PART I: OVERALL PROJECT PROGRESS

NOTES FOR COMPLETING THE REPORT:

- Avoid acronyms and UN jargon, use general /common language.
- Report on what has been achieved in the reporting period, not what the project aims to do.
- Be as concrete as possible. Avoid theoretical, vague or conceptual discourse.
- Ensure the analysis and project progress assessment is gender and age sensitive.
- If relevant, please include any COVID-19 related considerations, adjustments and results and respond to section IV. **(This section is optional)**

*

Briefly outline the *status of the project* in terms of implementation cycle, including whether preliminary/preparatory activities have been completed (i.e. contracting of partners, staff recruitment, etc.)

Please limit your response to 1500 characters including spaces.

Due to the ongoing political, social and economic crisis since the coup of October 2021, it has been very challenging for UN agencies and other partners to engage in certain types of activities related to peacebuilding, complex policy issues and discussions with government. Recognizing the limitations associated with the implementation of Juba Peace Agreement, UNDP, UNHCR and UNITAMS hold frequent coordination meetings to discuss and agree on a joint plan of action and proposal to re-program certain activities and a request for 6 months no cost extension to ensure continuity in contributing to the peace process in Sudan and to better be able to respond to emerging needs and priorities.

*

Summarize *the main structural, institutional or societal level change* the project has contributed to.
This is not anecdotal evidence or a list of individual outputs, but a description of progress made toward the main purpose of the project

FOR PROJECTS WITHIN SIX MONTHS OF COMPLETION ONLY; (1500 character limit)

A data infrastructure (Crisis Risk Dashboard) has been developed and strengthened for early warning and prediction of scenarios. It has been circulated among UNCT members. In addition, UNDP team is engaging extensively with the Peace Research Institute of the University of Khartoum, and Voluntas company to review the Crisis Risk Dashboard (CRD) methodological framework and develop a roadmap to design an automation plan to ensure timely and cost-effective data updates and verification. a mapping exercise for reliable secondary data source is being conducted against the CRD indicators.

PART II: RESULT PROGRESS BY PROJECT OUTCOME

Describe overall progress under each Outcome made during the reporting period (for June reports: January-June; for November reports: January-November; for final reports: full project duration).
Do not list individual activities. If the project is starting to make/has made a difference at the outcome level, provide specific evidence for the progress (quantitative and qualitative) and explain how it impacts the broader political and peacebuilding context.

- "On track" refers to the timely completion of outputs as indicated in the workplan.
- "On track with peacebuilding results" refers to higher-level changes in the conflict or peace factors that the project is meant to contribute to. These effects are more likely in mature projects than in newer ones.

While it is not yet clear what the new political dispensation means for Sudan, and when a government will be formed, it seems clear that there will be no return to the status-quo-ante and there may be considerable impact on the implementation of the Juba Peace Agreement (JPA) including the commitment to establish a neutral, accountable, and effective JPA structures and mechanisms. The project has resumed the engagement with the Peace Commission through holding series of consultative meetings to identify and prioritize areas of strategic and programmatic support. In addition, the project responded to a request from UNITAMS, to provide support to Darfur Permanent Ceasefire Committee (PCC) established in September 2021 under the leadership of UNITAMS. The identified and supported areas included, creating the visual identity for the PCC and branding visibility, producing research papers as required to implement the mandate of the PCC and support with capacity development package.

With the absence of a formal / government national peace architecture, Civil Society Organisations are emerging as key actors in mitigating violence and facilitate the conditions necessary for building a sustainable peace especially at community level. The project has conducted a preparatory consultations to hold a CSOs dialogue forum with the aim to design an inclusive, participatory roadmap for CSOs engagement and mobilization for networking and proper coordination around interventions on peace and conflict issues.

With the prolonged political crisis and with a new government not having been formed yet to develop and endorse a national peace strategy, the project will reprogramme Output 1.3 (National Strategy for Peace Prepared and Adopted) to focus on the support to local peace architecture with especially the participation of youth and women groups, strengthening a network of insider mediators, and supporting local peace agreements and reconciliation efforts.

Indicate any additional analysis on how Gender Equality and Women's Empowerment and/or Youth Inclusion and Responsiveness has been ensured under this Outcome

The Civil Society Organizations (CSOs) preparatory consultations attracted 22 women (7 female Youth inclusive) out of the 50 participants. During the group discussion, women and youth groups were created to specifically discuss participatory roadmap for youth and women CSOs engagement and mobilization around peace and conflict issues.

Outcome 2:

Pre- implementation Support to Peace agreement has mobilized popular good will and participation, established agreed machinery and processes of the peace process, and improved the evidence base upon which agreements are finalised and implemented

A national partner has been identified and joint framework is developed in collaboration with UNDP ACC Lab to launch a nationwide advocacy campaign to design and disseminate creative peace messaging that promote unity, trigger positive behavioural change, and transform social conflicts through art for peace.

A roadmap for a common approach by the academic institutions to contribute to social cohesion through community dialogue is in place. This was done by the Peace and Development Centres (PDCs) from the 5 Darfur States, West and South Kordofan, Blue Nile and the 3 Eastern states in a workshop which was held on the 5th of June 2022. The workshop contributed to the capacity development of the PDCs leaders in conducting community dialogues and mediation, conflict sensitivity mainstreaming, setting the peace centres as safe environment for community members especially youth and women to discuss community peace related processes, and prepared mutual agenda for launching the dialogue forums in the targeted states. The dialogues are aiming at promoting and facilitating Consensus building as well as deepening relationships and trust and increasing participation of local communities (especially women and youth) in community peacebuilding processes.

Research on Housing Land and Property (HLP) data mapping, gap analysis was completed, presented, and validated in December 2021 by Norwegian Refugee Council (NRC) under a Partnership Agreement with UNHCR. It led to knowledge production in the following areas, which will be used to inform solutions and future program designs
•   Analysis of Legal Framework and Stakeholders Governing Housing, Land and Property Rights in South Kordofan, Blue Nile and Darfur
•   Developing durable solutions for internally displaced persons in Sudan's conflict zones
•   Improving Access to Housing, Land and Property for Displaced People in Sudan; Key Advocacy Issues
•   Key Information Gaps and Research Design

The invitation to the training workshop on community dialogues ensured a representation of a woman among the two invitees from each Peace and development centres. In addition, the training materials were designed to be gender-sensitive and ensuring all possible avenues for effective inclusion and participation of women.

The project with NRC is gender sensitive and inclusive. It addresses Gender Equality and Women's Empowerment by allocating 50% of activity intervention to literature in the existing body of knowledge that relates to ownership, use and allocation of land, housing and properties in general.

Outcome 3:

Peace agreement in Sudan implemented in a transparent and accountable manner, in line with relevant international norms and standards, and Sudan is better integrated in Sub – regional peace architecture.

The first visual draft of the CRD has been produced and circulated among UNCT members. UNDP team engaged in extensive work sessions with PRI, and Voluntas company to review the CRD methodological framework and develop roadmap to design an automation plan to ensure timely and cost-effective data updates and verification. a mapping exercise for reliable secondary data source is being conducted against the CRD indicators. A data infrastructure has been strengthened to develop early warning system and prediction scenarios.

In view of the mandate given to UNITAMS by the Security Council resolution 2579 (2022) and following the military coup, the project commissioned research - intended to complement the sub-national consultations (FDC, KII and questionnaires) underway by the Peace Research Institutes -, from a well-respected independent research group with expertise in political analysis and a wide network of Sudanese field researchers in each of the states in which stakeholder consultations were already ongoing: namely South Kordofan, Blue Nile, South Darfur, North Darfur, and Kassala and Red Sea states. This was intended to inform the good offices role of UNITAMS and the Special Representative of the Secretary-General (SRSG) and complement local perspectives gathered at grass-roots level by the peace research institutes in regional universities, while adding a strong analytical dimension to the upcoming peacebuilding assessments. Such analyses were an important element in providing the Mission with additional capacity to implement discreet JPA implementation programming based on its findings and recommendations. Going forward it should also serve as a reference point for future peace agreement implementation, peace talks and strategies. The work has served to inform the UNITAMS' good offices role at sub-national level, allowing the Mission to take account of evolving political dynamics at both national and sub-national levels and contribute to sustaining durable peace.

PART III: Cross-Cutting Issues

Please indicate any significant project-related events anticipated in the next six months, i.e. national dialogues, youth congresses, film screenings, etc.   *****

Please limit your response to 3000 characters including spaces.

•   State level dialogues forums will be held in Khartoum, the 5 Darfur states, East states, and the Two Areas

•   Youth peace centers will be launched in South Kordofan and Kassala state

•   Peace advocacy campaign will be implemented using radio shows, podcast, storytelling, and local artist mobilization on the ground

•   The project will resume the technical support to the National Peace Commission office

•   Capacity building mapping and capacity development plan for CSOs will be implemented

•   Capacity building programme will be tailored to establish a network of insider mediators

•   An automation plan and early warning features for the CRD will be developed and tested in partnership with Voluntas Company

•   Mapping of community dispute resolutions mechanisms, and support to these local level structures

•   Strengthening analysis on women's access to HLP rights and supporting access to legal identity documents for women.

In a few sentences, explain whether the project has had a positive *human impact*. May include anecdotal stories about the project's positive effect on the people's lives. Include direct quotes where possible or weblinks to strategic communications pieces.

This is an optional question. You may leave it unanswered if not relevant(2000 character limit)
During the period under report, the project has not had registered human impact as implementation was not smooth and according to plan due to the volatile situation.

You can also upload upto 3 files in various formats (picture files, powerpoint, pdf, video, etc..) to illustrate the human impact of the project
