MDFTs, Alkalos and local chiefs to facilitate community dialogue and resolve land disputes". This involves undertaking of community assessment and conflict analysis in selected regions and communities. A Responsible Partnership Agreement has been signed by WANEP to conduct conflict assessment/analysis on various communities in the identified four regions of the country namely: WCR, LRR, CRR and URR. Furthermore, they will develop a training manual targeting knowledge, skills in addressing land conflict matters at community level, targeting local authorities and agencies involved in land management. The NGO will also use the training manual/guide to conduct training at different levels in all the regions.

1.3 Cross-cutting issues

National ownership: How has the national government demonstrated ownership/ commitment to the project results and activities? Give specific examples. (1500 character limit)	FAO has formed a Thematic Working group comprising all the lead implementors on the project. The PBF Manager will also be accommodated by the Ministry of Lands & Regional Government to enable a good partnership and easy transfer of skills and knowledge between counterparts. A national project counterpart to the project
---	--

Monitoring: Is the project M&E plan on track? What monitoring methods and sources of evidence are being/ have been used? Please attach any monitoring-related reports for the reporting period. <i>(1500 character limit)</i>	coordinator was also identified. In progress
Evaluation: Provide an update on the preparations for the external evaluation for the project, especially if within last 6 months of implementation or final report. Confirm available budget for evaluation. <i>(1500 character limit)</i>	
Catalytic effects (financial): Did the project lead to any specific non-PBF funding commitments? If yes, from whom and how much? If not, have any specific attempts been made to attract additional financial contributions to the project and beyond? <i>(1500 character limit)</i>	A representative of the Belgian government has indicated to the Ministry of Lands the willingness of their government to support development of a cadastral map for The Gambia.
Catalytic effects (non-financial): Did the project create favourable conditions for additional peacebuilding activities by Government/ other donors? If yes, please specify. <i>(1500 character limit)</i>	
Exit strategy/ sustainability: What steps have been taken to prepare for end of project and help ensure sustainability of the project results beyond PBF support for this project? <i>(1500 character limit)</i>	
Risk taking: Describe how the project has responded to risks that threatened the achievement of results. Identify any new risks that have emerged since the last report. <i>(1500 character limit)</i>	
Gender equality: In the reporting period, which activities have taken place with a specific focus on addressing issues of gender equality or women's empowerment? <i>(1500 character limit)</i>	The community consultation on the redemarcation of cattle tracks engages 40% of women in each community.
Other: Are there any other issues concerning project implementation that you want to share, including any capacity needs of the recipient organizations? <i>(1500 character limit)</i>	

1.3 INDICATOR BASED PERFORMANCE ASSESSMENT: Using the Project Results Framework as per the approved project document or any amendments- provide an update on the achievement of key indicators at both the outcome and output level in the table below (if your project has more indicators than provided in the table, select the most relevant ones with most relevant progress to highlight). Where it has not been possible to collect data on indicators, state this and provide any explanation. Provide gender and age disaggregated data. (300 characters max per entry)

PART 2: INDICATIVE PROJECT FINANCIAL PROGRESS

2.1 Comments on the overall state of financial expenditures

Please rate whether project financial expenditures are on track, delayed, or off track, vis-à-vis project plans and by recipient organization: *delayed*

How many project budget tranches have been received to date and when do you expect to request the next tranche if applicable: 1

What is the overall level of expenditure/ commitment against the total budget and against the tranche(s) received so far: Expenditure - \$67,395.11 / committed - \$86,500 = \$153,895.11. 11% of total budget and 15.7% of Tranche 1

If expenditure is delayed or off track, please provide a brief explanation (500 characters limit): The delay was due to the recruitment process for the Project Coordinator taking longer than anticipated.

Please state what \$ amount was planned (in the project document) to be allocated to activities focussed on gender equality or women's empowerment and how much has been actually allocated to date: NA

Please fill out and attach the project document Excel budget Annex showing current project financial progress (**expenditures/ commitments to date**), using the original project budget table in Excel, even though the \$ amounts are indicative only.

ADDRESSING CONFLICT OVER LAND AND NATURAL RESOURCES (LNR) IN THE GAMBIA PROJECT

PROJECT TITLE: Addressing Conflict over Land and Natural Resources (LNR) in The Gambia

PROJECT AREA OF INTERVENTION

The Project targets all the administrative regions for legal reforms, West Coast Region and Central River Region for dialogue and conflict resolution interventions

Duration: 18 months (December 1st, 2018- July, 2019)

Executed by: FAO & UNDP

Financed by: Peacebuilding Support Office (PBSO)
Budget (co-Funding): \$1,100,000(FAO);\$300,000 (UNDP)

The Project targets all the administrative regions for legal reforms, West Coast Region and Central River Region for dialogue and conflict resolution interventions.

1. Population: 2,051,363 (July 2017 est.)

2. Population Below Poverty Line 48.4% (2010 est.) 70% of rural population fall under the poverty line

3. Land area- 10,689 km² 43.48 % of which is arable land

4. Percentage of rural land: 54.4%

5. Demographic profile: Gambia is graced with a youthful age structure with almost 60% of the population is under the age of 25 and the country's total fertility rate remains high at nearly 4 children per woman. The literacy rate is around 55%, and is notably lower for women than for men with at least 70% of the populace are farmers who are reliant on rain-fed agriculture.

PROJECT OBJECTIVE: The main objective of the project is to strengthen legal frameworks for land and natural resources (LNR) - related conflict resolution and governance, enhance mechanisms for conflict prevention, and in communities where LNR conflict-related violence has already occurred, support actions for peace building.

PROJECT BACKGROUND: Conflict over the control of land and natural resources is now particularly persistent in The Gambia's administrative regions with tensions that degenerated into violent conflicts in places like Faraba-Bantang, Taneneh, Gurjur, Kartong Jambanjelly, Kerewan Njakoi, and CRR. Though simmering for many years, conflicts related to land and natural resources emerged as priority intervention areas in The Gambia after the deaths of protesters in Faraba, and incidents of conflict between crop and livestock farmers in CRR. A full consultation findings report from the Ministry of Local Government and Lands has identified 50 hotspots of land conflicts and an FAO implemented "Adapting Agriculture to Climate in The Gambia" Project has identified the need for one to three cattle tracks in each of the active 40 districts.

KEY DRIVERS OF LAND CONFLICT IN THE GAMBIA ARE:

- 1) Inadequate legal frameworks and poor enforcement of existing laws and regulations pertaining to tenure of land, forests and other natural resources.
- 2) Eroded citizens' (especially youth) confidence in traditional (Chieftaincy/Akkaloship) dispute resolution mechanism compounded by increasing opportunities for the transfer of land from communal to private leaseholds with often non-transparent payments to traditional leaders and others.
- 3) Rapid urbanization and growing investments have accelerated the demand for resources such as sand and timber for construction and export, taking up land formerly used for crops, livestock and forest reserves, resulting in conflicts over affected land such as the conflict in Faraba and Jambanjelly.

Output 1.1: Strengthened frameworks for LNR governance and conflict resolution.

Output 1.2: Capacity of National and local institutions strengthened to enforce inclusive LNR governance and conflict resolution mechanisms

Output 1.3: Increased awareness of authorities and communities on revised legal frameworks/policies

Outcome 2: National authorities and communities use dispute resolution mechanisms to address LNR disputes in conflict hot spots,

Output 2.1: Information system to track land disputes and to inform policy and investments established

Output 2.2: Strengthened capacity of rural communities to prevent conflict LNR disputes

Output 2.3: Enhanced capacity of Land Commission Members, Regional MDFT Akklos and local chiefs to facilitate community dialogue and resolve land disputes

PROJECT OUTCOMES AND OUTPUTS

Outcome 1: Local and national authorities adopt strengthened, inclusive legislative and policy frameworks for land and natural resources dispute resolution.

PROJECT BENEFICIARIES:

The project will target national institutions; judiciary, legislative, traditional and regional authorities for equitable land dispute resolution. It also target community members, especially youth and women, to understand and utilize appropriate land resolution mechanism.
