SOMALIA UN MPTF

SEMI-ANNUAL HIGHLIGHTS

1. Following the arrival of COVID-19 in Somalia, the Office of the Resident Coordinator (RCO) and OCHA led the development of the Somalia COVID-19 Country Preparedness and Response Plan. The RCO coordinated the development of the socioeconomic component of the plan.
2. Aid Flows Analysis 2020 report released, based on the 2019 aid mapping exercise carried out by the Ministry of Planning, Investment and Economic Development between September and October 2019 with the support of the RCO and World Bank.
3. As a key part of the development process for the UN Sustainable Development Cooperation Framework (UNCF), the RCO initiated the process of formulating a Common Country Analysis (CCA), an independent, impartial, and collective assessment of the situation in Somalia to guide and inform the development of UNCF priorities and outcomes.
4. UN Country Results Report for 2019 published in May 2020 articulating the UN's contribution to Somalia's achievements in advancing its development and state-building priorities, including through the UN MPTF.
5. The Risk Management Unit (RMU) contributed to the risk Analysis to CCA risk analysis, the UN Strategic Framework evaluation, the risk analyses of the Sameynta project proposal and Midnimo project activities and completed verifications and partner risk analysis.
6. Enhanced cooperation within the UN on risk management, accountability, and quality assurance, as well as on the implementation of the UN Harmonized Approach to Cash Transfers and Business Operations Strategy.
7. Implemented three additional features in the Contractor Information Management Systems (CIMS), enabled uploading of additional sanctions lists, and uploaded data extracted from the Panel of Experts 2019 report. Additional contracts with a value of about US\$ 100 million uploaded, bringing the aggregate value of contracts in CIMS to US\$ 6.5 billion.

HIGHLIGHTS OF KEY ACHIEVEMENTS

Despite the multitude of challenges posed by the COVID-19 pandemic, Joint Programme entities aimed to ensure continuity in the provision of enabling services to the UN system in Somalia and other partners. In this regard, significant progress has been made during the reporting period.

Following the arrival of COVID-19 in Somalia, the Office of the Resident Coordinator (RCO) with OCHA led the development of the Somalia COVID-19 Country Preparedness and Response Plan (CPRP). The CPRP is a joint effort by UN agencies and cluster partners, including NGOs, to respond to the direct public health and indirect immediate humanitarian and socioeconomic consequences of COVID-19. The RCO coordinated the development of the socioeconomic component of the plan.

Support continued to be provided on issues related to aid coordination mechanisms and aid flows tracking and analysis. Following extensive consultations with stakeholders during the second half of 2019, the government

SOMALIA UN MPTF

finalized a revised architecture aligned to the pillars of the new NDP-9. The first SDRF Steering Committee meeting of the year was held on 24 June 2020, with RCO support, in which the proposed structure was endorsed.

On 15 April 2020, the FGS launched the online Aid Information Management System (AIMS). The system, which is openly accessible to the public, enables partners to share data on development and humanitarian aid flows for Somalia and aims to help make aid more effective by increasing transparency, accountability, and coordination. The system was developed with the financial and technical support of UNDP, with the support of the RCO and World Bank.

The government also released the 2020 Aid Flows Analysis report, presenting analysis of aid flows to Somalia based on the 2019 aid mapping exercise carried out by the Ministry of Planning, Investment and Economic Development between September and October 2019 with the support of the RCO and World Bank.

With the pending expiry of the UN Strategic Framework for Somalia (2017-2020), the UN in Somalia commenced the development of a new UN Sustainable Development Cooperation Framework (UNCF) to guide its collective work in support of the NDP-9 priorities from 2021-2025. As a key part of this process, at the beginning of 2020, the RCO initiated the process of formulating a Common Country Analysis (CCA), an independent, impartial, and collective assessment of the situation in Somalia to guide and inform the development of the UNCF. This was the first time the entire UN system in Somalia had undertaken a comprehensive assessment of the situation in the country through the prism of the Sustainable Development Goals (SDGs) on a goal-by-goal basis. Informed by the CCA and other processes, the RCO is now coordinating the development of the UNCF.

Following the second full year of implementation of the UN Strategic Framework, the RCO coordinated the development and finalization in May of the UN Country Results Report for 2019 which represents the total UN contribution to Somalia's achievements in advancing its development and state-building priorities, including through the UN MPTF.

The UN Risk Management Unit (RMU) enhanced its risk analytical support and cooperation with the UN Agencies, especially through contextual and operational risk analysis, information sharing, substantive risk management discussions in the UN Risk Management, Accountability and Quality Assurance Working Group. Measures have been undertaken to enhance the Contractor information Management System (CIMS) database and improve data security. A draft collaborative Risk Management Strategy for the Aid Community has been completed and is under review. Contract value in CIMS has reached US\$ 6.5 billion and data has been extracted from Somalia Panel of Experts 2019 report and uploaded in CIMS. The draft NGO Bill is under review by the Somalia lower house of parliament.

UNDSS maintained security aircraft during the reporting period to conduct security assessments and evaluations.

SITUATION UPDATE

Like all other UN MPTF Joint Programmes in Somalia, implementing entities of the Joint Programme on Enabling Services were constrained in their ability to work effectively during the reporting period due to restrictions put in place due to the COVID-19 pandemic. Alternative working arrangements meant that most staff were working from home in different parts of the world. While Programme staff adapted well to virtual communication and implementation modalities, the ability to provide coordination and other enabling services to the UN system in Somalia and other partners was severely affected.

SOMALIA UN MPTF

In direct response to the COVID-19 pandemic, the RCO was required to take on additional functions than otherwise expected in coordinating the UN development system’s response to the pandemic. Also, the development of the new UNCF is meant to be based on extensive consultations with UN, government, civil society, donor, and other partners. However, due to the practical constraints of arranging virtual consultations with a wide array of stakeholders, the time and attention of many has been rightly focused on the COVID-19 response but has delayed progress on the UNCF development process. On a positive note, during the early part of the year, the RCO completed several previously delayed recruitments of from the global Development Coordination Office (DCO) staffing allocation.

While implementation of some RMU activities was challenged due to COVID-19 pandemic, especially the planned class-based activities, most of the planned activities have been completed as planned. This required adaptation of normal ways of doing business to virtual arrangements. While the annual objectives remain the same, achieving targets for some activities may be challenging due to changes of the delivery modalities while new opportunities may arise.

UNDSS manages a small aircraft used to carry out security assessments and emergency evacuations in some parts of Somalia. However, a key donor has withdrawn its support requiring the need to mobilize additional resources to fill the gap. As such, sustaining the aircraft-based security assessments may prove challenging moving forward.

SEMI-ANNUAL PROGRESS REPORT RESULTS MATRIX

Outcome: Coordinated, Transparent and safe delivery of international assistance throughout Somalia			
RCO MONITORING FRAMEWORK			
INDICATOR	TARGET	PROGRESS ON OUTPUT INDICATOR²	
		REPORTING PERIOD	CUMULATIVE
Output 1: <i>Ensure the effective implementation of the UNSF and NDP</i>			
1.1 Volume of funds channeled or reported through the SDRF	2020: 50% of UN development funding channeled or reported through the SDRF	2020: 45% <i>Based on 2019 aid flow data</i>	2017: 26% 2018: 35% 2019: 52% 2020: 45%
1.2 Support provided to implementation of NDP and UNSF	2020: UN RCO secretariat support and technical advice enables NDP9 Pillar Working Groups (PWGs) and UNSF groups meet regularly. Coordination support to implementation of MAF priorities. Coordinate Gender, Durable Solutions, Youth and Human Rights capacity support to UNSF implementation	First SDRF Steering Committee meeting of the year took place on 24 June 2020. No Pillar Working Group Meetings held. Revised aid coordination architecture endorsed at SDRF Steering Committee meeting. UN Pillar Working Group leads identified. Mutual Accountability Framework (MAF) Task Force reconstituted and met to	Same as during the reporting period

		<p>deliberate on effective monitoring of the framework</p> <p>2020 Aid Flows report finalized, translated, and published.</p> <p>UN RCO continued to provide inter-agency secretariat support to UN system-wide coordination platforms (<i>UNCT, PMT, Youth Working Group, Communications Working Group, Durable Solutions Working Group, etc.</i>)</p> <p>UN RCO lead the development of the socioeconomic component to the COVID-19 Country Preparedness and Response Plan (CPRP)</p>	
<p>1.3 Monitoring and reporting of UNSF results</p>	<p>2020: UNSF Outcome level results Matrix translated into intergenerational, gender and human rights sensitive outputs through the annual workplans of the NDP Pillar Working Groups/UNSF. Reporting against UNSF/NDP AWP's on a semi-annual basis. New UN Sustainable Development Cooperation Framework (UNCF) 2021-2025 aligned to NDP-9 finalized.</p>	<p>UN Country Results Report for 2019 published in May 2020 outlining UN system-wide contribution to Somali's achievements towards its development priorities under the NDP. Report included comprehensive reporting against UNSF results framework (including on gender, youth and human rights) and Common Budgetary Framework as well as other 'Delivering as One' initiatives.</p> <p>UNCF: Common Country Analysis (CCA) drafted based on analysis from across the UN system in Somalia and shared with various stakeholders for feedback. The CCA will serve as the analytical underpinning for the UNCF.</p>	<p>Same as during the reporting period</p>
<p>Output 2: Improve the coherence and impact of the UN system in Somalia</p>			

SOMALIA UN MPTF

<p>2.1 Support to UN Joint Programming sustained</p>	<p>2020: Ongoing development of joint programmes to fulfil identified needs covering all NDP9 pillar groups;</p> <p>Annual increase in number of UN entities implementing through MPTF Joint Programmes.</p> <p>RCO ongoing consolidation and improvement of MPTF reporting processes</p> <p>Improved gender mainstreaming and gender sensitive programming across the portfolio through robust gender reporting requirements.</p>	<p>No Joint Programmes were developed or approved by SDRF Steering Committee during the reporting period.</p> <p>17 AFPs, UNSOM and 3 enabling units implementing MPTF Joint Programmes.</p> <p>2019 MPTF Annual report issued on 3 March 2020.</p> <p>Q4 2019 and Q1 2020 UN MPTF Newsletters shared with donors on 8 March 2020 and 7 May 2020 respectively</p> <p>Continued JP reporting on MPTF gender indicators and narrative on contributions to GEWE.</p>	<p>Same as during the reporting period</p>
<p>2.2 Number of common analytical products</p>	<p>2020: 3 intergenerational, gender and human rights sensitive UNCT analytical pieces developed that support UN system programming.</p>	<p>5 Draft Common Country Analysis (CCA) produced to inform the development of UN Sustainable Development Cooperation Framework</p> <p>2020 Aid Flow Analysis report finalized and published</p> <p>2019 UN Country Results Report published</p> <p>COVID-19 Country Preparedness and Response Plan published</p> <p>Fragility Index and Maturity Model (FIMM) report finalized</p>	<p>Same as during the reporting period</p>
<p>2.3 Level of UN System wide integration (Low, Medium, High)</p>	<p>2020: High – Gender and human rights sensitive joint UNSF Strategic Priority AWP's developed and monitored and in line with NDP9; MPTF Joint Programmes jointly implemented with UNSOM</p>	<p>UN Country Results Report for 2019 published in May 2020 outlining UN system-wide contribution to Somali's achievements towards its development priorities under the NDP.</p>	<p>Same as during the reporting period</p>

SOMALIA UN MPTF

		<p>Development process for a new UN Sustainable Development Cooperation Framework progressed with advanced draft of CCA produced.</p> <p>11 MPTF Joint Programmes jointly implemented with UNSOM</p>	
2.4 Operationalization of the NWOW	<p>2020: Strengthened resilience-oriented MPTF programmatic portfolio in support of the Recovery and Resilience Framework and NDP-9.</p> <p>Strengthened coordination at federal and sub-federal levels between humanitarian, development, and peace-building actors.</p>	<p>UNICEF and WFP MPTF Joint Programme on “Combatting Poverty and Vulnerability in Somalia through Social Protection” commenced in April 2020.</p> <p>UNICEF, ILO and WFP Joint Programme “Toward a Somali Led Transition to National Social Protection Systems” commenced implementation with US\$ 2.6 million in resources from the Joint SDG Fund.</p> <p>COVID-19 Country Preparedness and Response Plan (with both humanitarian and socioeconomic components) developed and published in April 2020</p> <p>Multiple UN MPTF Joint Programmes adapted their programmatic responses to contribute to COVID-19 response.</p> <p>Multidimensional analysis across the humanitarian-development-peace spectrum undertaken through the Common Country Analysis.</p>	Same as during the reporting period
Output 3: Support effective international engagement in Somalia			
3.1 Effective UN-Donor forums sustained	2020: quarterly UN-Donor MPTF briefings;	No UN MPTF donor briefings took place during the reporting period.	Same as during the reporting period

SOMALIA UN MPTF

3.2 Increased support to donor engagement across Somalia	2020: Quarterly RC briefings; local donor briefings and mission support upon request; Annual Youth Coordination Meetings	The DSRSG/RC/HC undertook the following 3 briefings: - Humanitarian Donor Group - 1 April 2020 - Somalia Donor Group - 6 May 2020 - Heads of Development Cooperation - 15 April 2020	Same as during the reporting period
--	--	---	-------------------------------------

**SUB-OUTCOME 1 STATEMENT
RMU Monitoring Framework**

Output 1. Enhanced collective risk management approaches

INDICATOR	TARGET 2019	PROGRESS ON OUTPUT INDICATOR ³	
		REPORTING PERIOD	CUMULATIVE
1.1. Number of collective tools agreed and used by the UNCT	2020: two (2) additional risk management tools developed	TORs of Reference of Risk Management, Accountability and Quality Assurance working group endorsed by the UNCT in February 2020.	Same as during the reporting period
1.2. Number of collective tools agreed and used between UN, donors, NGOs and Government	2020: 3 risk management tools / initiatives developed and endorsed by MPRWG	The initial draft of the Collaborative Capacity & Capability Assessment (CCA), Risk Management Strategy (CRMS) and its Implementation Plan was completed by the consultant and is under review.	Same as during the reporting period

UNDP ONLY: sources of evidence (as per current QPR)

Output 2: Increased information sharing, both within the UN and between the UN, government donors, and NGOs

2.1. Increase in contract value in CIMS (internal to UN)	2020: \$6.7 billion	6.52 billion (Approx. USD 100 million increase in value of contracts)	Same as during the reporting period
2.2. Number of NGO, donor, or gov request to RMU	2020: Ten requests for technical assistance with RMU feedback	NGOs: One request received on selection/identification of partners UN: Requests received from the UN and	Same as during the reporting period

NARRATIVE			

SOMALIA UN MPTF

Despite the challenges posed by the COVID-19 pandemic and the arrival of the virus in Somalia, Joint Programme entities aimed to ensure continuity in the provision of enabling services to the UN in Somalia and other partners. In this regard, significant progress has been made during the reporting period.

RCO

Following the arrival of COVID-19 in Somalia, the RCO with OCHA led the development of the Somalia COVID-19 Country Preparedness and Response Plan (CPRP). The CPRP is a joint effort by UN agencies and cluster partners, including NGOs, to respond to the direct public health and indirect immediate humanitarian and socioeconomic consequences of COVID-19. The RCO led the development of the socioeconomic component of the Plan. The Plan is aligned and includes support to key interventions within the Federal Government of Somalia's Comprehensive Socio-Economic Impact and Response Plan for COVID-19, launched on 27 March 2020. The CPRP was launched in April 2020.

Following the recommendation from the Interagency Standing Committee (IASC) that countries undertake review of their Programme Criticality Frameworks, the RCO led a light-touch review of the country framework to ensure that the UN in Somalia was able to respond to the current COVID-19 pandemic while maintaining regular life-saving operations. This review was completed in May 2020 and submitted to the Programme Criticality Secretariat in New York.

Support continued to be provided on issues related to aid coordination mechanisms and aid flows tracking and analysis. With regards to the national aid architecture, following extensive consultations with stakeholders during the second half of 2019, the government finalised a revised architecture aligned to the pillars of the new NDP-9. The first SDRF Steering Committee meeting of the year was held on 24 June 2020, with RCO support, in which the proposed structure was endorsed. In addition, the Mutual Accountability Framework (MAF) Task Force was reconstituted and met to deliberate on effective monitoring of the framework.

On 15 April 2020, the Federal Government of Somalia launched the online [Aid Information Management System](#) (AIMS). The system, which is openly accessible to the public, enables partners to share data on development and humanitarian aid flows for Somalia and aims to help make aid more effective by increasing transparency, accountability, and coordination. The system was developed with the financial and technical support of UNDP, with the support of the RCO and World Bank.

The government also released the [2020 Aid Flows Analysis report](#), presenting analysis of aid flows to Somalia based on the 2019 aid mapping exercise carried out by the Ministry of Planning, Investment and Economic Development between September and October 2019 with the support of the RCO and World Bank.

With the pending expiry of the UN Strategic Framework for Somalia (2017-2020), the UN in Somalia commenced the development of a new UN Sustainable Development Cooperation Framework (UNCF) to guide its collective work in support of the NDP-9 priorities from 2021-2025. As a key part of this process, at the beginning of 2020, the RCO initiated the process of formulating a Common Country Analysis (CCA), an independent, impartial, and collective assessment of the situation in Somalia to guide and inform the development of the UNCF. The purpose of the CCA is to serve as the evidence-based analytic framework underpinning the formulation of the UN's interventions over the coming five years. This was the first time the entire UN system in Somalia had undertaken a comprehensive assessment of the situation in the country through the prism of the Sustainable Development Goals on a goal-by-goal basis. This process culminated in the production of draft a CCA report which was shared with UN, government, donors, and other partners for review. The RCO is now coordinating the development of the UNCF based on the

SOMALIA UN MPTF

comprehensive analysis of the CCA. The CCA will be published in the second half of 2020, prior to the completion of the UNCF.

Following the second full year of implementation of the UN Strategic Framework 2017-2020 (UNSF), the RCO coordinated the development and finalization in May of the [UN Country Results Report](#) for 2019. This is the second Results Report produced in conformance with the reporting requirements for the UNSF in which the UN in Somalia has collectively reflected and reported on the totality of its contribution to Somalia's achievements in advancing its development and state-building priorities, including through the UN MPTF. The Report has illustrated that, despite some noteworthy challenges that slowed progress in several areas, 2019 was marked by significant achievements across all complementary and mutually reinforcing Strategic Priorities of the UNSF. The Report was published online and disseminated to government and donor partners.

RMU

The UN Risk Management Unit (RMU) in collaboration with UN entities other stakeholders expanded the scope of risk management support and information sharing through facilitating the coordination of joint activities related to the response to risks emerging from partner capacity assessment and audit observations. Examples include the expansion of the scope of the former UN Risk Working Group to Risk Management, Accountability and Quality Assurance (RMAQA) working group which has been endorsed by the UNCT and has been operational since January 2020. The Group has conducted 6 meetings during the first half of the year to discuss matters related to joint activities – such as joint audit, joint and coordinated monitoring activities, exploring new and coordinated ways to conduct audit and other assurance activities during the pandemic, and how to respond in consistent and coordinated manner to the audit recommendations.

Other achievements have been joint audits of programmes receiving funds through MPTF, which led to cross-checking and cross-verification of results, activities, and the relevant documentation on common partners. An example of this is the UNDP-UNFPA joint audit, which took place during Q1; the strong collaboration between UNDP, UNICEF and UNFPA on implementation of the Harmonized Approach to Cash Transfer Framework, as well as implementation of risk management collaborative approaches across development and humanitarian agencies, programmes and projects under the coordination, guidance and the support of the UN RMU.

Information sharing across UN entities as well as across the pooled funds (UN/WB/AfDB) and other partners has taken place in different ways, such as the UN partner information in the Contractor information Management System (CIMS) which during 2020 recorded an increased value of US\$ 100 million in value of contracts. In addition to UN Security Council sanctions lists, the system now includes the US and EU sanctions/restricted lists. Progress has also been made tracking advisors embedded in the government with this information being uploaded in the UN/World Bank managed Capacity Injection Reporting Tool (CIRT) database. The CIRT has been updated to capture advisory/professional support provided in response to COVID-19. The bi-annual reports on both systems are being generated and disseminated accordingly.

By June, the draft Collaborative Risk Management Strategy for Somalia aid stakeholders has been completed along with the Capacity and Capability Assessment and Strategy implementation plan. All three documents are currently under review.

Progress has been made under the UN MPTF national window objectives of the Joint Justice Programme. The procurement process for acquiring services for the construction of correction facilities in Baidoa and South Galkayo

SOMALIA UN MPTF

has been completed by the Ministry of Finance in collaboration with the Ministry of Justice (FGS & respective FMSs) and overseen by the RMU. Construction work started in July 2020.

UNDSS

UNDSS security aircraft carries out security assessments, and offered transportation for field security Advisors, to reinforce security in inadequately covered areas. Security was also reinforced in Ambassador and Mansoor Hotels in Somaliland through the Special Protection Units.

Other Key Achievements

COVID-19 response

While the RMU has continued to perform its duties through virtual interaction, it has also responded to the requests for risk analysis on COVID-19 response related activities and partners. As noted in the above report, the RCO coordinated the development of the socioeconomic component of the COVID-19 Country Preparedness and Response Plan. The RCO also led the review of the UN Programme Criticality Framework to ensure that to the UN in Somalia was able to respond to the current COVID-19 pandemic while maintaining regular life-saving operations.

Challenges (incl: Delays or Deviations) and Lessons Learnt:

Like all other UN MPTF Joint Programmes, COVID-19 severely impacted the ability of the Enablers programme to implements its plans activities. Alternative implementation modalities and virtual communication arrangements had to be implemented to ensure continuity in the provision of enabling services.

As the RMU increases its provision of timely, accurate and specific information analysis in response to growing requests, this is taking the RMU in more refined areas of support across the project cycle. This has correspondingly resulted in the provision of quality over quantity, and therefore a reduction in the current annual target for risk analysis.

COVID-19 has limited face to face interactions, especially activities that require face-to-face interaction, and reduced field monitoring activities planned for the reporting period under the national window. While some consultations took place during Q1, most Q2 activities were reduced to virtual interaction with internal and external RMU partners. The RMU has not been able to conduct any risk management courses during the first half of 2020. The course materials are being adjusted for virtual learning platforms and it is expected that activities will commence in August through December 2020.

UNDSS experienced many challenges in maintaining security aircraft due to funding shortages. Alternative bilateral funding needs to be secured to ensure continuity of operations.

Peacebuilding impact

Looking ahead

RCO

Given the prevailing COVID-19 pandemic and uncertainty on when and how regular operations will be able to resume, it is likely that the second half of 2020 will continue to impact Joint Programme activities. However, alternative working arrangements and implementation modalities should allow the Programme to deliver against its commitments.

Despite these challenges, the last six months of the year will be critical in framing the UN's next phase of support to Somalia in the coming five years. The UN Common Country Analysis will be finalized and published. The RCO will support the formulation of the priorities and outcomes for the UNCF. Consultations with a broad range of stakeholders will continue to inform the development process of the UNCF. It is expected that the UNCF will be finalized and endorsed by UN and government leadership in the coming months. In parallel, the RCO will continue to implement the necessary coordination and implementation arrangements for the UNCF which will become operational at the beginning of 2021.

To ensure effective secretariat support to the UN MPTF, its Programmes, participating agencies and donors, the RCO is expected to complete the recruitment process for a dedicated senior portfolio manager for the fund. This will be the first RCO staff member dedicated full time to improving fund performance.

The RCO will continue to provide coordination support to the UN system's ongoing response to COVID-19. A revised CPRP is currently under review to ensure its conformance with UN global requirements and is expected to soon be released. The RCO is working to ensure the UN's response to COVID-19 is coordinated with other partners, notably through the Somalia Donor Group and with special focus on coordinating efforts with the World Bank.

Continued support will be provided for the operationalization of the revised aid architecture, monitoring of the MAF, and the next phase of the AIMS. In addition to supporting government counterparts, the RCO is engaging the UN focal points for the Pillar Working Groups and the MAF task force to ensure coordinated engagement in these processes across the UN system. The RCO is also working through the Somalia Donor Group to ensure coordination with the donor community on these issues.

RMU

The key results expected in the second half of 2020 include: finalization of the Collaborative Risk Management Strategy and its Implementation Plan, and engagement with the Multi-Partner Risk Working Group to implement the Strategy; Undertake online/virtual 'Managing Project Risk' courses to participants from Office of the Prime Minister/Aid Coordination Unit and Midnimo Project; Finalize the concept note on the RMU post 2020; Undertake risk management analysis for the UNCF. During August/September, the RMU, in coordination with UNSOM's

SOMALIA UN MPTF

Integrated Elections Support Group, Political Affairs and Mediation Group and Integrated Analysis Team will undertake elections risk analysis and provide screening and risk management support during the elections.

The RMU will continue to advice, support, and coordinate with UN entities on risk management, accountability, and quality assurance activities. Six Risk Management, Accountability and Quality Assurance virtual working group meetings have been scheduled in the second half of the year. The RMU will coordinate and support implementation of the UN Business Operations Strategy, especially the HACT elements as part of the Finance Working Group, and Procurement Working Group on the UN Vendors and Long-Term Agreements.

The RMU will continue to undertake UN and donor partner risk analysis and respond to ad-hoc verification and advice requests from the UN Agencies. The RMU will continue to make enhancements to the CIMS and CIRT databases. Oversight and capacity building will be provided to the MPTF National Window during the construction of the correction facilities.

DSS

UNDSS will continue to seek financial support to ensure continued operations of its aircraft.
