Name of Country	Macedonia		
Title of Joint Programme	“Strengthening National Capacities to Prevent Domestic Violence 2008-2011”		
Project Number	[Atlas Project Number]TBD		
Area/Theme	Governance, Gender empowerment, Social Inclusion		
Brief Description of the Joint Programme	The overarching objective of this multifaceted proposed programme will be to support the Government and the civil society sector in improving inter and intra- sectoral coordination and strengthening their capacity for Domestic Violence (DV) prevention and provision of adequate victim support services. Likewise, the programme will strengthen the national capacity for measuring progress and monitoring and evaluation of the effectiveness of DV prevention efforts. The programme will combine mobilization for action at the highest policy-making levels-parliament and government, and will mobilize community-based and other civil society actors. The programme will also pilot innovative models aimed at mobilizing men as partner in ending DV as well as NGO's and the media to advocate for and contribute to change the structural and cultural conditions of gender inequality that sustain domestic and other forms of gender-based violence.
